The 1915 is 15 per cent lower than in 1913 and that the interest from the reserve fund of the order would have paid 40 per cent of this loss. It has never been necessary to use either the reserve or the interest for this purpose. While the order has several hundred thousand dollars loaned, it has the remarkable record of never having made a foreclosure and never having lost a cent of interest. These loans are made principally on Oregon property.

The boy appeared to be a bright lad and had visited the state house and other points of interest about the capital city unaware that the curfew whistle should clear the streets of juvenile sight-seers.
