

By Appointment to His Royal Highness, The American Gentleman.

THE BOSS:— Happen to have a cigarette about you?
SECRETARY:— Yes, sir,— a "London Life."
THE BOSS:— That's a better cigarette than I can afford, my boy. Reminds me of the half-a-crown-a-box kind you get in London. Afraid you're not saving much money with such extravagant tastes.
SECRETARY:— Oh, I don't know. Ten Cents a box doesn't seem very steep.
THE BOSS:— 10 Cents! Impossible! You can't buy a cigarette like that for 20 Cents.
SECRETARY:— Everybody who tries them says just that. But 10 Cents is the price.
THE BOSS:— Wonderful! (Ringing bell.) Boy, run out and buy me half a dozen boxes of "London Life."

FORMER BANDIT HOPES TO WIN AT PRIMARIES

Al Jennings, who served term in Pen. Out for Governor T. P. Gore, the Blind Senator, Up For Nomination.

Oklahoma City, Okla., Aug. 4.—Banditry and the badger game have figured spectacularly in the political race which ended its first lap in the state-wide primaries today. If Al J. Jennings, former bandit, wins the nomination for governor, and Senator T. P. Gore, the blind statesman who successfully defended himself from —ra. bond's assault charge, wins a re-nomination, two of the most unique political campaigns in the history of America will have been successful.

Jennings has been running on a "beating back" platform. Gore repeatedly has been forced to refer to Mrs. Bond's unsuccessful \$50,000 damage suit for an alleged assault in a Washington, D. C., hotel. Badger game, Gore has called it. Samuel W. Hayes, former chief justice of the state supreme court, is the blind senator's opponent in the primaries. In the gubernatorial race opposing Jennings are Charles West, attorney general; Robert L. Williams, supreme court justice; F. S. Herring, merchant; Robert Dunlop, state treasurer, and J. B. A. Robertson, former supreme court justice. John Fields, Republican nominated in convention several weeks ago, is unopposed. J. T. Hickman is the only Bull Moose candidate for governor.

For state offices there are more than 200 candidates in all. Seven present congressmen are in the congressional race today, and in the fifth district two congressmen were opposing each other by virtue of a prerogative passed in the last legislature assembling their districts. This pair are Joe B. Thompson, Democratic congressman-at-large, and Claude Weaver, congressman from the fifth district under the old district plan. "Alfaifa Bill" Murray is a candidate for re-nomination in the third district; D. Carter in the fourth, Scott Ferris in the sixth, and D. T. Morgan in the eighth. Morgan is the only Republican. All are opposed by several candidates.

LEADER OF SOCIETY AND RELATIVES PHOTOGRAPHED AT NEWPORT.

Left to Right—DUCHESS OF MARLBOROUGH, Mrs. WILLIAM K. VANDERBILT, Jr., Miss BARBARA VANDERBILT, Mrs. OLIVER H. P. BELMONT, Miss MURIEL VANDERBILT.

Three generations are represented in the group photograph, a leader of society in America, are the Duchess of Marlborough, her daughter-in-law, and the Misses Muriel and Barbara Vanderbilt, her granddaughter and great-granddaughter.

HOW TO LOSE YOUR TAN, FRECKLES OR WRINKLES

A day's motoring, an afternoon on the tennis ground or golf links, a sun-bath on the beach or exposure on a sun-trip, often brings on a deep tan or vivid crimson or, more perplexing still, a vigorous crop of freckles. A very necessary thing then is mercurized wax, which removes tan, redness or freckles quite easily. It literally peels off the affected skin—just a little at a time, so there's no hurt or injury. As the skin comes off in almost invisible flaky particles, no trace of the treatment is shown. Get an ounce of mercurized wax at your druggist and use this nightly as you would cold cream, washing it off mornings. In a week or so you will have an entirely new skin, beautifully clear, transparent and of a most delicate whiteness.

GERMANY WILL HELP IF SHIPS ARE FURNISHED

Berlin, Aug. 4.—The German government today announced its willingness to furnish transportation to the coast for Americans stranded here, if the United States will provide vessels to take them off.

The city was quiet. Indeed, the absence of a large part of its male population at the frontier made it quieter than usual. Little business was being transacted. Prices of food were advancing so rapidly that a maximum was decreed by the government.

BOMBARDS ALGERIA PORT.

London, Aug. 4.—A German cruiser was bombarding the French naval station at Bonn, Algeria, today, it was stated at the French embassy here.

MAY HAVE FIGHT NEAR AMERICAN COAST

New York, Aug. 4.—Ships arriving here today reported sighting two cruisers off the Atlantic coast flying no flags. They were believed, however, to be the Essex and the Suffolk, of the British fleet. The French cruiser Conde was also believed to be in the vicinity of the American coast. Reports were current, too, that the German warships Dresden, Karlsruhe and Strassburg were cruising somewhere off the southern states. If an Anglo-German war is declared it was thought likely the six vessels might fight.

MANUAL TRAINING WORK FOR WOMEN TEACHERS

Oregon Agricultural College, Corvallis, Ore., Aug. 3.—A manual training course, the first year of which is adapted to women as well as men students, is advocated by Professor Frank H. Shepherd, who has been recently added to the industrial arts faculty at the Oregon Agricultural college. This course should be arranged with a view to fit teachers for industrial work in rural schools. Mr. Shepherd claims that there is a heavy demand for women teachers of domestic science who can at the same time conduct the work in manual training, and that the course should be arranged to meet these requirements. Many rural schools also desire men teachers who can teach manual training and at the same time care for

the work in agriculture, athletics or art. This demand should likewise be responded to in an industrial art course. In this course the students should be trained during the first year, and all work succeeding that adapted to his special inclination and talent. The entire course should be so arranged that a student may drop out at the end of any semester after the first year and be prepared to teach. The work of this course in physics should prepare students to understand the right use and care of equipment in homes and other institutions, with special regard to sanitary effects. It should teach the hows and whys of common everyday material and its uses, including the water supply, plumbing, sewers, heating, ventilation, refrigeration, gas supply stoves and lamps.

Mercurized wax is apt to form a thin film on the skin, which may be easily and quickly removed by bathing the face in a solution of powdered salicylic acid dissolved in witch hazel oil. This is not only a valuable skin treatment, but has a tonic effect on the skin.

OPEN FORUM

WOULD RELOCATE ROADS.

Editor Journal: That the sentiment for permanent good roads for the rural districts is growing few will deny. Before we commence permanent road building we certainly need to do some relocating of roads. I refer to the hilly portions of our county, for example take the road from Salem to Buena Vista it is very hilly and it requires a tremendous amount of energy to travel it when heavily loaded. The Portland, Eugene & Eastern have surveyed a line from Salem to Rosedale which practically eliminates the hills. If it is good business for a railroad company to locate their lines where the least resistance is offered, why is it not good business for the county to locate their roads accordingly? It seems to me the present location of our roads is a reflection on our intelligence. I am in favor of a law authorizing the State Engineer to locate and change the location of roads and putting them where they being where the least resistance is offered. We need a competent engineer who knows where a road should go and is not afraid to put it there. Oh but some will say you can not get a road changed through the prime belt where land is worth from \$200 to \$500 per acre. In reply to that I would say we have the public and the individual or the private owner to deal with, the roads concern everyone, man, woman and child, the public and their interest should be considered first, the private owner should be liberally compensated for land appropriated for roads and for damage to property. The county judge and commissioners could appraise land and determine.

GERMANY DECLARES WAR ON FRANCE

Berlin, Aug. 4.—Germany today issued a formal declaration of war against France. Accompanying the declaration, the foreign office issued a statement charging specific violations of the Frontier by French troops, accusing French aviators of hurling bombs into unprotected German towns and insisting that Germany had striven to keep the peace "despite French aggression." It was also announced that the German authorities at Stuttgart had seized 22,000,000 gold coins from Russia. The United Press' Berlin bureau was besieged by American refugees today, clamoring to know whether the Washington government intended to send transports or warships to rescue them.
