SHOCK MAY PROVE FATAL TO EMPEROR - WAR MAY ENSUE

Bodies of Victims Lie in State and Nobility Flocks to View Dead Royalty

SERVIAN OFFICER FURNISHED BOMBS

So Says the Man Who Threw Them; Also Furnished the Arms for Assassin

Vienna, July 3.—Emperor Francis Joseph was reported alarmingly weak today. He was at the Schonbrunn palace with physicians attending him.

The bodies of Archduke Francis Ferdinand and his wife, the Duchess of Hohenberg, lay in state in the chapel of the Hofburg palace.

Among the masses of the people much indignation was expressed because admission to view the corpses was allowed only to the nobility, army and navy officers, civil officials and foreign diplomats.

The emperor, poorly as he was, visited the chapel. It was cleared, just before his arrival, of all but the priests and guards, and he viewed the corpse alone.

The popular opinion was that Russian and Servian intrigues certainly were responsible for the assassination.

Fresh demonstrations against residents here of both nationalities occurred last night, and today the Russian embassy and Servian legation were heavily guarded.

The dead archduke's body lay in a magnificent gilded casket; his wife in one of silver gray. The husband's was elevated a step above the wife's.

They were guarded by officers of crack regiments and by representatives of every noble Austrian house.

Outside bells tolled solemnly. The streets were packed with people watching the notabilities arrive at the chapel, enter, emerge and drive away again.

Though the bodies were sent to Armiten tonight, a state funeral will be held here tomorrow. It was thought unlikely that the emperor would appear.

There seemed every prospect that Austro-Servian relations would be further embittered by the confession of Nedeljko Cabrinovitch, who tried to kill the archduke with a bomb, that he got his explosive from Major Milan Pribitchovitch of the Pan-Servian union; that the major also armed Gavrin Prizniz, who made the successful assassination attempt, and that the officer referred to got both bombs and pistols from the Servian arsenal at Kragevatz.

It was expected that Prizniz, who was said to be weakening under cross-examination, would confess, too. According to Cabrinovitch's account, he and Prizniz were co-operating.

It was considered a foregone conclusion that Austria would demand that the Servian government explain how the assassins came to be armed from the arsenal, and if it should repudiate responsibility for this as a mere theft which it was unable to prevent, that Major Pribitchovitch's punishment would be insisted on.

It was agreed, however, that any attempt by the Belgrade government to comply with such demands, probably would mean its overthrow. The general belief was that it would refuse them, depending on Russia for protection.

The outlook was regarded as full of possibility of trouble.

THE FOURTH'S FIRST VICTIM.

Chicago, July 3.—Chicago's first Fourth of July victim was reported today. John Sullivan died of burns caused by exploding fireworks.

UNITED STATES IS A WORLD LEADER

Washington, July 3.—After a study of the statistical abstract of the United States, made public today, officials of the department of commerce concluded that although the United States is a world leader in the interchanging of products among its own people, its foreign trade is far short of its immediate possibilities.

ARE STILL LOOKING FOR CLUES TO MURDER

Theory That Someone Sent to Insane Asylum by Doctor Did the Shooting Is Gaining Credence.

Freeport, N. Y., July 3.—To the fact that Mrs. William D. Bailey, shot to death as she sat in consultation with Dr. Edward Carman in his office here Tuesday night, was killed by a woman, the county authorities said today they had definitely made up their minds.

They said they expected to make an answer before night.

The doctor's wife denied that the conversations she heard between the doctor and his woman patients by means of the dictaphone she had concealed in his office and connected with her bedroom, had aroused her jealousy.

"Complete harmony existed in our home," she said today. "I was not jealous and I am willing to testify at the inquest or at any other investigation. I never saw Mrs. Bailey until after she was dead."

Viewing the dead woman's corpse at the morgue, Mrs. Carman expressed her sympathy but showed not the least emotion or alarm.

Early today the tragedy was re-enacted for the benefit of the police. Dr. Carman showing how his office window was broken by a blow from a pistol muzzle, as Mr. Bailey was arising to leave; how a hand, holding the weapon, was thrust through the hole; how he dodged behind his operating table; how the shot was fired, the bullet striking Mrs. Bailey in the back and piercing her heart, and how she fell dead on the floor.

It was understood that the doctor himself took his own part in the reconstruction of the scene.

Freeport, N. Y., July 3.—Thinking it possible that the assassin threw away the pistol with which Mrs. William D. Bailey was shot to death Tuesday night as she sat consulting with Dr. Edward Carman in the latter's office here, the police today finished a minute search of the grounds about the Carman residence.

They found nothing.

Dr. Carman's reluctant admission that his life was anonymously threatened over his telephone some time ago, furnished a new clue on which the authorities were working. From the fact that he has served on many lunacy commissions, it was thought possible that a maniac, sent to the asylum through his instrumentality and subsequently discharged, might have fired at him and shot Mrs. Bailey by accident.

The theory that a woman did the killing had not, however, been entirely abandoned.

GRAND JURY RETURNS FOUR INDICTMENTS

The grand jury now in session for the July term of the circuit court returned four indictments today. Richard Schutte was indicted for criminal assault committed on April 6 upon Anna Vachter. He is held under \$1,000 bail.

Albert Quartier was indicted on a charge of perjury on account of his testimony in the famous chicken stealing cases held in the justice court on May 11. At that time Quartier was to appear as a witness for the prosecution but on the stand he repudiated alleged statements to the sheriff and district attorney. William Artz and Asa Tindall were implicated and tried for the theft of Herman Boertger's chickens. Quartier is held under \$500 bail.

Martin Johnson was indicted on a charge of assault with a dangerous weapon which it is alleged was committed upon the person of William Smith, generally known as "Fightin' Bill."

Three other true bills were returned but as the parties on the indictment have not yet been apprehended by the sheriff the indictments are kept secret.

PITTSBURG STRIKE MAY GET SERIOUS

Pittsburg, July 3.—President E. M. Herr, of the Westinghouse Electric Manufacturing company, was under guard today of police, state constabulary and detectives following an attempt reported to have been made to dynamite his residence in the suburb of Edgewood Wednesday morning.

The affair was veiled in a great deal of mystery. Herr explaining that the police told him he "must remain silent of the ends of justice might be defeated."

A report was current, however, that Robert Miller, of Wilkesburg, passing the Herr residence early Wednesday, saw a man planting a four-pound bomb beneath it, interrupted him and was immediately shot and so badly wounded that he cannot recover, after which the alleged dynamiter fled, abandoning the explosive.

The nearest it was possible to come to confirmation of this story was an admission by Mrs. Herr that "the reports are correct in many particulars."

The affair was, of course, accounted in the public mind with the strike which recently tied up the three Westinghouse plants in East Pittsburg. Though there were no serious disorders, the local authorities complained that the situation threatened to get beyond their control.

The company had to some extent manned its plants with non-unionists and part of the strikers had returned to work.

BIG BUSINESS NOW BACKS PRESIDENT IN HIS PROGRAM

Business Men Now Want All Uncertainties Settled, Before Congress Adjourns

ALL ASK CONGRESS TO ACT PROMPTLY

If This Is Done, Says Wilson, Congress May Be Able to Adjourn in August

Washington, July 3.—President Woodrow Wilson indicated today that congress possibly will be able to adjourn early in August as a result of the change in front of Big Business toward the administration's anti-trust legislation program. He made it plain that he fully expected the co-operation of the heads of the big corporations.

Explaining President Wilson's statement yesterday that he finds business men "more acquiescent" towards the democratic trust program, Presidential Secretary Tammity this afternoon said: "We are receiving hundreds of letters daily representing all classes of business men. It now seems to be the consensus of opinion that the business men are behind the president's insistence for immediate trust legislation and the uncertainties of business soon will be wiped out. Business interests, both big and little, are joining in the hope that congress will act promptly."

Henry Ford, multi-millionaire automobile manufacturer of Detroit, will confer with the president here either Wednesday or Thursday.

BASEBALL TODAY.

American. R. H. E. New York..... 0 5 3 Philadelphia..... 2 4 0 Washop and Nunamaker; Bender and Schang.

Second game— R. H. E. New York..... 0 3 2 Philadelphia..... 1 7 0 Pich and Sweeney; Shawkey and Lapp.

Philadelphia..... R. H. E. 3 6 1 New York..... R. H. E. 6 9 0 Oeseger and Killifer; Demaree and Meyers.

Chief of Police Shodeck, his wife and three boys, and Constable Cooper, will spend the Fourth on the North Fork of the Santiam river fishing. They expect to return Sunday evening. Fishing is reported to be excellent on the North Fork and the chief and the constable believe they ought to be able to get some of the finny tribe crooked close enough to slip a right or left hook to the jaw and score a "pull out". At any rate if they don't bring back the fish, the chief plans to land a good "fish" story or two.

Tomorrow being a legal holiday, no mail delivery will be made in the city or rural districts, and the postoffice will be closed. The carriers' window and general delivery division will be open only between the hours of 8 and 9.

CROSS ATLANTIC IN DAY.

Washington, July 3.—Alfred Graham Bell, through the National Geographic society, said today that a trans-Atlantic flight in a single day was not only possible but probable.

Commenting directly on John O'Neil's proposal to fly across the ocean in Rodman Wamsnaker's airship "America," Bell said: "I do not doubt that an ordinary machine will be able to support itself in the air at an elevation of two miles and attain a speed of 100 miles an hour. This means that a trip from America to Europe could be made in a single day."

SALEM WILL NOT CELEBRATE THE DAY

Outside of small private parties, Salem will not celebrate the Glorious Fourth this year, but will help in various ways to make the Independence day eagle scream in honor of the birthday of the nation. A large number of citizens of the Capital City will make for the country to spend the day beneath the cool shades of the forest, to lure the finny denizens from the mountain streams by way of hook and line, to hasten by auto to the seashore where the cares of the hot city will be lost amid the murmuring and splashing of the "sea waves."

On display in the windows of the sporting houses of the city are fireworks of all kinds and descriptions, from the rockets that will go skyhooking through the darkness of the night to the caps for the automatic fire pistols that are the newest fire arm for wrecking the peace of the community. Although the grown-ups will not make a big "fuss," there is little doubt but that the air will be shattered to bits.

Eugene is celebrating by having motorcycle races to furnish needed excitement; Woodburn is celebrating and has the Independent Carnival company to afford amusement; Monmouth is having an entertainment that will draw many visitors. Dallas people will go to Falls City, Monmouth and Salem.

The Monmouth celebration will be unique. Mr. Dunham, that city will impersonate Chief Multnomah and before him in procession will be carried a banner inscribed "Multnomah Leads." The various classes of the Normal school will organize as counties of the state and then will be shown the principal features of the Rose festival and the Cherry fair. It is expected that large crowds will be present to help Monmouth celebrate the Fourth.

HOUSECLEANING AT COMMERCIAL CLUB

Since taking over the secretaryship of the promotion department of the Salem commercial club, Ralph Moores and his assistant, Ivan McDaniels, are making a thorough overhauling of the property belonging to the club and making an inventory. The club finds that there are large numbers of flags used for street decoration that are missing and requests that persons having such flags in their possession return them at once as they are needed.

In order to have all business matters of the promotion department easily accessible to the public and to members interested in the work of the club, Secretary Moores is installing a new filing system. The business that goes out of the office will be written on a white sheet of paper. Two duplicate copies will be made; one copy on yellow paper which will be filed with all relative subject matter, and one on blue, which will be filed chronologically and be open for public inspection.

The rugs that were on the floor have been sent to the cleaners, the shelves in the rear room have been numbered, and plans made to keep track of all property in a careful and thoroughly up-to-date manner.

PREDICTS BIG STRIKE.

Dallas, Texas, July 3.—State Labor Inspector B. J. Flood predicted today a general strike of 70,000 firemen, engineers and trainmen west of the Mississippi river soon unless the railroads grant their demand for an 8 hour day. He said the railroad employees were holding secret meetings throughout the west.

THE COONS MAY MEET.

Hendon, July 3.—It was announced here today that Jack Johnson had signed an agreement to meet Sam Langford, most probably in London, late this fall. Johnson, it was said, will receive \$30,000, win, lose, or draw. The exact date for the battle has not been set.

THE WEATHER

Oregon: Fair in west tonight and Saturday, unsettled tonight and Saturday in east portion; possibly thunder storms; cooler except near the coast; westerly winds.

YOU'VE GOT TO BE IN STYLE

Oregon: Fair in west tonight and Saturday, unsettled tonight and Saturday in east portion; possibly thunder storms; cooler except near the coast; westerly winds.

VILLA AND OTHERS WILL DISCUSS THE MEDIATOR'S PLAN

Carranza Has Not Yet Said Whether He Will be Represented at Meeting

VILLA'S DEMAND IS MORE AMMUNITION

Insists That All Landed at Tampico Yesterday be Turned Over to Him

El Paso, Texas, July 3.—That General Carranza will visit Torreon in person to adjust his differences with General Villa was denied here today by Senior Pesquiera, the former's personal representative in El Paso. Both generals, Pesquiera said, would be represented by envoys.

It was learned that General Eduardo Hay would appear at the conference for General Obregon, the rebel west coast commander. When General Gonzalez, in command on the east coast, would send was not yet known.

The outcome was eagerly awaited here of a report that Villa had demanded of Carranza all the ammunition held at Monterey and 2,500,000 rounds said to have been landed yesterday at Tampico.

SULLIVAN TO HELP.

Washington, July 3.—John R. Sullivan, who was United States Consul at Saltillo until the American landing at Vera Cruz, was detained for a long time by the federal under General Mass and, finally, on being released, came to Washington, started back to Mexico today to try to reconcile Generals Carranza and Villa and to induce the rebels to mediate their differences with President Huerta.

MEXICANS WHIPPED, CALL ON THE YAQUIES

Juarez, Mex., July 3.—Sixty outlaws, led by Manuel Cuitierrez ambushed 23 Mexican constitutionalist scouts at Santiago Pass, near Pearson, Saturday, and killed 22, according to advices received here today. The survivors fled to Pearson, and Lieutenant Colonel Carlos Carranza immediately led 80 soldiers against the outlaws. Carranza and his men were ambushed at the same place and five soldiers were killed and four wounded. Colonel Carranza's horse was shot from under him. The soldiers fled, abandoning Carranza, who finally made his way back to Pearson. A force of Yaquies was then dispatched to exterminate the outlaws.

TRYING TO PERFECT FIRE ALARM CALLS

Delay in Giving Alarm at Fire Wednesday Morning Causes Officials to Get Busy.

Although the plan for the re-organization of the Salem fire department has not been worked out completely, the council committee composed of Councilmen Constable, chairman; Hatch and Brown, and Street Commissioner Bellows met yesterday evening and decided that the auto pumper, the auto chemical, and the combination chemical and hose wagon, and the steam pumper should all remain at the central fire station.

The question of an adequate and efficient fire alarm system for the city of Salem is receiving considerable attention from the city officials and the property owners. It has been learned that after the first and false alarm was sent in Wednesday morning that before the true alarm was received by the fire department that L. S. Rowland attempted to phone to the fire department but that central informed him that she had already sent in a call. This, on account of the serious effects that have resulted, is believed to have been error on the part of central, though no blame is attached, because she should have transmitted the call to the department though it came from a half dozen different sources.

The recent burning of the Fremont Hotel and the confusion incident to getting the call in is believed will result in a modern fire alarm system being installed. It is suggested that a "Fire" card be printed giving explicit directions regarding telephoning fires to the central station. Every person in the city would be given a card, while in a conspicuous place in front of every telephone a card would be placed. "Central" would be instructed to transmit every fire call regardless of the number that came in, leaving it to the judgment of the fire department to select the right call.

HAVE A DESPERATE BATTLE IN THE DARK

Aged Man Clubs Burglar and His Wife Finishes the Job By Choking Him to Death.

Yorkville, Ill., July 3.—After a desperate fight in the dark early today with the combatants able to find one another only by the sound of their heavy breathing, Mr. and Mrs. Joseph Grimwood, an aged couple living on a farm near here, killed a burglar who had entered this home, according to the story they told the Yorkville authorities.

Grimwood, they said, was awakened by the noise the robber made as he groped his way into their room, seized a club and attacked the intruder. The latter was armed with an ice pick as a weapon. The two men swung furiously at one another again and again. At last one of Grimwood's blows crushed upon the burglar's skull and he fell.

Mrs. Grimwood, a powerful woman of 65 years, instantly grasped the prostrate man by the throat, calling to her husband to make a light and bring a rope to tie the prisoner. As Grimwood returned the robber died, strangled by the woman's grasp on his windpipe.

THREE FOUND DEAD.

Atlanta, July 3.—With wounds showing that all three had been shot, the corpses of S. F. Bennett and two women, supposed to be his wife and mother-in-law, were found today in a swamp at Eastpoint, an Atlantic suburb.

The police theory was that Bennett first killed the two women with a shotgun and then fired a charge into his breast.

There was no explanation of the tragedy.

RACES END TOMORROW.

Denver, Colo., July 3.—The running races at Overland Park will end tomorrow. Most of the 400 horses now here will go to Vancouver for the opening there on July 11. Others will go to Butte, but most of the owners will return here with their horses for the fall meeting, opening September 19.

WILL BE "ROUGH ON RATS"

New Orleans, July 3.—Sergeon General Blue announced today that he expected to exterminate 500,000 rats here and at 30 other gulf ports within the next two weeks. No new cases of the plague were reported today and all surviving patients were recovering.

BOY DISAPPEARS; LEAVES NO TRACE

Milo Webber disappeared from his home at 2419 McCoy street yesterday afternoon and his mother Mrs. Barker, has called upon the police of Salem to assist in locating the boy, who was last seen yesterday morning by his associates.

Chief of Police Shodeck received a telephone call yesterday afternoon to go out on Capital street where it crosses Mill Creek to see if the boy was swimming there, and if he was to give him a good scare. The chief went out to the designated spot but could find no boys there. Mrs. Barker told the officers that the lad was not in the habit of going away without telling where he was going and did not generally go swimming without permission. She was, therefore, anxious concerning his absence.

This morning no news of him had been heard and Officer Jack Welsh was instructed to search the mouth of North Mill creek near the rock crusher but no trace of him was found. He had gone to the spot fishing several times previously but no one in the vicinity had seen anything of him yesterday.

When he left home yesterday morning he wore blue overalls, a light shirt, a straw hat, was barefooted and had his hair clipped close. He was about 12 years old. The mother is at home with a two-months old baby and unable to assist in the search.

LIVE STOCK COMPANY SUES THE LAND BOARD

The Pacific Livestock company has evidently filed a suit against the State Land Board as John Lewis, state engineer, was served with a summons this afternoon to appear in the federal court at Portland on July 13 to defend the case. Besides George T. Cochran and James T. Chinnock, a number of other defendants are named in the suit among them William Hanley's company, the Harney Valley Irrigation company.

This Pacific Livestock company has been prominent in the courts for a number of years and though no copy of the complaint has been furnished the defendants it is their opinion that the livestock company objects to the state land board having any hand in the regulation of the water rights of the company's lands.

Mr. and Mrs. Ira Jorgenson, Mr. and Mrs. L. S. Barnes, and Mr. and Mrs. William Skipton left today for Tillamook by auto to spend the Fourth. It is expected the party will return Monday.

Roy S. Blodgett will leave Salem tomorrow to spend the Fourth with his brother-in-law E. O. Shepard, publisher of the Sherwood News-Sheet, at Sherwood. Mr. Shepard was formerly a printer of this city.

PROVIDE FOR THE STANDARDIZING OF PUBLIC SCHOOLS

County School Superintendents Name Things That Must be Done

FLAG MUST FLY IF WEATHER PERMITS

Ventilation, Sanitation and Equipment Are the Things Most Insisted On

Before the county school superintendents left this city yesterday it was decided to extend the standardization program to all of the counties of the state. A set of uniform rules was adopted to which all of the schools of the state will be required to conform before they are standardized. About 10 counties of the state have been following the practice of standardizing their schools for a number of years but the rest of the counties have not yet taken up the practice. In each county the requirements for standardization were established by the county superintendent and as a result the requirements were higher in some counties than in others. Polk county for instance has the highest standard of requirements of any county in the state.

In order to formulate a set of requirements that would not work a hardship on any of the more backward counties the rules are not so stringent as those in vigor in some of the other counties already. Under the new system, however, it is the opinion of Superintendent Churchill that it will only be a question of a few years until all of the schools of the state are standardized under a uniform set of requirements and that the standard of the schools as a whole will be raised many times.

The standardization idea appeals to the pride of the pupils, teachers and district patrons, of the rural schools and results in a general improvement of conditions that could not be secured otherwise. The committee to draft the set of uniform rules consisted of county superintendents Semour, Wells, Sturgill, Duncan and Bonney.

The following is the complete set of rules that will be followed next year: Flag—must be flying—weather permitting.

School house—Properly lighted. Heating and ventilation—Jacketed stove and properly situated; window boards or some other improved method of venting.

Rooming—Attractive at all times. Equipment—Teacher's desk and chair; desks for all pupils properly adapted and placed; suitable blackboards, window shades in good condition.

Standard picture—One new one unless three are already in the room in a frame. Sanitation—Pure drinking water, either drinking fountain or tank and individual drinking cups.

Outbuildings—At least two good ones, free from old markings. Individual or family paper towels.

Grounds—To be clean, free from paper, etc. At least three features of play apparatus. Walks if necessary.

Library—Case for the books. Books must be in good condition and catalogued.

Teacher—Discipline, good order at all times, supervision of playgrounds, work well prepared, be at school at 8:30 a. m. Take at least one educational paper, program to be posted in the room, register in good condition.

Attendance—Average 92 per cent for the year and not to exceed two percent in tardiness for the year.

Length of Term—A term of not less than eight months.

BOYS AT PRISON WILL CELEBRATE

The present indications are that there will be but one Fourth of July celebration held in this city tomorrow. It will be an exclusive affair for members only and will be held within the walls of the State Penitentiary. The usual program of sports such as foot races, and other athletic events will be held and the day will be closed with a game of baseball between two teams selected from the baseball players of the institution.

Lemonade, red, pink, and pale will be in evidence and ice cream of all flavors will be served. While a celebration behind walls patrolled by armed guards may have its disadvantages the prisoners are congratulating themselves that there will be no spread eagle oration and no promising young school teacher will be on hand to read the declaration of independence. It is to be strictly a safe and sane Fourth of July.
