SPENCER HARDWARE COMPANY, 466 TO 472 STATE ST.

WISCONSIN STATE TO HAVE THAT WAD OF \$450,000

Governor West, who has been in the state for the last few days, has been looking into the possibility of having the \$450,000 appropriated by the federal government, within the state. Relative to this purpose, he is making the following statement today: "I have had a conference with officials of the U. S. Reclamation Service here in the extension of Tumalo dam. E. G. Hagan, the U. S. supervising engineer, and his associates have been making their investigation work on this report will likely go forward to the Secretary of the Interior within a few days. The \$450,000 allotted to Oregon by the Secretary of the Interior for cooperative work will be lost to the state if it is not approved before the first of the month. It is hoped to see this money go to either completing the Central Oregon Irrigation company's project or to the Tumalo project. If ap-

plied to the Tumalo project, it would mean the government's taking up the work where the state will leave off November 1st, and extending it so as to place water upon 16,000 additional acres and at a probable cost of about \$40.00 per acre. The government's report will be awaited with interest."

Cinnamon Buns—1 pint flour; 1 tablespoon sugar; 1/2 teaspoon salt; 1 heaping teaspoon Crescent baking powder; 2 tablespoons butter.

Sift together flour, sugar, salt and baking powder. Rub in butter and wet with enough milk to make soft dough. Roll out one-half inch thick, spread with soft butter, sugar and powdered cinnamon. Roll like jelly roll, cut in inch thick slices, place close together on greased pan and bake in moderate oven.

When whipping cream beat slowly for the first two minutes and then very rapidly.

If bacon is soaked in water for a few minutes before frying it will prevent the fat from running.

Save the vinegar left over from pickles. It is better than ordinary vinegar for salad dressing.
