Former Roseburg Man In Mexican Prison

Roseburg, Or., April 15.—That he was arrested without cause while employed in a mine in Mexico, December 15, 1914, and that he has since been confined in a filthy prison at Cuzuburich, Chihuahua, is the statement of G. S. Lahay in a letter to his wife in Roseburg, in which he makes an appeal for assistance. Lahay said he had been unable to communicate with anyone here before, and that he paid \$50 to have the letter to his wife smuggled out. Mrs. Lahay says she will notify Secretary of State Bryan in an effort to secure Lahay's release.

In the letter Lahay says he went to Mexico from Montana last November and secured a position as foreman of a mine. Ten days later, he says, the mine was confiscated by Mexican officials and the workmen were thrown into prison. Lahay says he has been unable to get a hearing and is ignorant of the charge against him. Since being confined in prison he has been treated most brutally, he says, and has but little food. He was locked in a dungeon, like hell and was compelled to sleep on the floor. According to Lahay, 50 or more of them are able to communicate with the outside.

SONKEN SHIP IN MOVIES.

Newport News, Va., April 15.—German naval officials will be able to see moving pictures of the destruction of a number of ships sent to the bottom by the converted raider, Kromprinz Wilhelm. Captain Thierfeld today admitted that "movies" were taken of the destruction of several vessels, but said they would not be exhibited, the pictures being a part of his official log. "The movie" camera was taken from one of the British prizes.

"A Modern Eve" Tonight's Attraction at the Grand

Emmett King as Wealth, in "Everywoman," at the Grand Opera House, Saturday, April 24.

A word as to the authorship of "A Modern Eve," which is now on its first western tour and will fill an engagement in this city at the Grand tonight, April 15.

Victor Hollander, who wrote most of the score, is ranked as the best composer of light music in Germany. During his twelve years' association with the Metropol theatre of Berlin, he never had a failure. He has written more than fifty operettas and musical comedies, two grand operas, and the score to the pantomime, "Sumurun." Joan Gilbert, named as his collaborator, is a younger Berlin composer, also of undeniable talent. The librettists, George Okonkowski and A. Schoenfeld, are two clever Berlin playwrights. The staging of Mr. Singer's production of "A Modern Eve" was directed by Frank Smithson, whose ingenuity for striking effects and skill in managing ensembles places him at the head of his profession in this country.

"A Modern Eve" played in practically every capital city of the German Empire, and its fame preceded it to the United States long before its Chicago premiere at the Garrick theatre, April 31, 1912. The piece has that universal appeal which is found in the theatre only once in a decade.

Portland Votes Strong For Hard Surface Roads

Portland, Ore., April 15.—Multnomah county voted yesterday in favor of good roads.

ANNUAL INTER-CLASS MEET IS TO BE HELD

Keen Interest Is Felt Over Outcome of Contests Tomorrow on the Willamette University Campus.

Tomorrow afternoon at 3:00 p. m. the annual inter-class meet of Willamette university will be held. This meet is one of considerable importance to all students, as each class is out to win the honors. The present senior class won last year's meet and is expected to make a good showing tomorrow, as they have all their athletes back this year and they have been training for the event. The juniors will not have a very large team to enter in the meet, since many of last year's men did not return.

The sophomores and freshmen will each have a strong team and will give each other a strong run for the honors. The elder track has been ruled with a steam roller and will be in good shape for tomorrow. Coach Thompson believes that he will be able to pick a strong track team from the material that will show up tomorrow.

All those who are interested in track work are welcome to Willamette field tomorrow to see the meet at 3 p. m.

Manager Ronald Teeters is holding a men's tournament in tennis this week to arouse interest among the university men in this branch of athletics. Thirty men are registered in the tournament and the preliminaries will be finished this afternoon, leaving the semi-finals and finals to be played tomorrow afternoon at 4:15 and 5:00 p. m. respectively. These games promise to be fast and exciting as the best men from last year are all entered and there is also considerable good material in this year's freshman class.

Yesterday's games did not show any exceptional brilliant playing, with the exception of those played by Bagley and Smith, in which three sets were played, the scores were 6-3, 7-9, 6-1, in favor of Paul Smith. Also the games between Booth and Jenett showed considerable hand work. Jenett won 6-2, 2-6, 6-2. Other games were 6-3, 6-4, D. D. vs. Steves, in which D. D. won 6-0, 6-4, D. D. vs. Rice, score 6-0, 6-0 in Ryd's favor. A Irvine vs. Ketchum, score 6-3 in favor of Irvine. In today's games, Jewett will meet Fligel, these men represented the Varsity last year in the intercollegiate contest, and it will be a scrap from beginning to end. Pratt will meet Jory, A. Irvine and Paget will play to decide who shall play the winner of the Smith-McDonald match.

This tournament will show who is the champion tennis player of the school as practically all of the tennis enthusiasts are signed up.

Prune Crop Estimated At Three-Fourths Normal

(Corvallis Review.)

That the prune crop this year will be about three-fourths of normal, is the report of A. E. McIntyre, local agent for the J. K. Armaly company, who returned this morning from Salem. Mr. McIntyre helped to appraise the losses to the Dungen Fruit company's plant there by fire, he having installed some of the machinery in the burned plant several years previous. While in that section he made an investigation of prospects for the season. He is also of the belief that the orchards in this vicinity will yield in about the same proportion, considerable damage, he reports, has been done in the Riddle and Yamhill districts, not so much damage resulting in the Roseburg and Looking Glass vicinities. It is not probable, according to Mr. McIntyre, that the Armaly company will erect a plant here this year. However, L. E. Wood, who has charge of the various packing plants of the concern, will be here shortly to look over the situation and at this time the matter will be definitely determined.

An action for the recovery of money for alleged careless burning of logs last May was on in the circuit court for Marion county this morning when the case of Wm. Petzel, an administrator for the estate of Joseph E. Petzel, against J. J. Barnes was called. The plaintiff alleges that at the time of the death of Joseph Petzel he was the owner of a large quantity of logs and standing timber and that on or about May 19, 1914, the defendant wrongfully and carelessly set fire to the grass and brush near the logs and allowed it to burn without being guarded with the result that 180,000 feet of sound timber was destroyed. The plaintiff alleges damage to the extent of \$271 and demand judgment for the same. The case will probably occupy the greater part of the day.

cuit court for Marion county and who pleaded guilty to the charge of burglary committed at Sublimity, was sentenced to serve an indeterminate term in the Oregon penitentiary of from two to five years. Phillips, as the Aurora Lumber company, for the recovery of money alleged to be due. It is further alleged that the defendant company has failed and refuses to pay the amount and judgment is therefore asked.

- Japanese Embassy Laugh At Newspaper Story
- Washington, April 15.—State and naval officials, as well as attaches of the Japanese embassy, joined today in ridiculing the story published in a Los Angeles newspaper, in which it was stated that Perle Key, on the coast of Lower California, was being fortified and mined by the Japanese for use as a naval station.
- Admiral Thomas B. Howard was quoted as having reported that the Japanese were salvaging their cruiser Atama, stranded near Turtle Bay, and doing nothing else. Admiral Howard's ships are in close contact with conditions all along the western coast, and officials say he certainly would not have remained silent if the Japanese activity had been as reported from Los Angeles.
- ENDS INDigestION AFTER EATING
- Just because the peppin pills, soda biscuits and other artificial digestive tablets you have been taking no longer give you the desired relief and you must take two, four or six instead of one to stop your heart burn, bloating, sour rising, belching and stomach lump, it's no sign there is no quick relief for you, but a sure sign that it's high time you changed your medicine. Give up those so-called aids to digestion, that work on the food and do the stomach no actual good or you'll belch and bloat till doomsday. You need a remedy that will strengthen your stomach muscles and lining and increase the flow of digestive juices. Then your stomach will do its own digesting.
- There is an old time remedy called MIO-na Stomach Tablets which give wonderfully quick relief in such cases. They are a splendidly balanced stomach prescription and no matter how bad your stomach is, how long it has bothered or what or how much you eat, these little tablets will make your stomach digest every last particle of food in it.
- Daniel J. Fry or most any good druggist in this vicinity sells MIO-na on a positive guarantee of satisfactory results or money back.
