

ONLY SIXTEEN, GIRL VERY SICK

Tells How She Was Made Well by Lydia E. Pinkham's Vegetable Compound.

New Orleans, La.—"I take pleasure in writing these lines to express my gratitude to you. I am only 16 years old and work in a tobacco factory. I have been a very sick girl but I have improved wonderfully since taking Lydia E. Pinkham's Vegetable Compound and am now looking fine and feeling a thousand times better."

St. Clair, Pa.—"My mother was alarmed because I was troubled with suppression and had pains in my back and side, and severe headaches. I had pimples on my face, my complexion was sallow, my sleep was disturbed, I had nervous spells, was very tired and had no ambition. Lydia E. Pinkham's Vegetable Compound has worked like a charm in my case and has regulated me. I worked in a mill among hundreds of girls and have recommended your medicine to many of them."

There is nothing that teaches more than experience. Therefore, such letters from girls who have suffered and were restored to health by Lydia E. Pinkham's Vegetable Compound should be a lesson to others. The same remedy is within reach of all.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman held in strict confidence.

ESTIMATES YIELDS OF THE NEW WAR TAX

Washington, Oct. 15.—Secretary of the Treasury McAdoo yesterday informed the senate that the pending war tax bill will raise \$107,400,000 annually. If the reduction in beer consumption during the past few months continues, Secretary McAdoo said the total would be reduced to \$99,498,000. McAdoo estimated the following revenue will be available from the war tax:

Beer, \$45,705,000; rectified spirits, \$5,000,000; sweet wines, \$4,900,000; dry wines, \$3,250,000; bank tax, \$4,300,000; pawbrokers, \$250,000; commission brokers, \$250,000; customs brokers, \$12,000; theatres and moving picture houses, \$1,000,000; tax on stocks and bonds, \$5,000,000; chewing gum, \$3,000,000; telegraph company tax, \$1,000,000.

October from in Coquille Seaside: "Since the abundant rains this month the Coquille valley has put on new robes of verdure, and we are again impelled to call it 'the most beautiful country in the world.' To us it is many fold more charming now than towards the close of our rainless season, when dust and dried herbage were so much in evidence."

BATTLE OF WARSAW OF VAST IMPORTANCE

Russia Has 1,500,000, Germany 1,000,000 Men On the Firing Line

Petrograd, Oct. 15.—That all the rest of Russia's military plans were held up pending the outcome of the battle with the Germans along the Vistula and San rivers between Warsaw and Przemysl was admitted by the general staff today. The military authorities showed no inclination to admit that the Germans deceived them into thinking the kaiser intended to invade Russia by way of Suwalki province, when his real purpose was to strike directly eastward at Warsaw. Instead they asserted spies must have revealed their own plans to the Berlin government.

Nevertheless, it was pointed out, if the Russians succeed in breaking the German line in Poland, the way will be opened to the Russians for an advance on Berlin. It was owned that the fight was of such importance as completely to overshadow the Galician campaign.

Involved in the battle it was estimated there were 1,000,000 of the Teutonic allies, including 12 German and 10 Austrian corps of the first and second lines. The Russian force was believed to be about 1,500,000, including 26 corps.

ARIZONA'S GOVERNOR HAS NOT YET ERUPTED

Phoenix, Ariz., Oct. 15.—Though Governor Hunt had telegraphed President Wilson that he had no men to embarrass the administration by ordering state troops to the Mexican border, his order to the national guard to be prepared to move at a moment's notice had not been countermanded today.

The governor was reported to be assured that the administration is making every effort to restore normal conditions at Naco and Douglas. It was intimated here that he received certain assurances from Washington that have not been made public.

AN INDICATION THAT HE IS PREJUDICED

Boston, Oct. 15.—While nobody could be found who would discuss the matter officially, it was the general opinion in well informed circles here today that the Harvard corporation was altogether unlikely to accept Professor Hugo Münsterberg's resignation, offered Wednesday, as a sequel to a proposition said to have been received from Major Clarence Weiner of London to leave the university \$10,000,000 on condition that Münsterberg be dismissed for his pro-German utterances. The professor said he sent his resignation to President Lowell because he wanted to "leave the faculty free to act without considering my feelings."

A young man is apt to be an optimist when sowing his wild oats, but he develops pessimism when the harvest begins.

HOP MARKET IS HOLDING STEADY

Portland, Ore., Oct. 15.—The hop market appears to be holding its own without difficulty. If anything, the feeling was better yesterday, as larger orders came forward from the East.

Ralph E. Williams bought 300 bales in the Dulles section, including 13 bales from H. D. Campbell at 10 1/2 cents, and the Williams & Bush crop. The J. W. Seavey company bought 80 bales from Newhall & Lacey, of Sheridan, at 10 1/2 cents. T. A. Livesley & Co. paid 10 1/2 cents for three St. Paul lots, those of Matt Conners, 37 bales, Tom Conners, 77 bales, and McDonald, 65 bales. Kluber, Wolf & Netter bought the Milby crop of 325 bales at Aurora at 10 cents. The Crosby and McCormick crops at Woodburn were sold at 10 cents.

The Kentish Observer, of October 9, says of the English crop: "The hop crop is practically gathered in. Many growers in and around Canterbury have finished up the picking this week; in other cases the end was reached three or four days ago, but there are a few places in East Kent where the work will go on until the end of this week. The general opinion now appears to be that the crop will be nearer 450,000 than 450,000 cwt. We have heard of many average yields of 18 cwt. and 20 cwt. per acre. At Southfleet, in Mid Kent, a piece of 25 acres yielded over 30 cwt. per acre. At Ickham, in East Kent, 87 pockets were produced from 4 1/2 acres—an average of about 20 cwt. per acre. And there are numbers of similar cases all over Kent."

There is an increasing demand for new hops, but the prices continue much below the ideas of the growers. The choice East Kent growths are not yet on the market. From 4 1/2 to 5 1/2 per cwt. is the prevailing currency for best hops.

No business is reported in California, as the trade there is said to be unaware even at this time that the market has dropped below 20¢ a pound.

A late New York mail advice says of the general situation: Bales. Receipts for week ..... 2094 Receipts since Sept. 1 ..... 6042 Exports to Europe for week ..... 129

DANDRUFF SOON RUINS THE HAIR

Makes It Lifeless, Dull, Dry, Brittle and Thin.

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't. It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will be silky, lustrous, soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

WOMEN'S CLUBS MEET IN EUGENE

Eugene, Ore., Oct. 15.—In her address to the delegates to the fourteenth annual convention of the Oregon Federation of Women's clubs in session here yesterday, Mrs. Sarah A. Evans, of Portland, president, urged the club women of the state to focus their attention the coming year upon universal peace and to make this topic the central theme of all their conferences. "The world is depending on the study and intelligence of the individual woman as never before," said Mrs. Evans.

FIND ANDERSON GUILTY AS CHARGED

After an hour's deliberation, the jury in the case of the State against Anderson, charged with a statutory crime against his 13-year-old daughter, found him guilty as charged and he will be sentenced by Judge Kelly Saturday. Conviction on the charge carries a sentence of from 20 years to life. The defense attempted to prove that the girl, Blanche Anderson, was not the man's daughter. Anderson testified on the stand that the girl was an infant when he first met the girl's mother and they began living together. He said they were never married and lived together for seven years.

After he had been living with the woman for two and one-half years, he discovered that she was an immoral woman, and four and one-half years later he left her. "He took the girl with him and placed her in a convent. A few days ago and since that time father and daughter have been living in different places in Oregon, Washington and Idaho. They arrived along the bank of the Willamette slough October 4 and were arrested on the following Wednesday by Sheriff Esch, to whom the girl told her story.

The girl has been in the custody of the matron of the girls' industrial school and will be kept there until other arrangements are made. Attorney Weber, for the defense, presented an oratorical broadside point blank at the jury, but the character of the evidence was such that the jury required but little time for deliberation, and brought in a verdict about 7 o'clock last night.

SEATTLE BANDIT IS STANDING SIEGE

Seattle, Wash., Oct. 15.—A posse of police and detectives is closing in this morning on the bandit who yesterday afternoon held up and robbed P. L. Sulta, of the United States Automobile Supplies company near South Park, a Seattle suburb, getting a small sum of money and a gold watch.

After spending the night in the woods, the bandit appeared just after daybreak at a considerable distance from the police camp, established last night at the Lake Burien station of the municipal car line.

The police opened fire and the high-walker, running low, disappeared again into the woods without returning the fire. It is known he is armed, but the police think he is saving his ammunition for the fight they believe he will offer when they attempt to capture him.

The police posse have the bandit surrounded in his hiding place and are creeping upon him, using trees and stumps as protection against possible bullets.

The man was seen several times yesterday afternoon and sharp pistol duels resulted between him and the police. Nobody was injured, however.

MEXICAN SITUATION SOMEWHAT BETTER

Washington, Oct. 15.—The tension regarding the Mexican situation had relaxed somewhat today. The situation was relieved by the reported resignation of Provisional President Carranza to the Aguan Salientes conference and the election of General Antonio Villarreal as his successor. Although the state department had not been officially advised of Carranza's resignation, the report was regarded as authentic.

LOCAL DRUGGIST MAKES MANY FRIENDS

J. C. Perry reports they are making many friends through the QUICK benefit which Salem people receive from the simple mixture of buckthorn bark, glycerine, etc., known as Adler-ka. This remedy became famous by curing appendicitis and it is the most thorough bowel cleanser known, acting on BOTH the lower and upper bowel. JUST ONE DOSE of Adler-ka relieves constipation and gas on the stomach almost IMMEDIATELY.

Exports from Sept. 1 ..... 1926 Imports for week ..... 196 Imports from Sept. 1 ..... 236

"Prices have suffered a further decline at all primary points. The drop in New York state is to 37¢/58¢ for best hops and no one seems disposed to take hold on that basis; the lower qualities, of which a large part of the crop consists, are entirely neglected. The break at interior points has so far reduced the cost delivered here that dealers are able to offer the goods to brewers at prices that appear attractive and considerable business has resulted in consequence. There is still a disposition to sell as freely as possible, however, as the full crop grows in this country and constant offerings from abroad insure very liberal supplies. Another lot of 60 bales arrived from Rotterdam and 35 pockets of English hops are here, with further shipments of both continental and English on the way.
