In three hours this morning, beginning about a o'clock, snow fell to the depth of half an inch and spread a white mantle over the city. This is the first fall of the white and fleecy for this winter and was welcomed in as many different ways as there are people in the city. To the easterners who have come here recently it was a welcome sight, a remembrance of the snows and blows of their frost-bitten homes before they landed in sublimis Oregon; to the confirmed Oregonian, it was not so welcome. With the ground already frozen, the snowfall will not prove so disagreeable on account of slush.
