To have worked all day gathering up the will of a city and in the evening driving it home in a wagon to fatten up a drove of hogs and then just as the journey was about finished to have a Southern Pacific train hit the wagon and scatter will to the four corners of the earth was the experience yesterday evening of Kasper Meier, who lives near the Oregon training school. The wagon was practically demolished and scattered in chunks along the track for about half a mile while at the first crash there was a shower of will that would have done credit to a tidal wave. Horses and driver were unhurt but somewhat dazed by the narrow escape.

PRIZES OFFERED DAHLIA GROWERS

In order to give the amateur Dahlia growers of the state a chance to win some special prizes the board of the state fair directors has decided to offer premiums for this class of exhibits to the exclusion of professional growers. The professional growers will not be permitted to compete in this class though they will be given space in the building to exhibit their flowers. The board has set aside a large building, 40 by 80 feet for this flower show. It is the building occupied by the Eugenic baby contest last year. This year the Eugenic show will be placed in the space occupied by the art department in the old pavilion. The art department will be placed in the new building now under construction at this year's fair. The entries will close Sunday, September 27, 1914, at 6 o'clock p. m. and all of the blooms shown in this class must be grown by the exhibitors themselves. Exhibits in this class will be shown flat. All necessary material, moss, burlap, flats and vases will be furnished by the Fair Board. Exhibitors are urged to bring some of their best varieties with long stems, for exhibition as cut flowers in vases. This will have a bearing on the awarding of premiums. Premiums will be awarded on the following: Size of exhibit, condition of bloom, number of varieties and new varieties. Class 104 1/2. (Continued from page one.) seize the Austrian and German shipping there if war is declared. Austrian Troops Repulsed. Nish, Servia, July 31.—That Austria's forces had failed to capture the pass admitting them to the Morava river valley, by which they planned to invade Servia, was announced by the war office here today. It was stated that the fighting was desperate and that losses were heavy on both sides. Two Austrian divisions, it was added, had failed to force the Kovatsoh defile after an all-day fight on the banks of the River Drina. Air Fleet Preparing. Paris, July 31.—Commanders of rendezvous stations of naval reservists ordered today a stock of commissary supplies in anticipation of a mobilization order tomorrow. The aeroplane division also was preparing for action. Think This a Blind. London, July 31.—That a German army mobilization would be ordered today was denied in a Berlin message received by the Exchange Telegraph company this afternoon, after being passed by the censor. It was considered obvious here that the dispatch was intended as a blind. King George has cancelled all his engagements. Murray Wheat and Raymond Rowland, both of whom graduated from the Willamette university college of law with the class of 1914, have located in Astoria, and will make that city the scene of their labors in the practice of law. They have offices in the I. O. O. F. building and are greatly encouraged with the prospects so far.
