The principal object of the trip was to show the newspapermen the improve-ments being made in the railroad line, which is being relaid with new 75-pound steel and newly ballasted. Al-ready 36 miles of the new rails are

down on the west end of the lines, and this work, with the rebuilding of bridges and trestles has caused an ex-

penditure of \$300,000. Large crews are at work and the entire line will be

rebuilt as rapidly as possible. The im-

have been to shorten the running time between Albany and Newport by 45 minutes and to make the ride easier and

more pleasant in all respects. The trip of the party to Newport was made especially pleasant by the railroad officials and the people of Newport, who vied with each other in

their efforts to entertain the newspa-

# THE EXPRESS IS IN THIS TOWN And in to Stay

FOR seventy-five years-three quarters of a century-the express has been the right-hand of the shippers of commercial America. The express came to Salem in 1854, and it came to stay. For sixty years it has been the right-hand of commercial Salem.

It is here to stay. The other day when reports went out that the express companies might retire from business, a protest went up. From whom this pro-

test - the express companies? No! The merchants of the country - shippers everywhere petitioned Congress that no action be taken that might have the effect of forcing the express companies to retire. Commercial organizations all over the world have joined in this appeal to Washington.

For seventy-five years in the past and for a good many more years in the future Express Service will mean

In some aining the last school year. In some instances the grades are not given, as the teachers simply reported "above 95." Many of these papils were un-able to appear in the final contest held at the high school last month, on ne-count of the distance. All, however, were all the teacter the action to action the were eligible to enter the contest. Su-perintendent Smith has offered special certificates of merit for their good work in spelling during the year. He expressed the opinion that these spell-ing contests, by stimulating local pride, had done more to improve the spelling of the pupils than any single element ng time. It is also noticeable that the spelling grades in the last two years, since the contests have been instituted, have improved in the state eighth grade examinations. There are 98.6. fewer failures in spelling noted, and better general grades in this subject are recorded. This, in the opinion of the superintendent, is due directly to

OPEN DEER SEASON BEGINE ON AUGUST 1.

Follow the old time deer hunter to his home any time during the past week and you will notice that he cakes the favorite rifle from the gun rack with an air that is reverent. Further obser-vation will disclose the fact that there is a peculiar glint in his eyes, and apoutaneously comes this remark, "By Jove, the first of August opens the deer scason." Then you have solved the

weakon. Then you have solved the mystery. The calendar reports that the open-ing day is just three weeks away. Rifles are being cleaned, some are be-ing bought, and knowingly the big bucks are reported to be literally "tak-ing to the tall timber."
