World's Record Broken At Athletic Carnival

Philadelphia, April 20.—One world's record was shattered, two collegiate marks were broken and an eastern intercollegiate record was bettered Saturday at the University of Pennsylvania's annual carnival of relay races and field sports.

Pennsylvania's quartet of quarter miler, Kaufman, Lockwood, Lippincott and Meredith, the last two Olympic champions, set a new world's mark in the one mile college relay for the American championship when they beat four flying runners from Harvard in three minutes, 18 seconds, breaking the world's record held by the Irish-American Athletic club of New York. The old record was 3:18 1/5. Harvard's time today was 3:19 1/5.

The first collegiate record to go was that for the javelin throw. John L. Phillips of the University of Idaho hurled the spear 177 feet, 4 3/4 inches, breaking the collegiate record of 169 feet, 1 1/2 inches, held by Dorizas, the Greek athlete of the University of Pennsylvania. Nourse of Princeton university and a resident also of Idaho, broke the record first with a throw of 176 feet, 5 3/8 inches.

The other collegiate record broken was in the two-mile college relay championship in which Princeton, after a hard race set the new figures at 7 minutes, 55 3/4 seconds. The old record was 8 minutes flat, held by Michigan.

In the high jump, Rochards of Cornell, the Olympic champion, topped 6 feet 4 inches to win the event from Ober of Yale, who did six feet 3 inches. Richard's jump bettered the inter-collegiate record by three-quarters of an inch. After winning the event, Richard tried for a jump record and jumped 6 feet 5 inches, or two inches less than the world's American and collegiate record held by Horine of Stanford.

McMinnville Defeats Willamette.

McMinnville, Or., April 20.—McMinnville College played an 11-inning game with Willamette University here Saturday, the college team winning 4 to 3. The batteries were Champion, Black and Parker for the college, and Doane, Adams and Shirler for Willamette.

RECORDS ARE BROKEN AT EUGENE MEET

University of Oregon, Eugene, April 25.—Varsity freshmen won the annual interclass meet on Kincaid Field Saturday afternoon when they defeated the three upper classes by a 22-point margin in track athletics. The seniors were handicapped by the loss of Parsons and Boylen, veterans of the squad.

The games this afternoon brought forth two welcome facts. Huggins, running against time, equalled Walter Melure's record for the mile when he made the distance in 4:24 2/5. Sam Cook showed the shot out for a mark of 45 feet and 5 inches, bettering past registrations by a foot and two inches.

Payne Runs in Past Time.

When "Moos" Muirhead grabbed first place in the high hurdles from Payne during the initial event of the day, the wearers of the green cap were never headed. The meet was destined to be a "18 class at the first crack of the gun."

"Moos" Payne turned himself loose for the first time this season, and traversed his two miles in 9:52 1/5. The star distance man had been ill most of the year and this afternoon marked his come-back with an easy win over men in the field.

To Chester Fox, Jr. from Pendleton, are due the individual honors of the day. Fox gathered in 24 points for his class while Captain Cook added the other 10.

Canada Will Never Be Part of United States

Portland, Or., April 21.—Sir Thomas G. Shaughnessy, president of the Canadian Pacific railway system, declared today in an interview published here today that Canada would never become a part of the United States despite the statement by Admiral Robert Peary that the whole continent north of the Isthmus of Panama would be under the American flag inside of a century.

Sir Thomas said it would be fully as likely that the United States would be absorbed under Canadian rule.

The railway magnate is on his way home to Montreal from San Francisco, accompanied by Lady Shaughnessy and daughter, Miss Margaret Shaughnessy. They started for Seattle at noon, President Parrott of the U. W. R. & N. accompanying the party on a special train.

WITNESS AFTER WITNESS IN SALEM

Such Evidence Our Readers Cannot Dispute.

As we take up the Journal we are struck by the honest, unmistakable way in which witness after witness speaks out as Mr. Hill does here. If these people were strangers living miles away, we might take little notice of them. But they are not. They are our neighbors, living among us. Their word is too easily proven to admit of any doubt. They speak out in the hope that their experiences may be a guide to others.

U. W. Hill, wagon maker, 1939 N. First street, Salem, says: "I had more or less backache and my kidneys were disordered. Doan's Kidney Pills have always relieved me in a short time. I know of several other people who have taken Doan's Kidney Pills with good results. You may continue publishing the statement I gave before recommending them."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Hill had. Foster-Milburn Co., Props. Buffalo, N. Y.

County Poor System Wrong, Says Bushey

(Continued from Page One.)

ur—to travel over the county continually and make a personal investigation of every case of need that is reported to him or comes under his observation. He could also make his services invaluable by keeping in touch with the needs of the farmers and business men of the county in the way of help and to furnish employment for such of the unemployed who are willing and able to work.

"The man for such an important position should be one of keen and careful discernment and a good judge of human nature. He should have a kind and sympathetic heart and, at the same time, he should not be of such extreme kindness of heart that he would not be able to distinguish between a case of real need and the unscrupulous impostor of the 'too-lazy-to-work and too-proud-to-beg' type. If these kind of people can get on the county poor fund list and get away with it without detection, they do not scruple to do it, and there are many cases of such in this county, too. If they are found out in their deception the worst that can be done with them is to cut them off the list, but that does not get the money back that has been wasted upon them and could have been put to better use in other cases. I am convinced that an inspector of this kind could be of great value to the county and, if he were the right kind of man, could more than save his salary in keeping unworthy cases off the poor list and his services would prove of immense value in helping to solve the problem of the unemployed."

Judge Bushey cited numerous instances in point, illustrative of the soundness of his reasoning, from the records of the court. He showed one case of a man who, a few months ago, resided in Silverton and got upon the county's poor list where he remained for several months. In a round-about way the county court learned that this man had moved out of the county several weeks before and had been drawing his allowance from the county right along. Another instance was that of a woman whose husband was supposed to have left her destitute and she was allowed \$15 per month. It finally developed that she was drawing the money from the county and sending it away to her husband, a worthless loafer, and when she was cut off the payroll she picked up her belongings and rejoined her husband in a county on the coast.

These are only two of a long list of cases of the same nature and Judge Bushey also called attention to other instances of fraud and deceit which have cost the county thousands of dollars within the past few years, all of which could have been saved and used to good advantage in cases of actual need and worthiness if some honest and conscientious person were employed to devote all of his time and attention to each individual case and keep the court posted at all times. He should be in position to O. K. or turn down every single application for help that presents itself to the county court, Judge Bushey says, and to ferret out and report instances of dire need where the sufferers of disease or want is actually too proud to accept help from the neighbors and a little help, confidentially, from the county would be a god-send.

President Takes Charge of Case Against Bank

Washington, April 21.—Reports that President Wilson had personally taken charge of the government's case against the Riggs National bank here in which the bank is charged with certain irregularities by the treasury department, was emphatically denied at the White House today.

The pressure brought to bear on the bank because of the alleged irregularities resulted in the injunction suit being filed against Secretary McAdoo and John Skelton Williams, controller of currency. Suggestions that political issues would arise as a result of the banks charge that McAdoo and Williams were seeking to wreck the institution have been circulated since the suit was filed.

"There is not a shred of truth in the reports that the president has personally taken charge of the Riggs case," said Secretary Tamm today. Williams also denied reports that he would resign.

When a boy gets to be three or four years old his mother can keep him and his clothes clean without a great deal of trouble—provided she has someone else to look after the balance of the family and do the housework.

Isn't it disappointing to go to a show and then find that it isn't as bad as you were afraid it would be?

OLDRING WON'T PLAY THIRD; TOO GOOD AN OUTFIELDER

RUBE OLDRING

Philadelphia, April 21.—After many days of consideration Connie Mack has concluded that Ruben Oldring shall not play third base regularly for the Athletics. "Rube is willing to play the bag," said Mack, "and I considered him seriously for the position from the time that Baker notified me that he

OREGON PRODUCTS ARE TWO WEEKS IN ADVANCE

Local Gooseberries In Market Bring 50c Gallon—Strawberries Coming

That the fruit seasons are changing and that the early fruit season of Oregon is slowly but surely gaining upon that of California to the extent of gradually crowding the early fruits and produce of the latter out of the market is becoming more and more manifest every year. But a few years ago the California fruits reached the Oregon market from two to three weeks in advance of the local fruit and the fruit growers of the southern state would reap the cream of the high prices.

This year appears to be more particularly and noticeably advanced than last year and the year before when Oregon strawberries are less than a week behind the California product in making their appearance in the market and now comes a Polk county farmer with fully matured gooseberries on the local market in competition with the fruit of the more advanced sections of the country. Mr. A. A. Stearns, who has a small "ranch" on the west side of Salem, brought in some fine gooseberries this morning and sold some of them in the local market for 50 cents a gallon. Mr. Stearns also has some strawberries that will be ready for the market within a very few days.

Last year his gooseberries did not mature until well along in May and in advance of all former records and his other fruits are advanced in proportion.

McMinnville Defeats Willamette.

McMinnville, Or., April 20.—McMinnville College played an 11-inning game with Willamette University here Saturday, the college team winning 4 to 3. The batteries were Champion, Black and Parker for the college, and Doane, Adams and Shirler for Willamette.

Immigration Inspectors Round Up Hundreds

Seattle, Wash., April 20.—Following a strenuous week in which 100 men have been caught and returned to Canada, United States Immigration Commissioner Henry M. White today announced the appointment of four additional inspectors to work along the border. The present force, White says, has been unable to cope with the situation. The war and the discontinuance of the headline in Vancouver has caused an unusually large number of attempts of fraudulent entry into the United States, White declares.
