ing corns. Thousands who have put-tered with old corns for years, have gotten rid of them right off, with a few drops of "GETS-IT," applied as quick as you can spell your name. Corns just love to be cut, picked, filed, ponedged and pulled. Quit it. You've tried cotton rings that cause shooting corn pains, greasy salves that spread over the toe and make it raw and tape that sticks to the stocking—now try "GETS-IT." It has none of the drawbacks of the old style corn cures, causes pain and never falls on any corn or callous. "GETS-IT" is sold by all druggists, 50c a bottle, or sent direct, by E. PEOPLE OF TURNER GRATEFUL TO SALEM

Turner, June 21.—(Special to Journal.)—What would be smoldering mass of ruins of the business portion as well as many residences of the city of Turner, Ore., such business buildings and residences stands today a monument to the memory of the prompt response to the call of the Salem fire department.

When the call was sent there was little hope of saving the S. P. depot, cream station, lumber yard, elevator and all of Front street, but the remarkable run from Salem (about 12 minutes) and the action of the men in getting the fire under control soon gave the citizens the assurance that they were safe with such valuable assistance at hand.

The gratitude of Turner citizens cannot be expressed in words, and Salem can well feel proud of her new motor fire engine and the loyal and able men of the department.

In response to a call to Albany, their fire department was gotten in readiness to hasten to Turner should the Salem department prove inadequate to handle the situation, and to Albany likewise the citizens are very grateful for their willingness to assist. Though the city of Salem will not render a bill for the services, it is fully expected by Turner's citizens that a more substantial expression of their appreciation of what Salem did to save the city will be forthcoming to Salem in some form or other in the very near future.

GOVERNMENT CASES MAY NOT BE AFFECTED BY DECISION

Washington, June 23.—Despite the federal supreme court's decision Monday against "outsiders" who sought to invalidate the Southern Pacific's patents to California oil land worth approximately \$500,000,000, that they might themselves file on it, it was stated today that the government would not drop its suits to recover the Midway and Coalinga properties held by the railroad.

The government view was that the ruling out of the "outsiders'" claims did not necessarily mean it could not itself recover tracts which after patents had been issued, proved to be mineral bearing.

The Midway and Coalinga suits were brought respectively by Special United States Attorneys E. J. Justice and D. B. Townsend. The lands are estimated to be worth \$100,000,000.
