COMPANY M. MAKES FINE SHOWING AT INSPECTION

Sergeant Mitchell Is Given Medal for Being Best All Around Soldier

"An excellent showing and a credit to the Third regiment," was the way Captain J. H. Page, Jr., of the Twenty-first U. S. A., summed up the work of Company M of this city after the inspection last night, and his sentiment was heartily seconded by Colonel C. McLaughlin, of the Third regiment, O. N. G., who accompanied him. The officers, of course, would make no comparison with other companies inspected, but both expressed themselves as well pleased with the creditable showing of Company M. With 85 men in line and an attendance of 100 per cent, Company M is the largest company yet inspected by the officers on this trip. Colonel McLaughlin stated that all of the companies were larger this year than ever before and that the class of men enlisted had improved by leaps and bounds since the Mexican war. The Third regiment, he said, now had the best body of men ever enrolled in the National Guard of the state. Sergeant Alva C. Mitchell was presented with a handsome \$50 gold medal, given for the best all-around soldier in the company. Sergeant Mitchell won the medal for having the best rifle score on the indoor range and on the outdoor range, for being in the largest number of drills, and for having an attendance of 100 per cent at drill for a year, for the cleanest locker and equipment and a good general soldierly appearance. The medal was given by the company and the presentation speech was made by Major Carl Abrams, who took occasion to compliment Sergeant Mitchell in the presence of the company. This medal is presented each year and becomes the permanent property of the man winning it. Major Carl Abrams, Lieutenant L. H. Compton and Lieutenant Robinson were also present last night and assisted in the inspection by Captain Page. The officers will inspect the Dallas company tonight and Woodburn tomorrow night. Captain Page stated that only two companies in the regiment beside Company M had an attendance of 100 per cent at the annual inspection. Company M now has six fire squads, two cooks, two musicians, an artillerist, seven corporals, four sergeants, one quartermaster sergeant, one first sergeant and three officers, Captain Max Gehlhar, First Lieutenant J. R. Neer and Second Lieutenant Johnson.

Onion Shipments Go From Quinby

(Capital Journal Special Service.) Quinby, Ore., March 3.—Among the large shipments of produce from Quinby this week is a carload of onions from the Lahish farm of Newkerman & Pohlshneider, consigned to Portland markets. The Fokada onion farm is sending out about 35 sacks weekly to the markets in Portland. This vegetable came through the recent cold weather in good condition and the price should be far above what some of the growers are receiving, 75 cents a hundredweight. The egg shipments from Quinby are not as heavy as last season owing to the fact that the high price of grain has caused many people to dispose of their flocks, which causes a threatened shortage in strictly fresh eggs. Mr. and Mrs. J. C. McEneaney have returned from a two months' trip to various points of interest in the east, visiting at St. Paul, Minneapolis, Indiana, and returning by way of Seattle, where they were met by relatives there. While they encountered some snow they had not been accustomed for many years their visit proved thoroughly enjoyable, and they found greater evidence of prosperity in the east than some of the western publications would have us believe. Many people met by the travelers expressed themselves as intending to visit the coast and Oregon this summer. A. L. Beckner has just returned from a trip to California, and states that Oregon soil is superior to California, and that the rainfall at home means as much to the crops here as California sunshine does there. Mr. Beckner has one of the finest farms in this section, which appears especially pleasing to him now. A few nights ago the lodge halls of the Modern Woodmen of America and the Modern Brotherhood, both located near Chemawa Oregon Electric station, were entered by some persons who obtained but few spoils for their labor, as the buildings have only plain lodge furnishings, and neither money nor edibles are kept there. Mrs. Isabel Simon has leased her 60-acre homestead in Mission Bottom to Bishop & Kepte, of McMinnville. George Tanquary, who spent the winter in California for his health, has returned to the home of his brother here. The family of George Longmire has removed to Eola, where Mr. Longmire will have charge of a hop ranch.

YOU CAN'T BRUSH OR WASH OUT DANDRUFF

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. Do this tonight, and by morning most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustreous, glossy, silky and soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

PHILOSOPHICAL

"Some day," cried the outraged poet "you editors will fight for my work." "All right," sighed the editor, resignedly, "I'll be a good sport if I get licked."—Puck.

WRIGLEY'S

around each package has a United Profit Sharing Coupon of the same kind and good toward the same high quality merchandise as the United Profit-Sharing Coupons announced by numerous manufacturers and by local stores.

Sealed air-tight Always fresh and clean!

Each package having a coupon means you save them rapidly from WRIGLEY'S

Write Wm. Wrigley Jr. Co. 1203 Kesner Bldg., Chicago for Spearmen jingle book in colors.

The Coupons will bring a thousand useful, ornamental, pleasure-giving things — attractive gifts — articles for men, women and children and home.

Dardanelles Blocks Way to Constantinople

Narrow Passageway Is Mined, As Well as Protected by Strong Fortifications. The determined effort of the French and British fleets to force a passage of the Dardanelles, reawakened interest in the question as to the impregnability of the defenses of Constantinople, the capital of the Turkish empire. The average man in reading of the attacks of the French and British warships on Constantinople, is more or less hazy as to the relation of the Turkish capital and the Dardanelles, now daily mentioned in conjunction in press dispatches. The distance from Constantinople to the Dardanelles, where the principal defenses of the Turkish capital lie, is more than 200 miles. The Dardanelles is a narrow channel in the Turkish dominion which connects the inland Sea of Marmora with the Aegean or Mediterranean sea, and separates Europe from Asia. It is about 40 miles in length, its current is very rapid. The European side is steep and rugged, the Asiatic side rising gradually, affording exceptional opportunity for defensive fortifications, both sides are covered with a chain of forts reaching the entire length of the passage to the Sea of Marmora, at the other end of which, 177 miles distant, lies Constantinople. In 1779 the Turkish defenses were almost in ruins. Warned by the condition of the earlier when a Russian squadron appeared before the Constantinople outer fortifications, the Turks repaired them, but they were again allowed to become almost useless, until 1807. In that year a British squadron of warships passed the Dardanelles, and for the first time, Constantinople saw a hostile fleet. The defenses were then rebuilt, and in 1854, during the Crimean war, the castles and other defenses of the capital were placed in a state of good repair. In 1867, coast batteries of the best known kind were erected on both sides of the passage, but, just before the outbreak of the present European war they were supplied with ordnance of the most recent and effective type, the Krupp pattern from Germany. By a treaty signed in 1841 between the five great powers of Europe and the Porte, and confirmed in 1856, no foreign ship of war had the right to pass the Dardanelles without the consent of the sultan. By the Berlin treaty of 1878, the duty of preventing any foreign ship of war from forcing a passage was imposed upon the sultan, and even he cannot give such permission. It has been a mooted question, for many years, if the passage of the Dardanelles, with its modern equipment, could be forced. The battleship generally has an advantage over land fortifications, where the range of the guns are equal, by reason of the fact that it is a moving target, while the fort is a fixed one. At the Dardanelles the enemy's fleet, once past the forts at the outer edge of the passage, would thereafter be in pointblank range of the other batteries, and the advantage of mobility would be lost. In the opinion of experts, while extremely difficult and hazardous, the passage can be accomplished by the allied fleets. The personal element enters here. The

SALEM POLICE HAVE TO BE SOME WHERE

Requests Received From Nearby Towns Credit Local Police With Wonderful Detective Ability. The Salem police are confronted with some baffling problems, but according to the police in other towns of the valley the Salem force is evidently considered equal to the occasion. Last night an officer from Woodburn telephoned to Desk Sergeant Poland to arrest a man who had eluded the Woodburn officer and was believed to be headed this way. His description said that the man was "a big fellow and looked like an Irishman." He said the man's name was William Davenport, but he could give no further description, but he hoped the man could be caught. The night before the officer who phoned in the report of a robbery and hold-up of an Oregon City street car, asked the police to look out for a medium-sized man with a short line gun, and his pal. No one saw the "pal," but the night officers, White and Victor, were prepared to arrest all medium-sized men with short line guns and their pals that came to Salem. It is a common saying regarding the weather and shows that some of them are valuable while some are mere superstitions. The lecture will be illustrated with lantern slides and is free to the public. A week higher never gains anything in this world, hence if you kick do it like a mule who puts his whole heart of forecasting the weather. He also

LOGICAL DYSPEPSIA TREATMENT

Importance of Eliminating Acidity and Food Fermentation. During the past two or three years reports have frequently appeared in the Press concerning the remarkable value of bisulphated magnesia as an antacid; and its ability to promote normal, healthy digestion by preventing food fermentation and neutralizing dangerous stomach acid has often been demonstrated. Until recently druggists could supply bisulphated magnesia in powder form only, from one to two teaspoonsful of which, taken in a little water after meals, almost instantly stops all fermentation and neutralizes acid, but suffers from stomach trouble will be glad to learn that, after a long series of experiments, a leading firm of manufacturing druggists has now succeeded in producing a 5 grain tablet which combines all the valuable antacid properties of the ordinary bisulphated magnesia in a very convenient form. This new tablet of bisulphated magnesia can now be obtained of druggists everywhere and many physicians are already prescribing them instead of the powder form. ESSENTIAL. "The way of the transgressor is hard." "That's all right, just so it's smooth enough to tango on."—Pittsburg Post.

Tailored Made Suits \$15.00

Made of the finest worsted and woolen materials—in gray, olive and tan shades. Real bargain to the man that is hard to fit and wants a good, strong, serviceable suit at a low price. 50 patterns selected from our tailoring stock. Regular values, \$35.00 to \$40.00. We will take your measure for one of these suits this week and have made for you one of the best suits you ever had in your life for \$15.00.

Come in and get the early selection. SALEM WOOLEN MILLS STORE. This is a real bargain in Tailored Suits. This offer will last but one week.
