HOP GROWERS TAKE STOCK IN COMPANY

(Continued from page one.)

ness features of the corporation to the grower of any district who do not understand them thoroughly, meetings of growers will be held and either one or all of the members of the committee who are familiar with the working details of the organization, will explain them.

The meeting was called to order at 10 o'clock in the morning, but as many of the growers had signed up for adjournment was taken until 1 o'clock when the assembly room was crowded to overflowing. Every detail of the business features of the organization was explained to the growers in attendance, by those who had worked night and day for three days previously to perfect the plans and to keep the corporation within the law, and these plans having been endorsed by every grower in the valley who was called in conference to investigate them, were adopted without a dissenting vote.

As was explained in the Journal of Saturday last, no soon as 70 per cent of the growers of hops in the state are signed up as members of the association the corporation will be established upon a working basis. The capital stock, which has been fixed at \$300,000 subject to an increase to \$500,000 at any time, is divided into 20,000 shares of stock at \$10 per share, payable in one and two years and bearing interest at 6 per cent, interest payable semi-annually.

As is provided in the articles of subscription agreement, all stockholders in the corporation are to receive a certain stipulated dividend of all moneys received for the selling price of hops, above the contract price when 70 per cent of the growers are signed up for membership, and, as dividends are fixed upon a sliding scale, the more subscriptions that are received above the minimum percentage of growers signed up, the more dividend the stockholders will receive upon their stock.

In order to be a member of the association, or corporation, every grower must be a stockholder and he may take only the share or as many as he likes until the full amount is subscribed. It is also provided and understood, that in the event of the failure of the organization, the expenses incurred in forming the corporation is divided pro rata upon all of the stockholders that have signed up, and, in case it is a success and the corporation is formed and established by the filing of the articles of incorporation, which under the corporation laws of the state will necessitate the securing of at least one-half of the total amount of the capital stock, the corporation assumes all expenses.

Having disposed of the business matters of the meeting, by ratifying the proceedings of the tri-state convention of growers' delegations, the subscription books were declared open and there was a rush made for a president's desk to sign up. W. R. Kirkwood, of Amity, had the honor of being the first to subscribe his name upon the stockholders list and he put himself down for 20 shares, or \$200. There were four blank

lists provided and every one of them was kept busy for a period of about 30 minutes when over \$9,700 of the capital stock was subscribed. J. S. Cooper, president of the Independence bank, and Phil Metzger, Sr., vice president of this bank and proprietor of the Imperial hotel of Portland, both hop growers, signed up for \$1,000 in stock each, as did M. L. Jones, of Brooks, and scores of others followed in amounts ranging from \$500 down to one share, or \$10.

There were nine subscriptions for 50 shares, or \$500 each, including President McMahan, W. R. Kirkwood, Henry Koff, and R. Cartwright, two for \$300 each. Many of those who subscribed said that they would take not more of it is found necessary to do so after everybody is given a chance to get in.

Prof. Hector McPherson, dean of the department of political economy of the O. A. U., who has been in attendance, and give them a... assistance he could in arranging the business and legal details of the organization, made a stirring address.

Ritz Faxon, president of the Sonoma county association; George Howland and E. L. Cunningham, of the Mendocino county association and W. E. M. Burdette, president of the Sacramento valley association, the California delegates, who departed for their homes Saturday afternoon, after the meeting expressed themselves as more than pleased with the enthusiasm shown by the Oregon growers and the manner in which they took up the movement and were rushing it through, and they were confident that it would be a success and in working order within a very short time.

Mr. Cunningham predicted that, as the growers had lost over two and a half million dollars within the last two months as a result of not being organized and at the mercy of the speculators, that more than 85 per cent of the growers would sign up within two weeks.

WAR FAVORS EVENING PAPERS. In its issue of Monday, September 28, the Daily Report of Ontario, Cal., prints on the first page the following comment: "The present war, the greatest in history, is the biggest news of the day. Afternoon newspapers are favored because of the difference in time (and especially Pacific coast papers) between the time events happen in the theatre of war and the time the newspapers are issued. When the afternoon papers go to press each afternoon on the Pacific coast they go with practically all the war news happening up to the midnight following, while the next morning's papers must be content with reprinting the news from the evening papers of the day before, because night has intervened and all that is left to them is what may have happened from midnight to morning.

"But the greatest of events might as well not happen, if, happening, they were not gathered and finished to the farthest corners of the earth. This the United Press does in marvelous manner."
