

Utterly Different!

Only a few years ago American fruit growers, by scientific methods, created the grape-fruit of today.

"Utterly Different" from the old-fashioned grape-fruit.

"Utterly Different" from any other fruit grown.

You don't have to ASK people to eat these "Utterly Different" grape-fruit. They have tried them—they have found them "Utterly Different"—and the world can't get enough of them.

Just so have people tried NEBO plain end the "Utterly Different" cigarette. And just so has NEBO plain end the "Utterly Different" cigarette become famous.

Because they are "Utterly Different."

GUARANTEE—If after smoking half the package of NEBO plain end you are not delighted, return balance of package to P. Lorillard Co., New York (Established 1760) and receive your money back.

LOSS OF APPETITE

Loss of appetite is accompanied by loss of vitality, which is serious. It is common in the spring because at this time the blood is impure and impoverished and fails to give the digestive organs what is absolutely necessary for the proper performance of their functions. Hood's Sarsaparilla, the old reliable all-the-year-round medicine, is especially useful in the spring. Get it from your druggist today. By purifying and enriching the blood and giving vitality, vigor and tone, it is wonderfully successful in the treatment of loss of appetite and the other ailments prevalent at this time. It is not simply a spring medicine—it is much more than that—but it is the best spring medicine. Hood's Sarsaparilla makes the rich red blood the digestive organs need.

Women To Perfect An Auxiliary To Co. M

Tuesday evening, March 16th, the ladies of Company M, 3rd Regt. Oregon National Guard, are to meet at the armory and perfect an auxiliary organization to the company, the members of which will consist of the wives and lady friends of the men belonging to the organization. Any organization, be it fraternal, civilian or military is only half complete which does not include the ladies in its general scope. This theory is recognized by the men of Company M, and in loyalty to the organization they take this means to pay homage to the women. Club rooms up stairs will be arranged for their accommodation on each drill night. Tuesday evening they will be handsomely decorated with military flags, pennants, guidons, arms and accoutrements. A light luncheon will be served consisting of the usual hot viands, buns, pickles and coffee. It is expected that the ladies will perfect an organization, and elect a commander, vice commander, adjutant and a top sergeant. During the next few months it has been suggested that they cooperate with the men of the company in raising a fund for the benefit of their organization. Company M, is giving a series of Military Balls and entertainments for the benefit of the company fund. The next event of which will be a large military masque ball given on the evening of Thursday, April first. Invitations will be out for this event Tuesday evening and preparations are being made which will insure the biggest and best affair to which the boys have yet been hosts.
