WILL SOLICIT AID FOR PALESTINE SUFFERERS

H. Steinbock Will Champion Movement to Raise Money Here

For the purpose of securing funds and food for the relief of suffering humanity in Palestine a campaign of solicitation will be undertaken by President H. Steinbock and Secretary N. Soloff, of the local Zionist society, among Salem business men in the effort to assist in raising \$25,000 which is needed to complete the total of \$75,000 for which the national Zionist society set out to secure.

Secretary Daniels of the navy department, and President Wilson have offered the services of a U. S. cruiser to carry the food and articles of wearing apparel to the sufferers in the Palestine district and haste is being made to complete the cargo before the sailing date.

Mr. Steinbock states that the money collected in Salem will be forwarded direct to headquarters of the Zionist society in New York, and every contributor will receive a receipt direct for his contribution. Mr. Steinbock was this morning in receipt of the following communication:

"The following telegram received by me from the Hon. Louis D. Brandeis, chairman of the Provisional Zionist committee, February 1, is self-explanatory:

"Palestine is now undergoing war distress, starvation imminent, more funds needed immediately. We are sending food ship to Palestine this month. Twenty-five thousand dollars more needed at once. What can you raise locally?"

"Will you kindly take the trouble to collect donations for the said purpose? If so, please hasten and send the money to me."

"Yours respectfully,
"DR. N. MOSESSEHN."

STATE ARCHITECT LET OUT BY STATE BOARD

Secretary of Printing Board To Get Same Salary As State Printer

At a special called meeting of the state board of control, held in the executive chambers last evening, it was decided to dispense with the services of State Architect W. C. Knighton who had been employed in that capacity for the past four years at a salary of \$4,500 per year. Mr. Knighton, however, has some work to perform in the nature of drafting plans for the remodeling of some of the state buildings and will draft the plans and specifications for the \$100,000 wing for the Eastern Oregon branch asylum, but he will be paid for these services upon the 3 1/2 per cent commission basis.

Since Mr. Knighton has been in the state's employ as architect the state has worked a saving of at least 2 per cent upon all of the building that has been done under his direction, amounting to about \$24,000 during the past four years, and the principal reason for taking him off the salary list is the fact that the last legislature did not provide for any new buildings for the ensuing biennium with the exception of the \$50,000 teachers' training department for the Monmouth normal, which will be constructed under the supervision of the board of regents of that institution, and the new wing for the Penitentiary asylum, and Engineer Charles A. Murphy of that institution will probably supervise the construction of that building.

After acting upon the case of the state architect the board resolved itself into the state printing board and, under the provision of the act of the last session, employed W. M. Plimpton as secretary of the board and Arthur Lawrence was retained as state printer. Since the first of the year Mr. Plimpton has been retained as secretary of the board, although the law which went into effect on January 1 did not provide for his employment, and he was allowed at the rate of \$2,000 per year for his services. The proposition of increasing his salary to \$2,400 was also discussed but the board showed no disposition to raise any salaries under its jurisdiction and Mr. Plimpton's salary was fixed at \$1,800 per year, the same as the state printer.

Many a man and woman marry and live happily ever after—separating.

Little correspondence in Roseburg News: On Saturday evening we had a silver thaw at about 6 p. m. The icy crystals fell for about half an hour. The sidewalks were soon glistening with the peculiar particles, reckless pedestrians received numerous falls, and only those who had worn such a shower jacket what it was. The clear frozen globules with the persistence of a tax collector held away until about noon next day.

A woman believes that it is her husband's honesty that keeps them poor.
