## DR. RUTLEDGE SPEAKS CONCERNING WORK OF COMBATING PLAGUE

Investment of \$1,100,000 Brings Health to 1264-- M. W. A. Establishment

Dr. J. A. Rutledge, superintendent of the Modern Woodmen of America Tuberculosis Sanatorium near Colorado Springs, Colorado, was the guest at a banquet last evening of the Oregon Cedar Camp No. 5246 at their lodge rooms. Assisting the Woodmen in the reception were the Royal Neighbors, the ladies auxiliary of the lodge.

Dr. Rutledge addressed the lodge, giving an account of the great and beneficial work he is doing in taking care and prolonging the lives of lodge members who are fighting against the dread disease.

Following the banquet, Dr. Rutledge addressed the lodge in which he told of the great and beneficial work being done at the Sanatorium and plans they had for enlarging the institution. With an investment of \$1,100,000, they have cured 1264 members of the lodge within the past four years. Of those admitted, 74 per cent are sent away free from all traces of tuberculosis. At present, Mr. Rutledge said that they have charge of 184 patients, with a waiting list of more than 50.

No patients are allowed to enter the sanatorium, unless there is some chance for them. When admitted, they are assigned each to a small octagonal shaped house, built especially for the patients. These houses are made with concrete foundations, have steam heated and electric lights. They are fed with the best of meats and the milk is from a special herd of Holsteins, owned by the sanatorium.

This institution is one of the largest of its kind supported entirely by a lodge. With a membership of about 1,000,000 in the country it has been found inadequate to the demands and the lodge now is making arrangements for its enlargement.

Dr. Rutledge is now on a vacation and is spending the rest of the week, accompanied by his wife, at the home of Dr. W. R. Shien, three miles from town. Saturday they will go to Portland where they will be entertained by the state officers of the lodge at the Multnomah hotel.

## Ponce de Leon Failed; His Prize Is Found

Ponce de Leon, the daring explorer, searched among the swamps of Florida for the Fountain of Youth, which the Indians said would restore power and make people young. He did not find it.

Thousands of chronic intestinal, bowel and stomach sufferers have written to Geo. H. Mayr, 154 Whiting St., Chicago, in quest of health. They have found it. His remedy, composed of healing vegetable oils from France, has indeed given them back the health of youth.

Why suffer from indigestion, gases on the stomach, fainting spells, torpid liver, constipation and all the evils of a disordered stomach when there is permanent relief here? Mayr's Wonderful Remedy is sold by leading druggists everywhere with the positive understanding that your money will be refunded without question or quibble if ONE bottle fails to give you absolute satisfaction.

## ODD FELLOWS' CONVENTION.

Bloomburg, Pa., April 23.--In commemoration of the 96th anniversary of the birth of the Independent Order of Odd Fellows, upwards of 25,000 members of that organization gathered here today to celebrate. They represented practically every lodge that is a member of the Northwestern Pennsylvania association.

While thousands of spectators lined the sidewalks, the Odd Fellows paraded over three and one-half miles of gaily decorated streets, to the music of about 30 bands. The town appeared in a beautiful array of decorations, as every building in the business section, and practically every residence in the town was decorated.

At 10 o'clock in front of the court house, Mayor Oscar Lowenberg made the address of welcome to the Odd Fellows and handed over the key to the town, which was accepted by J. W. Stroh, of Sunbury, who made the responsive speech, and one of the greatest days in Bloomburg's history was in full swing.

The real feature of the day took place immediately after the parade, when the 30 bands, composed of about 850 pieces, massed, and under the leadership of Lynn L. James, director of the Bloomburg Citizen's band, marched down Main street playing "Onward Christian Soldiers."

## FENN RELAY CARNIVAL ATTRACTS STAR ATHLETES

Philadelphia, April 23.--Every intercollegiate champion athlete in every U. S. college is entered in the University of Pennsylvania's relay race and athletic carnival, which opened today. More than a thousand stars of college track and roller paths, including 325 relay teams, are entered. Philadelphia was turned over today to hockey, red-faced youths wearing sweaters, waving college pennants and shouting college yells.

## If You Are Losing Your Hair

And Fear Baldness Try Mrs. Dorth's Recipe Which Stopped Her Hair From Coming Out And Started New Hair Quickly

Mrs. D. H. Dorth of 81 Clinton St., whose hair was coming out so badly that it was quite thin, learned from a friend of a simple and easy way to quickly stop her loss of hair and at the same time to make new hair grow in again. She made this remedy at home at small cost and saved the expense of scalp treatments by a hair dresser. The recipe Mrs. Dorth used was as follows: "Mix together in an 8 oz. bottle 4 oz. of a good quality of Bay Rum with 2 oz. of pure Lavender de Compose and add about 1/2 drachm of Menthol Crystals. Shake thoroughly and allow to stand an hour before using." The mixture is best applied to hair and scalp by pouring a little on a soft cloth and then by drawing this cloth slowly through the hair taking one strand at a time. When the head is quite thoroughly dampened rub briskly into the scalp with the finger tips until the skin tingles. A five to ten minute treatment like this each morning for a few days will generally stop all excessive loss of hair within a week and will also make the hair beautifully fluffy and glossy and if kept up will almost surely start new hair growing. Druggists everywhere sell Bay Rum, Lavender de Compose and Menthol Crystals and will if you prefer do the mixing for you at a small extra charge. If you like perfume add a few drops and see what a pleasant hair dressing this makes.

## CITY HALL NEWS

Complaint was filed yesterday in the circuit court by James G. Helzel against A. W. and Agnes Wilson for the recovery of money alleged to be due on a promissory note of \$300, only a part of which is paid. He asks judgment for \$106.25, which he states is the balance due him.

The plaintiff in the case of A. A. McDonald against A. G. Brauer, both of Woodburn, an action to recover money for professional service as architect rendered, was given a verdict yesterday by the jury in the sum of \$131.25. The money was said to be due for preparing plans for alterations in the Moose hall at Woodburn.

## College Helping the Farmer Boy and Girl

The Extension Service, O. A. C., through the Boys' and Girls' club movement is making a special effort to help the boys and girls who can not attend school. The college is making this work a practical correspondence course. In addition to the circulars and reference books dealing with each boy's and girl's special project an effort is being made to follow up the correspondence with instruction with personal visitation by members of the Central Extension staff and by the County Agriculturist whenever one is employed in the county in which the student resides.

Results obtained thus far indicate that not only are such boys and girls getting a practical training in agriculture and home economics through the club movement but they are feeling the need of more school training and there is no doubt that many of them will try to finish their common school or high school course. When these young people get back into school again they invariably make the very best students having a real purpose for being in school.

A fourteen-year-old Clatsop boy, who is farming eighty acres and who is ambitious to become a scientific farmer, has undertaken five different club projects, all pertaining to his daily work. They are as follows: Poultry raising, pig raising, dairying, potato growing, and grain production. The only time this boy has to study is in the evening after a hard day's work in the field. It takes ambition and pluck to study under such conditions.

A Douglas county boy, who was one of the prize winners in the Poultry Club work last year, recently wrote in as follows:

"I will take this as a time to thank State Superintendent J. A. Churchill, County Superintendent O. C. Brown, the U. S. Department of Agriculture and the Extension Service of O. A. C. for the most beautiful emblem (an achievement pin)—small in form but large in meaning."

"Since last November I have been in the bakery business. On January 5 I became proprietor of this town's only bakery and have been head baker and everything else since that time. I put out now from fifty to seventy-five loaves of bread per day, two pies, cakes, jelly rolls and the corresponding pastries, so there I am. Along with this I am still in the poultry game. I have six Buff Orpington pullets, 15 R. C. W. Leghorns pullets, three Buff Orpington males, one Leghorn male and 14 mixed chickens which I am gradually disposing of. From mongrels to pure breeds by motto, I am not in school and I am not enrolled in the 1915 Industrial club. Therefore I want to know, am I

## DRUGS EXCITE YOUR KIDNEYS, USE SALTS

If Your Back is Aching or Bladder Bothers, Drink Lots of Water and Eat Less Meat.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt, which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it is no longer a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent fitch-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, and no doubt you will wonder what became of your kidney trouble and backache, also keep up the water drinking, and

eligible?"

Many other boys and girls are likewise availing themselves of this chance for self-improvement. The college authorities will appreciate being handed the names of ambitious boys and girls who are struggling under difficulties to gain a practical education.

## WESTERN LEAGUE OPENS.

Lincoln, Neb., April 23.--The Western league opened today. Inaugural games in the eight-club circuit were presented big attendance. The Denver 1914 champions played here, Omaha at St. Joseph, Des Moines at Sioux City, and Topeka at Wichita. The only weak spot in the league was at Wichita, threatened with loss of its franchise. Denver has lost several of its former stars. Sioux City and St. Louis were regarded as strong teams.
