THE DISEASE OF THE AGE.

NOT satisfied with shelving all men over 60, along comes Dr. Osler with the statement that 90 per cent of humanity are tubercular.

How discouraging! That leaves only 10 per cent of efficiency in the world. And perhaps when that 10 per cent has been classified—diagnosed and reduced to statistics—they may prove inferior goods, too.

And yet, in the face of this uniform inferiority, which is undoubtedly true and capable of scientific explanation, the world seems to move along.

Doctors and scientists are as zealous in fastening incurable diseases upon suffering humanity as are druggists in labeling their bottles.

Tuberculosis is not the disease of the age; the disease of this age is statistics.

Upon the tombstone of this century one may expect to read: "Reduced to Statistics."

What a white man will or will not do is one of the things that is not only beyond finding out but is without the pale of guesswork. The dispatches yesterday tell of the sheriff and ten deputy sheriffs armed with guns and carrying ropes, searching the wilds around Devil's canyon in San Bernardino county, California, for "a naked wild man with long hair and whiskers," who has terrorized the campers in that satanic section. Down in southern Oregon a gang of spectacled wiseacres are camping in the woods waiting for a naked man to get through doing the Nebuchadnezzar stunt and to come out of the pristine forest covered with bark, furs or anything else he can find to hide under. The one is pronounced crazy and the other an artist and hero. Maybe it's the whiskers that make the difference, and the long hair the distinction.

Speaking of the high prices of meats, will some packer kindly explain this: "When pork was worth 3 cents a pound on foot, bacon was worth 6 to 7 cents, the difference being 3 to 4 cents. Pork worth 5 cents on foot put bacon up to 10 and 12 cents, the difference between the two being 5 to 7 cents. With hogs selling at 10 cents, bacon sells at from 20 to 35 cents, a difference of from 10 to 25 cents. Does it cost that much more now to turn hog into bacon? If not, who cinches the consumer for that extra charge—that increased price between the raw hog and the cured meat? It does not take an expert to answer that latter question. One word will do it: "Packers."

Idaho, owing to the resignation of Chief Justice Ailshie, who is a candidate for the U. S. senate, and the absence from the state of Justice Stewart, has no supreme court, as Justice Sullivan is the only one ready for duty and he cannot make a quorum of himself. The governor says he will not appoint a successor to Chief Justice Ailshie unless an emergency arises that compels it. By September 2 the result of the primaries will be known and the governor will probably appoint the successful candidate to the place.

Now that the smoke of the discharge or resignation of George Fred Williams has blown away, it is evident that the only thing in that gentleman's assertion about William of Wied and the Albanian situation with which fault can be found is that it is the truth. Any minister or ambassador who tells the truth proves conclusively that he is not a diplomat, and is therefore dangerous to his country and unfit to hold the place. In other words, the modern definition of the term "diplomat" is, put in brief language, just "a liar."

Georgia recently elected a man to office and then discovered he was dead and had been in that condition for some years. Attention is called to this not because it is at all remarkable that a dead man was elected to office but because it is strange that the people actually discovered he was dead. Here in Oregon we have done the same thing time and time again, and will probably do it again this year, and Oregon is not alone in this, either. There are dead ones elected in every state and at every election.

The Journal frequently receives items of news and communications on various subjects, which are not published because no name is attached to them. It is the rule in all well regulated newspaper offices to require that the writer's name accompany any matter sent in for publication as a guarantee of good faith, although the name may not be attached to the printed article. All matter coming from unknown sources is consigned to the waste basket.

Those motorists who race with trains to see which will get to the crossing first often win, but the train is often so close a second that the coroner has to be called in to umpire the case, and he generally calls it a tie and all bets off. However, the train gets out of it in shape to make another race, but with some other sporty autoist. One close race generally satisfies the sporty disposition of the keenest of the speeders.

Chicago packers announce that meat prices will be higher than ever. They can't go much higher without giving indorsement to that old story about the cow jumping over the moon. Beef was pretty high on that occasion, but the Chicago packers are evidently out to break the record.

* THE ROUND-UP *

The paying to be done at Forest Grove this summer will carry the city's total up to 50 blocks.

The Cottage Grove cornet band has been reorganized with 16 pieces and will proceed to make its presence in the city known and appreciated.

"Such dry land grain crops as are growing in Baker county," says the Baker Democrat, "were never before dreamed of and offer every encouragement for vacant hill land to be located."

Fort Rock Times: Holes for telephone poles have been dug from Silver Lake north to some distance past Fort Rock. It may be that we'll soon be able to say "Hello, Bend! Hello, Lakeview!"

Roseburg Review: Trainmen arriving here from Glendale on yesterday morning's Cow Creek "bullet" report seeing 20 deer on either side of the tracks. At the time the animals were grazing contentedly along the mountain side, and appeared to pay little if any attention to the moving train. It is said that deer are more plentiful in the canyon this year than for many seasons past.

Speed fiend solution proposed by the Amity Standard: "We don't favor any more state commissioners, but we believe there is a sanity board already in existence, and it might be a wise thing to enact a law whereby any one caught driving an automobile at excessive speed, unless it could be proved that such speed was necessary, could be taken before the sanity board and dealt with the same as people who are crazy on any other subject."

BECKEY TRIES HUNGER STRIKE.
New York, July 22.—Beckey Edelson, arrested in Union Square here several days ago and sentenced to Blackwell Island for inciting to riot during an I. W. W. meeting, continued her hunger strike today. She has not eaten anything for more than 45 hours.

Dr. Katherine Davis, commissioner of corrections, decided to attempt forcible feeding if necessary to save the prisoner's life.

HIS WIFE IS HELD.
Portland, Ore., July 22.—On recommendation of the coroner's jury, Mrs. Johanna Dawson, wife of George S. Dawson, who died last Wednesday of strychnine poisoning, was being held today for further investigation. The jury held that Dawson came to his death by means of strychnine poisoning administered or taken in some manner unknown.

College Woman Has Fewer Motives For Marrying Than Non-College Woman

By Dean VIRGINIA C. GILDERSLEEVE of Barnard College

SINCE the college woman is probably better able to support herself she is less likely to marry for a livelihood. Since she is more likely to find the world an interesting place she is less likely to marry because she is bored. After taking a college degree a woman has fewer motives for marrying than a non-college woman.

THE NUMBER OF DIVORCES AMONG COLLEGE WOMEN IS MUCH LOWER THAN AMONG NON-COLLEGE GRADUATES. WE EXPECT THE COLLEGE WOMAN TO HAVE A GREATER SENSE OF HER RESPONSIBILITY TO THE COMMUNITY, BUT THE WAY THE WORLD IS GOING ON NOW I WONDER WHETHER THERE WILL BE ANY REAL HOMES AT ALL IN THE FUTURE BECAUSE OF THE INCREASING PREVALENCE OF DIVORCES.

We expect the college woman to MARRY THE RIGHT MAN AFTER SHE MEETS HIM, and we should expect her to have the training to make her marriage a happy one.

Foot Passengers

Footpassengers should be suppressed, all motorists agree; long since they ceased to be a pest, and they're a nuisance now. There's nothing harder on a car than running over men; it gives the works a jolt and wrecks the springs again. This spring I bought a new machine that took most all my pile; I filled its tank with gasoline, to try it for a mile; two neighbors got beneath the wheels—their nerve was cold and raw; what wonder that a driver feels there ought to be a law? It takes all pleasure from the game, it spoils the joyous craft, to find that some wayfarer's frame is wadded around the shaft. The walkers say they have a right to alley, street and lane, and just to demonstrate their spite, they let themselves be slain. Police-trains will go too far; they're claiming now, 'tis said, that every man who runs a car should stop and plant his dead. With jealousy their breasts are filled; since they can't ride in cars, they take delight in being killed, in gaining wounds and scars; by this they're hoping to create a sentiment adverse to the, the pastime of the great—could jealousy do worse? Our legislators on our courts should shield us from such shocks, should guard the nabobs of all sports, and jail the man who walks.

LADIES! DARKEN YOUR GRAY HAIR
Look Years Younger! Use Grandmother's Recipe of Sage Tea and Sulphur and Nobody Will Know.
The use of Sage and Sulphur for restoring faded, gray hair to its natural color, dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and abundant. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.
But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50 cent bottle of "Weyth's Sage and Sulphur Hair Remedy", you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair, and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.
A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark, glossy, soft and abundant. Local agent J. C. Perry.

WANT \$50,000 DAMAGES.

Los Angeles, Cal., July 22.—Asking damages of \$50,000 for the death of their husband and father, Mrs. A. B. Shaw and her four children have brought suit today against R. B. Lomax, a jeweler, who shot and killed Shaw a week ago. Mrs. Shaw asks an early hearing of her claim, setting forth that she is in destitute circumstances, and further, that if Lomax should be sentenced to death for killing her husband, she would have no recourse.

WITNESS AFTER WITNESS IN SALEM.

Such Evidence Our Readers Cannot Dispute.
As we take up the Journal, we are struck by the hearty, unmistakable way in which witness after witness speaks out as Mr. Hill does here. If these people were strangers living miles away we might take little notice of them. But they are not. They are our neighbors, living among us. Their word is too easily proven to admit of any doubt. They speak out in the hope that their experience may be a guide to others.
C. W. Hill, wagonmaker, 1929 North Front St., Salem, says: "I had more or less backache and my kidneys were disordered. Doan's Kidney Pills have always relieved me in a short time. I know of several other people who have taken Doan's Kidney Pills with good results. You may continue publishing the statement I gave before recommending them."
Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Hill had. Foster-Milburn Co., Props., Buffalo, N. Y.

Late Yesterday

Chicago.—The Esperantists' Association of North America chose San Francisco for its 1915 meeting.

Brussels.—A parachute with which she jumped from Aviator Champel's biplane failing to work, Mme. Cayat De Castella fell 1000 feet and was killed.

Washington.—The Georgetown seismograph recorded a sharp earthquake, beginning at 5:51 p. m. and continuing for 15 minutes, about 1900 miles from Washington.

Three Rivers, Quebec.—Word was received of the burning at Cape Magdalen, near Three Rivers, of \$500,000 worth of wood pulp.

Fargo, N. D.—Towns along a two-to ten-mile-wide path, from Antler to Berwick, reported 100,000 acres of grain destroyed by hail.

San Francisco.—Francis V. Keesling, candidate for republican governorship nomination, held his first San Francisco rally.

Oakland, Cal.—Allan Hudson, 16, tried to save his brother James, seized with cramps while bathing in the estuary, but failed and both were drowned.

SALTS FINE FOR ACHING KIDNEYS

We eat too much meat which clogs Kidneys then Back hurts and Bladder Bothers you.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.
You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.
Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.
