

Things Doing in Oregon

As Told by Our Exchanges

Ninety Gallons of Cherries.
Twenty-three dollars and thirty-seven cents is the sum realized from one Royal Anne cherry tree this season by J. H. Lewis. The tree is in Mr. Lewis' yard but really belongs to Mrs. Ernest Oberg of Portland. Mr. Lewis' daughter, to whom Mr. Lewis gave the tree when he planted it twenty-one years ago.

The tree is 56 inches in circumference at the base and is about 50 feet in height. It is so large that it resembles a forest tree more than a fruit tree, and it took considerable agility to pick the cherries from the topmost boughs. It is probably the largest fruit tree in this vicinity. The yield this year was something over 90 gallons. Eighty-five gallons of the fruit was sold, one-half of it at 30 cents a gallon and the other half at 25 cents. Several more gallons were consumed by the family.

When Mr. Lewis planted this tree he planted four others, and gave one to each of the children then at home. This one was given to Mrs. Oberg, then Annette Burdick, and was the only one to live.—Cottage Grove Sentinel.

Oregon Timber in Challenge.
It may not be generally known that the timber which went into Sir Thomas Lipton's sailing yacht, Shamrock IV, was cut in Coos county. The timber was cut about a year ago at the Lyons Johnson mill down the river, and Virgil Wilson, son of V. R. Wilson, assisted in the handling and tallying of it.—Coquille Sentinel.

Ferry at Harrisburg.
A ferry across the Willamette river, 6 miles north of Harrisburg, will be established by the county and will be operated by both Linn and Benton counties as a free ferry. This is the result of the trip of the county court yesterday to the site of the proposed ferry crossing. The service will be established in the very near future. At the present time a ferry is being operated at the point but this will be discontinued and the service will be greatly improved.—Albany Democrat.

Shot in the Foot.
While attempting to shoot a gray digger on a farm near Marion this morning with a .22 rifle, Bertell Chance, son of Mr. and Mrs. W. R. Chance, of this city, shot a toe on his right foot, through accidental discharge of the gun. He was brought home on the noon train. Dr. Robinson was called and dressed the wound. The wound is not serious and it is believed no complications will set in.—Albany Democrat.

The tennis championship of southern Oregon will be held in Medford, July 18 under the auspices of the U. S. National Lawn Tennis association at the Medford Golf and Country club.

THE SEVEN SISTER PETITIONS IN COURT

Each Sister Declares It Will Take the Matter of Striking Names From Petitions to the Supreme Court.

Olympia, Wash., July 10.—Sufficiency of the Seven Sister initiative petitions, proposing reform laws advocated by the State Grange and labor federation petitions, will be determined by the state supreme court. This was announced definitely today by both proponents and opponents of the proposed laws. Miss Lucy Case, favoring the bills, declares each contains sufficient absolutely legal signatures. She insists that the names should not have been thrown out on preliminary check and predicts that by what she terms illegal methods other names will probably be thrown out on the second check. So not enough will be left to fill the requirements under the primary law. Unless all of the seven are approved she will apply to the local superior court for an order compelling the secretary of state to approve the petitions. This application must be made within five days after the secretary acts.

No appeal will be made from the decision of the superior court, but the supreme court may within five days review the decision of the lower court by certiorari.

More than one hundred clerks are now working checking the petitions.

SAGE TEA DANDY TO DARKEN HAIR

Look years younger! Use the old-time Sage Tea and Sulphur and Nobody Will Know.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50-cent bottle of "Wyeth's Sage and Sulphur Hair Remedy" at any drug store. Millions of bottles of this old, famous Sage Tea Recipe are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray, becoming faded, dry, scraggly and thin have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful—all dandruff goes, scalp itching and falling hair stops.

This is the age of youth. Gray-haired unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur tonight and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.—Local agent, J. C. Perry.

Necessity is often mistaken for courage.

BABY WEEK A GREAT HELP FOR KIDDIES

More Than Thirteen Thousand Babies Under One Year Old Died in New York City Last Year.

WITH STATIONS OPENED FOR PUBLIC INSPECTION

A Valuable Feature Was the Expert Station Where Mothers Could Receive Advice and Help.

"I pledge to be a baby's friend. And everybody tell. Clean air, clean clothing and clean food. He needs to keep him well."

This is the refrain sung in every public and private school in the city as part of the exercises of Baby Week, a seven-day educational and uplift campaign in honor of the baby citizens.

Beside lessons in the proper care of babies, and exhibitions of what is being done to guard their health, there were free boat rides, and automobile rides for tired mothers—big and little—and their small charges, and baby contests with prizes for the most perfectly developed children in New York's five boroughs.

The Mayor's Letter.

In a circular letter addressed to the children and sent to be read in every class room in the city, Mayor Mitchell appealed to the children to help save the lives of thousands of babies needlessly sacrificed every year. "More than 13,000 babies under one year of age died in New York City last year," this letter stated. "It is estimated that nearly half of them would be alive today if they had received proper care, and if necessary precautions had been taken during the summer months. As Honorary President of the organization which will direct the educational and other activities of Baby Week, I ask every pupil of the schools of this city to help in the work. As future citizens you can do much to help save the lives of babies in this city."

Urged to Make Exhibit.

The secretaries of the different Commercial clubs of Douglas, Klamath, Josephine and Jackson counties met at Ashland Monday afternoon and discussed the proposition of sending a joint exhibit to the San Francisco fair in 1914. Each commercial club of the four counties will urge farmers to bring samples of wheat and other cereals to headquarters to be placed on exhibit. The best methods of exhibiting the cereals and other farm products were discussed. The next meeting will probably be held in Medford.—Medford Sun.

Eastern Oregon to Exhibit.

Baker county has decided to join with other Eastern Oregon counties and send an exhibit to the Panama Pacific exposition next year. The fair will open in February so that it will be too early for the crops of next year. Baker county must therefore gather its exhibit now in order to get the best showing. The fruits will be preserved so that they will be kept in good condition. Baker county can show the best of all branches of agriculture in Eastern Oregon and will make a convincing argument why this district is best if one best is selected and exhibited. Therefore Baker county should start at once to gather its exhibit and have it ready in time.

TAKE SALTS TO FLUSH KIDNEYS

Eat Less Meat if You Feel Backache or Bladder Troubles You—Salts Is Fine for Kidneys.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then net fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

DIVING IN NOTE TO CHILDREN CURSES THEIR STEP-MOTHER

San Francisco, July 10.—John W. Stobener ended his life in a local hotel here by sending two bullets into his brain. He left the following note, addressed to his children:

"Having become useless through age and ill health to myself and society, and having lost all happiness in life, I am determined to seek relief in the unknown. May God drive your footsteps through smoother paths than I have had to travel. May the curse of the Almighty fall upon that vampire who bore my name and who robbed me of my happiness, and my first wife, your mother."

LOWER COURT FEES FOR OREGON CERTAIN

Washington, July 9.—The senate yesterday accepted Senator Chamberlain's amendment reducing the fees of court clerks in Oregon. The senate passed the Jones bill repealing the tax on \$100 a mile on Alaska railroads and levying a tax of 1 per cent on their gross incomes.

NOT A EUGENIC.

Trent, Pa., July 9.—Mrs. Martha Chise born a sickly baby and an invalid all her life, died today, aged 100.

THE THIRD DEGREE TACTICS ATTACKED

San Diego, Cal., July 10.—"Third degree" tactics of the police of the state in extorting confessions from nervous and frightened prisoners were condemned yesterday by Attorney Joseph Scott, counsel for Mrs. Georgia Simmons Burk of Winslow, Arizona, who was held to answer to the superior court on a charge of sending poisoned candy to the two young daughters of Mrs. William K. Dagg of this city.

Scott openly charged that Mrs. Burke was intimidated at Richmond, Cal., when, with no friends or relatives present, she is alleged to have broken down and confessed that she was guilty. The attorneys referred to the entire stage setting as one of the ordinary police sweat-box kind and asserted that a woman thus threatened, was entitled to the protection of the statute.

Captain of Detectives Meyers, one of the four officials present when Mrs. Burke is alleged to have confessed with the court, Scott said he knew Meyers to be a "hogwash man of his class." He did not accuse Meyers of any abuse, but declared that the officer had used his position to give the prisoner the third degree and make her "come across."

Scott announced that the defense would plead "mental and moral irresponsibility." It will be shown, Scott said, that Mrs. Burke was going through the most critical period of her life at the time the defense is alleged to have been committed and that the high, hot climate of Arizona had been laid on her.

The court room was crowded to the doors today when Mrs. Burke, leaning on the arm of her husband, was brought from the county jail for her preliminary hearing. Neatly dressed in a light tailored gown, with becoming black hat and thin white veil, and so improved physically that few of those who attended her arraignment a month ago could believe it was the same woman, Mrs. Burke was an attentive listener to the entire proceedings. She did not offer to take the stand, nor was any testimony for the defense presented.

When at last she was bound over to the superior court and her bond reduced from \$5000 in each case to \$2500 on each of the charges, she smiled and shook hands with several of her women friends.

GIrl TELLS EXPERIENCE ANSWERING HELP WANTED ADS

San Francisco, July 9.—The revelations of Evelyn Parks, aged 15 years, concerning her experience when she answered a "help wanted" advertisement today resulted in the arrest of three men who gave the names of George Reader, John Sullivan and Harry Douglas. They were charged with a statutory offense.

Miss Parks answered an advertisement for a filing clerk. When she did not return home Monday night her mother reported her disappearance to the police. When the girl returned home the following day she told her story to Detective Furman. She said one of the men had taken her for an automobile ride and admitted that a statutory offense had been committed against her.

Detective Furman located the three men today. They represented themselves as advertising solicitors, but the detective asserts they are members of a white slave ring.

STRIKE BEGINS TO SPREAD

Richmond, Cal., July 9.—The Central Labor Council of Contra Costa county today and pledged its entire moral and active support to the union men of Stockton, where a lockout against organized crafts has been declared.

RUSSIA SENSITIVE TO ANY CRITICISM

Is Keen to Punish Critics But Does Nothing Towards Correcting the Evils that Cause Critics to Get Busy.

Lemberg, Austrian Poland, July 10.—Vigorous efforts are being made by the Russian secret police, according to confidential information received here today, to fix responsibility for the circulation of a statement widely distributed throughout Austrian Poland, attacking the Russian imperial council's rejection of the bill to introduce municipal autonomy there.

Controlled by officials named in St. Petersburg, the statement asserts, Polish municipalities are unable to spend for their own good the money which they themselves raise by taxation even such important cities as Cracow and Lodz being powerless to repair so much as a broken city hall window without the governor, general and minister of the interior's sanction, often long delayed.

"In such towns," says the statement, "ruled by distant and often hostile authorities, questions of public health and education receive little or no attention."

"The proportion of expenditure on education in these towns is only 7.3 percent while in Lemberg it is 24.7 percent and in some German towns as high as 45 percent."

"In all the towns of Russian Poland there are only 88 hospitals, with a total of 4,832 beds, the lowest figure in civilized Europe."

"The responsibility for this condition rests wholly on the Russian government and its barbarous rule."

Russian officials have shown much sensitiveness to public opinion lately and was said here to have been violently incensed when this circular was brought official attention.

STOCKS AT THE BOTTOM

New York, July 9.—A number of new low prices were recorded at the opening of the stock market today. New Haven dropped to 62 3/4 and the bond securities declined substantially. Heading the Harrison stocks and United States Steel registered fractional gains. New York Central and Baltimore & Ohio displayed considerable pressure.

AUTO GETS ANOTHER

Bakersfield, July 9.—The body of Robert Hardy, of Los Angeles, who was killed last night when his automobile toppled over an embankment in the Tehachapi Pass, was shipped to Los Angeles today. His brother, C. H. Hardy, who was injured seriously, will recover. The men were motoring from Los Angeles to Bakersfield.

SOLD DOPED TO PRISONERS

New York, July 9.—Dr. Charles F. Hastings, ex-physician on Blackwell's island who admitted today to a year's imprisonment and fined \$500 for selling morphine to prisoners.
