NEW WEIGHTS AND LAW BECOMES

Standard Berry Box Feature, However, Is Suspended **Until November**

One of the most important measures to have been enacted by the last legislature, from the standpoint of both the producer and the consumer, is that which abolishes the old dry measure was born February 22, 1732. He lived system which has been in vogue in its avoident house it had four received. which abolishes the old dry measure system which has been in vogue in this and many other states since time began and puts into force and effect the standard weight and measure system of determining quantity in respect to commodities and which fixes the standard size for herry boxes and hop boxes. Deputy State Scaler Fred G. Buchtel is now engaged in codifying the new law and will have it ready for publication and general distribution before the act goss into effect, May 2º. Under the provisions of this act, which is one of the first if not the first strictly standard weight and measure law to have been enacted by any state in conformity with the United States bureau of standards model law, all boxes or containers which specify a certain measurement of commodity must be strictly up to measurement and, while the purchaser may rest assured that he is getting full value for his money in the purchase of berries and other small fruits, the producer of Oregon, who is trying to do the square thing, is certain that his unscrupulous competitors is not getting away with a fatter profit on and wester law who had a large chimney at each end, and a slooping roof.
