NEW PRISON WARDEN RETURNS FROM EAST

Harry Minto Cannot State When He Will Assume Charge of Institution

Harry P. Minto, the newly appointed warden of the state penitentiary, returned from his eastern trip this morning with Sheriff Esek, and A. B. Cole, the latter's prisoner, Mr. Minto has had no opportunity to confer with the state board of control regarding his appointment but received notice of it while he was in New York City. He has not, therefore, decided when he will assume charge of the prison although it will probably be April 1, possibly sooner if the board so desires.

He says that he has no official knowledge of any appointments made by the board to the prison staff during his absence and would not disclose the matter. Neither would he give out any information regarding any changes which he might make in the present force of officers and employees, intimating that such matters could wait until after he had assumed formal charge of the institution and had familiarized himself with the efficiency of the present force and where, if any, changes would be needed to promote harmony in the administration.

On his way back from Brooklyn Mr. Minto states that he visited and inspected the Stillwater, Minnesota, penitentiary which is credited with being the best in the United States and took some notes upon the different phases of the management and discipline which might be of use and value to him in his new position. He reports that he had his most enjoyable time but did not get a chance to visit Sing Sing prison while in New York.
