DAINTY GIRLISH GOWN OF GOLDEN ROD TAFFETA IN RUSSIAN STYLE

AFTERNOON FROCK

This simple but chic and youthful afternoon gown is distinctly upon the Russian blouse order. The hem of the blouse tunic is not straight around, but is longer upon the right side. The skirt pleasingly closes at the right side under a semicircle row of buttons. The blouse is belted with an embroidered belt and is uniquely closed upon the right shoulder and under the arm. Buttons effect the cuff closing.

Harry P. Minto Slated for Job at Pen Is Assertion

As evidence that Harry P. Minto is slated for the superintendency of the Oregon penitentiary is the fact that he departed in company with Sheriff Esch on the trip to Brooklyn, New York, where the latter goes for the purpose of bringing A. B. Cook, the alleged clock swindler, back to face the Salem merchants whom he duped into cashing worthless checks to the aggregate amount of \$1200. Mr. Minto will not go all the way with Sheriff Esch but will stop over at the seats of government of several states to make a special study of prison management and expects to be gone for several weeks.

WITNESS AFTER WITNESS IN SALEM

Such Evidence Our Readers Cannot Dispute.

As we take up the Journal we are struck by the hearty, unmistakable way in which witness after witness speaks out as Mr. Hill does here. If these people were strangers living miles away, we might take little notice of them. But they are not. They are our neighbors, living among us. Their word is too easily proven to admit of any doubt. They speak out in the hope that their experience may be a guide to others.

C. W. Hill, wagon maker, 1939 N. Front street, Salem, says: "I had more or less backache and my kidneys were disordered. Doan's Kidney Pills have always relieved me in a short time. I know of several other people who have taken Doan's Kidney Pills with good results. You may continue publishing the statement I gave before recommending them."

"Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Hill had. Foster-Milburn Co., Props. Buffalo, N. Y."

RAILROAD COMMISSION TO REDUCE EXPENSES

Several Valuable Employees Will Be Without Work April 1 Following Reduction in Appropriation.

Feeling the necessity of cutting down expenses immediately in order to meet the reduction of \$20,000 in the amount of its biennial appropriation, which was made by the last session of the legislature, the railroad commission Saturday afternoon announced that three members of its staff, Chief Electrical Engineer R. H. Dearborn; Assistant Secretary Carl Smith, and Auditor G. B. Christie would be released on April 1 and it was intimated that it would be necessary to cut down the force still further as soon as a number of important hearings, scheduled for the near future, had been disposed of.

Mr. Dearborn has been receiving a salary of \$1800 per year from the railroad commission and an additional salary from the Oregon agricultural college as head of the electrical engineering department of that institution. Mr. Smith and Mr. Christie have both received \$1800 from the commission. Both are valuable men and have rendered valuable service and the commission deprecates the necessity of having to dispense with their services but, under the circumstances, have to cut down to their appropriation. It is also the intention of the commission to release one of the engineers in charge of the Portland office and one of the staff stenographers in the very near future, and, as a further means of cutting down travelling expenses, practically all of the hearings of the future will be held either in Portland or at Salem, and there will be few if any hearings held in other parts of the state.

Hearings have been set by the commission for this month as follows:

March 8—Application for establishment of depot facilities at Orleans, Linn county.

March 9—Application for railroad crossing at Monroe, on Portland, Eugene & Eastern.

March 10—At Ashland, relative to application of city of Ashland for establishment of three railroad crossings.

March 12—At Drain, relative to the complaint of the city of Drain against the city water works.

Praise men and flatter women, and you will have many fair weather friends.

PURE RICH BLOOD PREVENTS DISEASE

Bad blood,—that is, blood that is impure or impoverished, thin and pale,—is responsible for more ailments than anything else. It affects every organ and function. In some cases it causes catarrh; in others, dyspepsia; in others, rheumatism; and in still others, weak, tired, languid feelings and worse troubles. It is responsible for run-down conditions, and is the most common cause of disease. Hood's Sarsaparilla is the greatest purifier and enricher of the blood the world has ever known. It has been wonderfully successful in removing serofula and other humors, increasing the red-blood corpuscles, and building up the whole system. Get it today.

Early March Best Time For Spraying Fruit Trees

As the early days in March are the most important days in the year from the spraying standpoint, C. O. Constable county fruit inspector, makes the following valuable suggestions:

First Application.

It is recommended by the agricultural college to spray with Bordeaux mixture five pounds Blue Stone, five pounds lime to fifty gallon water, or lime sulphur solution one gallon solution to thirty of water when the blossom buds have the cluster and separated in show pink. If leaf eating insects or green fruit worms are present, add arsenate lead, two pounds to fifty gallon diluted spray.

Second Application.

After petals fall and before calyx close, spray with lime sulphur one gallon solution to thirty-five gallon water plus two pounds arsenate lead "paste" to fifty gallon diluted spray.

Third Application.

Ten days after second application use lime sulphur one to thirty-five. If rains continue in early June give a fourth application ten or fifteen days after the third.

PRUNE GROWERS ENTHUSIASTIC.

An enthusiastic meeting of prune growers attended the meeting last Saturday at the office of the Salem Fruit Union when the pool for 1915 was opened. At the present time the prospects of a big prune crop are better than for many years and all the growers feel quite pleased over the favorable conditions.

The prune pool was first organized in 1910 with 400 acres signed up. By 1914 the pool had had such a remarkable growth that 1600 acres were signed, and this year, judging from the number of acres signed up the first day the books were opened, a much larger acreage will take advantage of the pool. The books of the pool will be open until April 15.
