Porcupines are rare finds in this part of the valley.

Owing to the fact that the Pendleton Round-Up is held during Lane county fair week and the members of the Radiators cannot very well get away from business at that time, and further that the Salem cherries are expected to be on one day of the fair, the Eugene Radiators have decided conclusively that they will not make their contemplated trip to the Round-Up.—Eugene Register.

Earl Kilpatrick, formerly principal of the Salem high school, but now connected with the University of Oregon extension service, was in the city today making preliminary arrangements for the University of Oregon exhibits at the state fair. He came from Eugene this morning and will return this evening. The university will have a space 42 by 23 on the left side of the entrance to the old pavilion. The exhibit will show something of the work done by the departments and especially of phases of the extension department.

As a result of the dictum of chief of police of Portland that all hoboes must either go to work or go to the reformatory, there has been an exodus of the gentlemen of the road for valley points. They have been arriving in this city in bunches and it has kept the depot of fever busy keeping them on the move. Chief Shodeck sends an extra man out as night to help Officer Fisher, who has his hands full at times. They are ill-tempered visitors and likely to commit any kind of depredation. There was a bunch rounded up last night and herded into the city jail for safe-keeping over night.

W. F. Lord, formerly a practicing attorney of this city, now of Portland, will be the progressive party's candidate for attorney general, having filed his acceptance of the nomination with the secretary of state yesterday. He was a candidate in the republican primaries for the office but was defeated by George Brown, of Roseburg, who, with John J. Jeffrey, will oppose him for the office. Secretary Olcott says four progressive nominees and 10 dem-

cratic nominees have failed to file their acceptances of nominations within the time limit.

The flags of the Salem Commercial Club are being repaired today so they will be presentable for decoration during fair week. The ribs are being sewed together and shenks are being fixed to the flags can be put up and down without tearing. About 300 will be strung on the street wires a few days before the fair opens.

The plaintiffs in the case of Grace Howell et al against Filicia F. Howell and Amy N. Howell have appealed the case to the supreme court, according to a notice filed by their attorneys today. The suit arose over the ownership of a small tract of land near this city. The decree of the circuit court where the case was tried before Judge Galloway was in favor of the defendants, and the title in fee simple to the tract of land in question was adjudged to be vested in Filicia F. Howell.

"We have a set of politicians in California who boost and blow but we can look to Oregon and Wisconsin for something genuine in the way of legislation," writes Otis A. McKelvie, of Los Angeles, to Secretary of State Olcott. "As far as your corrupt practices provisions are concerned, your laws are as far ahead of the California laws as New York is from Salem." Mr. McKelvie went on to say, "He made the above comment upon acknowledging the receipt of "Statutes and Constitution Relating to Elections in State of Oregon" from the secretary's office.

By raising a giant cosmos to the height of five feet six inches with a six foot spread of branches on a half-gallon of Marion county soil, Max Gelihar claims to have broken all records for domesticating outdoor plants. The seeds were planted late in May and the plant has made this growth within the four walls of a room. When transplanted in the half-gallon soil in which it now grows the plant was about two inches high. Mr. Gelihar says he got the soil from his farm after it had been used to grow a crop of prunes.

Large numbers of visitors from the east, and especially from Oklahoma and Canada, are thronging through the Willamette valley at this time looking for suitable locations. Four men from Oklahoma visited the commercial club yesterday and each day finds some one looking for a farm or fruit ranch. The season is opening up well and it is expected that a large number of visitors will be served. These people belong to the industrious class and have land which they want to sell, or exchange. Some are here to extend their interests and others want a change in location. They are being well-cared for by the real estate men of the city.

Captain William Swan, of the Salem fire department, left this morning on his vacation. He will be absent 10 days and during that time will visit the fair at Vancouver, Washington, and make a flying trip over to Pendleton to view the Round-Up. He expects to crowd into 10 days more excitement than he can get in fighting Salem grass fires and old hotels. Earl Beck, another of the city's doughy fire-fighters, is also on vacation for 10 days. He struck out for the southland and will hunt deer in southern Oregon with his uncle, who preceded him several days to the hunting grounds in order to round up enough deer to occupy Mr.

Immediately after he fell he was taken to a barn by his fellow countrymen. Coroner Clough was called this morning and went to the scene. ATTENTION CALLED TO RAILROAD NEEDS

Washington, Sept. 10.—President Wilson this afternoon agreed to call the public's attention to imperative financial needs of the railroads, as requested by railroad officials yesterday. He agreed that the present emergency was extraordinary, but insisted that he did not entertain any anxiety "except general anxiety caused by the unprecedented situation in the world's money markets."

The president today wrote to Frank Trumbull, chairman of the board of directors of the Chesapeake and Ohio railroads, as follows:

"You ask me to call the attention of the country to the imperative need of railway credit being sustained, that the railroads be helped in every possible way, whether by private co-operative efforts or by action, wherever feasible, of governmental agencies and I am glad to do so, because I think the need is real. I am confident there will be active and earnest co-operation in this matter, perhaps the one common interest in our whole industrial life."

"Undoubtedly men in and out of official positions will appreciate what is involved and will lend aid heartily wherever it is possible for them to lend it."

A very pretty wedding was solemnized at 5 p. m. Saturday at the home of Mr. and Mrs. M. J. Lindahl, where their daughter, Clara Josephine, became the wife of Mr. Forrest Dunton. The house was beautifully decorated in ferns and chrysanthemums. The young couple entered the room to the strains of Lohengrin's wedding march, played by the bride's sister, Miss Grace. The archway under which they stood was decorated with ferns. At 12 o'clock the ring ceremony was performed by Rev. L. S. Moschell, of Coquille. The bride wore a dark blue conventional black.
