The New Real Estate Steel Range

means death to the dust that is bound to collect under the ordinary steel range, whose base rests almost on the floor.

This new feature was the only thing left to be done that could add to the convenience and cleanliness of this splendid steel range.

See the new Real Estate at our store; let us explain its splendid qualities and we feel sure that you too, will decide to "Own an Estate."

The Markets

Wheat continues to advance and the bid is not in sight. Yesterday a large lot of bluestem changed hands in Portland at \$1.15, the best price of the month and within a cent and a half of the top price for the year.

In Yakima 1500 bales of hops are reported sold at 11 cents. Such sales are reported in Oregon are within half a cent either way from 10 cents.

Chicago demand for wheat for export was strong, the foreigners simply taking all offers without haggling over the price. The result was an advance of about two cents all along the line.

LOWER PRICES FOR BUTTER IS OUTLOOK

Portland, Or., Oct. 24.—Further weakness is showing in the butter market. Fresh Oregon creamery butter is being offered as low as 30c a pound today, with the demand unable to take care of offerings. Higher prices than this are asked in some quarters and sometimes obtained, but the market is in a very bad position and the outlook is not promising.

Output of butter in the local territory has been very liberal of late. Notwithstanding this, there has been a noticeable increase in the demand, resulting in general shading of values about a week ago, and is now forcing open bids in quotations.

Stocks of fresh make are heavier than for several months, and these are causing worry among large and small makers alike. There is little doubt at this time that the trend of the market is downward. So many prices are today in effect that it would be difficult to state exactly what the price is.

APPLE MARKET HAS OPENED IN BRITAIN

Portland, Or., Oct. 24.—That the war has had its effect on the fruit business in London, Liverpool and Glasgow is the statement made by W. Dennis, of the firm of W. Dennis & Sons, Ltd., of Covent Garden, London, the largest receivers of apples in the United Kingdom for the favor. Later the goods were assembled around the elegantly appointed table, where a three-course lunch was served.

The club members present on this occasion were: Mrs. Stafford, Mrs. Voss, Mrs. Jones, Mrs. Steeves, Mrs. Gibson, Miss Rutherford, Miss Hunt and Miss Elliott. The guests were Mrs. Carl Elliott, Miss Shaw and Miss Skattaboe.

dom. In a letter just received, under date of October 8, 1914, Mr. Dennis has the following to say regarding conditions:

"The season now commencing presents many grave difficulties to the operator in apples, and most careful and experienced handling will be required. Reports reach us from all the producing sections of the United States and Canada of a record crop, and this, too, in a year when there are also large crops of other fruits.

As regards California Newtowns the demand is good for fruit with color. Several cars have been sold at 60c to 7c per box for four-tier fruit and 4c to 5c for 4 1/2-tier.

As regards barrel apples, there have been a few of these from the Hudson river, which, like the pears from that center, are very poor, and prices were accordingly low.

In Liverpool there has been only one lot sold this week, the ss. "Baltic," which landed her fruit in a heated condition. There were in addition quantities of fruit carried over from the "Lusitania" last week, and prices in general dropped a few points.

GRANGE RECOMMENDS ACTION ON MEASURES

Circular Letter Advises Voters in Regard to Bills on the 1914 Ballot.

To the voters of Oregon—On behalf of our several organizations, the undersigned beg to recommend the following action on ballots Nos. 302, 350, 353, and 357.

We recommend voting Number 302. No again, as we did in 1912, because it creates the new and unnecessary office of lieutenant governor, and also it makes the man who is elected president of the next senate the lieutenant governor for the next four years.

The only excuse now offered for the senate is that it makes the work of the House of Representatives more difficult. But the people of Oregon want every public officer to do useful work all the time and not merely to invent some other public officer from doing something.

Receipts of Oregon apples are being eagerly awaited and will bring good prices, as they always do.

THE SUPREME COURT SUSTAINS GALLOWAY

Because the Pacific Title & Trust company, of Portland, and the Oregon Realty & Trust company were organized prior to the enactment of the law of the last legislature, which placed all banking institutions and trust companies of the state under the supervision of the state bank superintendent, the supreme court this morning, in an opinion written by Justice Barrett, sustained the decision of Judge Galloway of the circuit court for Marion county, in holding that these two institutions do not come within the terminology of the act mentioned, hence will not have to strike the word "trust" from their respective titles.

The supreme court also sustained the circuit court for Linn county in the case of the First National Bank of Albany against Hawkins, which was a suit involving collection upon a promissory note.

Dyspepsia and pessimism have a lot in common.

political boss system. This bill takes from the people the vital power to choose their own political party candidates for public office, and will give that power to the schemers and tricksters.

On Number 357, vote No, because it abolishes majority rule in voting for tax amendments to the constitution, and requires a two-thirds vote to make tax changes, if this amendment is adopted.

Respectfully submitted, C. E. SPENCE, Master of the State Grange, J. D. BROWN, President of the Farmers' Union of Oregon.

W. H. GRISWORTHY, President Farmers' Society of Equity, Oregon State Federation of Labor by T. H. Burdard, president, and E. J. Stack, Sec.; People's Power League, by C. E. S. Wood, president and W. E. U'Ren, secretary.
