WHAT ONE LITTLE LOLLYPOP WILL DO.

HUBBARD FAIR WAS BIG SUCCESS

ATTENDANCE WAS LARGE AND EXHIBITS MADE CREDITABLE SHOWING IN ALL RESPECTS.

If you attended the First Annual Hubbard Institute Fair you know it was a big success from the standpoint of attendance but better yet from the standpoint of the high class of exhibits that crowded the armory hall, says the Enterprise that word crowded is used advisedly, too. The place was crowded with exhibits and had it not been that the domestic science demonstration was held at the Odd Fellows hall, thus dividing the crowd, the exhibits could not have been appreciated for the crowd.

Exhibits came into the hall as late as 9 o'clock Thursday night, making it necessary to provide extra table and shelf room.

Friday morning Professor E. B. Fitts gave a fine talk on judging cattle and selecting dairy stock. The demonstration was held at the Hubbard livery barn and was heard by fully a hundred men. At the conclusion of this part of the program everybody went over to the Odd Fellows hall for dinner, which folks declared should have been labeled dinner instead of lunch. The ladies served an exceptionally good plate of soup, sandwiches and coffee—and plenty of it. The lunch was served by the ladies of the Rebekahs and the Pythian Sisters.

At 3 in the afternoon Professor E. B. Fitts talked on "Feeding Farm An-

imals." The professor made a hit with the local cattle men.

The concert and illustrated talks in the evening filled the armory to its utmost capacity.

Saturday morning was given over to an address by Prof. C. C. Lamb on "Marketing Poultry and Poultry Products." Poultry products in this locality is proving quite profitable and the professor made it plain that marketing the product had a big place in the success of the business as any branch of it.

R. C. Painter offered \$1 for the best pound of country butter. Mrs. S. Schoenbeck won this prize.

The grade compared favorably with that raised in the more pronounced corn belts, all of which goes to show that seed selection is the key to successful corn culture in the Willamette valley. After the awards had been made the professor gave a talk to the growers gathered about the exhibits, emphasizing the importance of seed selection and breeding.

BREWERS BEWAIL FACT BEER SALES FALL OFF

New Orleans, Nov. 20.—A general discussion of the prohibition movement occupied today's sessions of the United States Brewers' Association convention. The board of trustees, in their annual report, made the statement that the government, by grace of the new tax on beer, now is getting three times the revenue from beer that the brewers themselves get.

The trustees also pointed out that during the last half of 1913 beer sales decreased 2 1/2 per cent, due, they said, to disturbed business conditions. During July, August and September of this year the business decreased 16 per cent, as compared with the same period the previous year.

OREGON STATE BAR ASSOCIATION

Portland, Or., Nov. 20.—The annual meeting of the Oregon State Bar Association wound up late yesterday afternoon by election of officers for the ensuing year and adoption of resolutions patting the association on record as in favor of a non-partisan jubilee and revision of the state code of procedure.

Judge A. S. Bennett, of The Dalles, was unanimously chosen head of the organization but the resolutions were only adopted after spirited forensic skirmishes. The program feature of the afternoon was an address by George Donwohy, of Seattle, former United States judge, "On Public Opinion in Judicial Decisions."
