They are the children of Mr. and Mrs. George McCann of 352 Glenmore avenue, Brooklyn. The twins came into the world during the twilight sleep of their mother at the Kings county hospital. It was at first feared that the double ordeal even in twilight sleep would prove fatal to the mother, but she recovered rapidly and was up in a few days and eating as usual.

## OPEN FORUM

For A Model 1915 City.

To the Editor: Every one likes a busy man, and all admit a busy city. Never was there a better time to build. Materials of all kind are cheaper and labor is plentiful; all who intend building in the summer should build now—delay means money. The call for materials for buildings through the wholesale market has already caused an advance, that will affect the retail market before a great while. The farmers are taking advantage of low prices and quite a number of barns and dryers are being built and more are figuring on improvements. Every one should take the advantage of the conditions and build now.

## Shipping in Liquor.

Salem, Or., Jan. 18, 1915. To the Editor: Would you please allow me a few lines in your paper. A few days ago I saw something in your paper about buying home-made goods. That we should buy goods made in Oregon and thereby benefit Oregon and not buy our goods in some other state. And why not let the brewer in Oregon supply the beer under the prohibition law instead of having it shipped in from some other state and thereby benefiting that state instead of Oregon. Is that what you call making a market for Oregon-made goods?

## More About "Brownie"

To the Editor: I wonder if the Journal reader was coasting along the sidewalk, like they are doing in other parts of the city, when he met the famous dog "Brownie." If so I think he was only trying to tell him it is against the law, and was trying to perform a duty the city authorities are sadly neglecting.

## High School Music Is On Up Grade This Semester

There has been an unusual amount of interest taken by the pupils of the high school since Miss Minnie Magers has taken charge of the work. The chorus will be divided into three classes, one for girls alone, a mixed chorus and a class for boys. Only those pupils who have had some music training in the eighth grade will be admitted to these classes. While the work outlined by Miss Magers will not be technical, yet those who are in the classes must possess some musical ability, as the music will all be of a standard grade. It is the intention of Miss Magers to have the three choruses drilled to a high degree of excellence before the close of this semester and to have them furnish the music for the graduating exercises next June.

## Bligh Will Present Some Special Reels Coming Week

Manager T. J. Bligh, of the Bligh theater, has a number of special treats in store for his patrons during the next couple of weeks. The first is the big six-reel production of "Sealed Orders," which he will have on the screen next Friday and Saturday. It deals with war-time incidents in a brisk way, and is said to be a masterpiece among movies. A week later, on February 19 and 20, "The Hoosier Schoolmaster," in five parts, will be shown by an all-star cast, with Max Figman and Lolita Robertson at the head. This is taken from the immortal story of Edward Eggleston and has for its foundation one of the deepest and most intensely human themes to be found in the entire field of human literature. "The Blue Moon," a seven-reel feature, will be at the Bligh February 21 and 22. Madge Lessing takes the title role, and it is claimed for it that it is "the first real big, hearty laugh ever presented in cinematograph form." And then, on February 28 and March 1, comes the best of all—"East Lynne," the world's greatest emotional drama, in three acts and 7000 feet of perfect photography. Few realize that next to the Bible, "East Lynne" has found translation in more languages than any other literary product. Blanche Forsythe takes the part of Lady Isabel, and the reproduction is on a superb scale.

## State Engineer's Budget Is Passed

After a long session the joint committee on ways and means last evening passed upon the budget of the state engineer's office granting him an allowance of an aggregate of \$47,450 for salaries, office maintenance and field work for the next two years, being a reduction of \$40,370 from what was estimated in the budget. Aside from this the department receives an aggregate of \$24,000 annually on account of fees, etc., out of which an annual allowance of \$10,000 was deducted, under the former laws now repealed, and this amount will hereafter go into the general fund of the treasury.

At last night's meeting of the committee members of the state board of control also appeared and asked for an increase in the allowance formerly granted the blind school to permit the employment of an additional teacher, which will probably be granted, and also \$28,000 more for the maintenance of the state penitentiary, which will bring the total for that institution up to \$175,700. The increase asked for is made upon the estimate of a per capita cost of \$198 per year for a total of 400 inmates, based upon the cost of maintaining the institution for the past two years.
