

NO. 57.

REPORT OF THE CONDITION OF

Ladd & Bush, BANKERS

At Salem, Oregon, in the State of Oregon, at the close of business May 1, 1915.

RESOURCES.

Table with columns for Resources and Liabilities. Resources include Loans and discounts, Overdrafts, Bonds and warrants, etc. Liabilities include Capital stock paid in, Surplus fund, Dividends unpaid, etc.

STATE OF OREGON, County of Marion)-as.

I, Wm. S. Walton, cashier of the above-named bank, do solemnly swear that the above statement is true to the best of my knowledge and belief.

Subscribed and sworn to before me this 4th day of May, 1915. L. P. ALDRICH, Notary Public.

LOS ANGELES PRIMARY. Los Angeles, Cal., May 4.—Los Angeles held its municipal primary election today. Candidates for mayor, city attorney, the city council, board of education and a board of free holders to formulate a new charter were being nominated.

STATE FAIR BOARD TO HOLD MEETING FRIDAY, THIS WEEK

Will Select Band and Engage Special Aerial Features of Entertainment

For the purpose of choosing a band to dispense "official" music during the week and to decide the question of whether or not there will be some special aerial navigation thrills as side attractions at the state fair for this year, and numerous other more or less important matters remaining undecided at the last meeting, a special meeting of the state fair board will be held here Friday, May 7.

There are three bids offered for the band contract for the fair and three applications for aeroplane and balloon stunts, among the latter of which is an application from a Seattle flyer, who claims the record for altitude flights, and the Belmont sisters, who perform some spectacular parachute thrills with different colored parachutes. The board is undecided what nature of entertainment it will provide in this class of free exhibitions and this meeting has been called to pass upon the offers which have been pending action some weeks.

Special days have been finally decided upon by the state fair board for the entire week of the fair as follows: Monday, September 27, Children's day; Tuesday, Women's day and Good Roads' day; Wednesday, Salem day; Woodmen's day, State Societies' day, and Campers' night; Thursday, Portland day, Transportation day and Elks' night; Friday, Press day, Oregon Manufacturers' day and Scandinavian day; Saturday, Shriners' day, Grange day, Pioneer day and carnival night. Special programs appropriate to every occasion will be prepared and everything points to a whole week of gala events with something entirely new every day.

MR. WADSWORTH CALLED AS WITNESS IN T. R. LIBEL SUIT

JAMES W. WADSWORTH PHOTO BY AMERICAN PRESS ASSOCIATION

Syracuse, N. Y., April 4.—Among those who have been subpoenaed in the suit for \$30,000 damages brought by William Barnes, Jr., against former President Theodore Roosevelt is United States Senator James W. Wadsworth, Jr. Mr. Wadsworth was speaker of the New York assembly for five years.

May Day Festival At Buena Crest School

(Capital Journal Special Service.) Quinaby, Or., May 4.—Led by the Cheyenne band of seventeen pieces, Buena Crest school gave 50 May Day Festival at Quinaby Friday afternoon that could not have been surpassed by any city school. Several artistic operatic drills were given by the pupils, followed by a May Pole Dance, Patries and Elfs were much in evidence, and several pretty floats were features of the parade. Louis Girod acted as a charming little queen, the two royal personages being carried about in birch-bark chairs by their attendants. Miss Elsie Beckner secured the prize for the most handsomely decorated float, while the prize in the beauty contest went to Maxine Beckner. A baseball game between Buena Crest and Brooks was a feature of the afternoon, honors going to the visitors by one point. Luncheon was served to the band boys who proved one of the splendid attractions of the day, and who complimented Mayor McFarlane by a special serenade before boarding the train. The attendance was large, in spite of the boisterous weather that prevailed early in the afternoon, the Brooks, Clear Lake and Mission Bottom schools turning out in large numbers, while the following Salem people were among the visitors: County Superintendent Walter Smith, Mr. and Mrs. J. W. Carson, Mrs. J. B. Ulrich, Mrs. Helen Ingram and Miss Lois Nye. The school is in charge of Miss Gladys Carson and Miss Evelyn Nash, the board being composed of J. O. McFarlane, Bruce Jones and Homer Gouley, all of whom deserve praise for the splendid school that has made such strides in an educational way while not a year old.

WATER SUPPLY AT THE TUBERCULOSIS INSTITUTE SHORT

Springs Fail and Nurses Carry Water to Hospital Floor of Building

The spring which furnish the supply of water for the state tuberculosis sanitarium are slowly drying up and that institution is so closely run for its regular supply for all purposes that the nurses are compelled to carry water for the use of the patients upon the hospital floor of the institution at times and, if it continues to run low, the water will have to be strictly conserved to absolute needs in order to have enough to keep the institution going. As soon as the pump is installed in a new well, which was sunk last year, which will be very shortly, the pressing needs of the institution will be relieved.

Last year the springs ran dry and it was necessary for the nurses to carry all of the water for all purposes of the institution and, in anticipation of a re-occurrence of the shortage in supply, the board of control authorized the sinking of a well. The springs run low six weeks earlier this year, however, than was anticipated and the conditions bid fair to be worse than last year. Last Sunday there was no water on the second floor of the institution and the nurses were compelled to carry water and the institution was obliged to draw on the supply of the boys' training school, by means of an old pipe which connects with what is known as the "Baker" springs.

The new well is capable of furnishing water at the rate of 1,000 gallons per hour, which will be sufficient for all of the needs of the institution and it is expected that the pumping plant, provision for which was made by the last legislature will be installed within a short time when the conditions will have been relieved. As it is it will be necessary to get out the use of water for lawn sprinkling purposes and all other purposes except actual needs in order to provide water for cooking, drinking and bathing needs of the institution.

WOMEN SHOULD TAKE WARNING

If the statement made at a New York Assembly of women, that healthy American women are as rare as the rare almost extinct, is true, it is time for the women of America to take warning and look to their health. It may be headaches, backaches, dragging downy pains, nervousness, mental depression that are tell tale symptoms of some organic derangement for which Lydia E. Pinkham's Vegetable Compound—a simple remedy made from roots and herbs—is a specific and may be relied upon to restore women to a healthy normal condition.

Swish! Corns Gone! We Use "GETS-IT!"

2 Seconds, 2 Drops—Corns Vanish. For everybody with corns, there is in every drug store in the land one of the real wonders of the world, and that's "GETS-IT!" for corns. It's the first and only corn-cure ever known that removes any and every corn or callus without pain, without fussing with

"Some Foot Trouble, Mamselle, What? Corns? Yes, I Used 'GETS-IT!'"

thick bandages, toe harnesses, corn-swelling salves, irritating ointments. It's applied in 2 seconds—bing, bing—2 drops, the work is done, the corn shrivels up, your corn agony ends and the corn leaves forever! All the limping, the pains that dart to your heart's core, the excruciation of having to wear shoes over screaming corns, the danger of blood poison from making them bleed by using knives, razors and scissors—are gone at last! "GETS-IT!" is the new way, the sure, simple, painless way. Try it for corns, calluses, warts and bunions. "GETS-IT!" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago. Spinners dislike to talk of the times.

Table listing market prices for various meats and other goods, including Pork, Beef, and Mutton.

Table listing market prices for various flour and other grain products, including Flour, Hard wheat, and Sugar.

Table listing market prices for various Portland market goods, including Wheat, Oats, and Beans.

HOP NOTES AND COMMENT.

Reports of discouraging conditions in hop yards of this section continue to come in, says the Aurora Observer. It appears that the early estimate of 25 to 30 per cent of missing hills was none too large. Some yards came through in good shape, but the majority of the yards have an extraordinary number of missing hills, and hills in which the vines are weak and slow to start. In his recent talk here on hops, Professor H. V. Tartar, of the Oregon Agricultural college, said that he had found the missing hills to occur more common on the bench lands than in the bottom land yards. Some attribute this to grubbing the hops too close, to insufficient cultivation, to early frosts, and to various other causes. "But my observations in many yards," said Professor Tartar, "convince me that the missing hills are due to the condition of the soil. The soil loses much of its humus or organic matter by year after year of clean cultivation. As the result of this the hop plant loses its vitality, becomes weakened and the missing hills appear. To remedy this, barnyard manure, straw, or decayed vegetable matter may be added to the soil, or some leguminous cover crop like vetch may be grown and plowed under. I think such a policy will, in a great measure, cure the missing hill trouble." Reports from London says that the hop trade is very quiet, and the market is in a waiting attitude. There seems to be little prospect of improvement until the matter of liquor restrictions assumes greater certainty. Favorable

33 acres 2 miles from Salem. Will take house \$2,000 first payment. New kitchen house; trails for timber. JACOB & CO., Hubbard Bldg.

STOPS THE PAINS OF INDIGESTION

When Soda Tablets Lose Effect Try This Simple Remedy.

People who are accustomed to taking some digestive tablet after meals which depend solely on Soda or Pepsin as digestive aids, generally find such remedies soon lose their force and that it takes two or three tablets to bring relief where at first it took but one.

Such a condition is dangerous and the use of such remedies should be promptly stopped before serious damage is done to the stomach. The excessive use of Pepsin weakens the natural organs of digestion, while frequent doses of Soda irritate the stomach walls.

Speedy relief from the distress of sour, gassy stomach, heartburn, or that full, heavy, lumpy feeling can be safely obtained from Mi-on-a Stomach tablets which are a physician's prescription. Mi-on-a increases the flow of the gastric juices, strengthens, instead of weakens the stomach and promotes a natural, healthy and painless digestion that soon makes any digestive pill unnecessary.

These Mi-on-a Tablets are always sold by Daniel J. Fry and other leading druggists on a positive guarantee of satisfaction or money back.

The Journal Want Ad gets the business. It finds the position and it places the right people in the right place. It is small, but its carrying power is tremendous!

weather for plant growth is reported. There has been little activity this week in hop contracts. Henry L. Dents, however, wrote one for 10,000 pounds at 41 cents, by which Johnson, of West Woodburn, is to deliver him that quantity.

WORLD AT WAR ATLAS

All who pay three months subscription, old or new, back subscription or in advance, in case their paper is delivered by carrier, will receive one of these atlases free. All mail subscribers, old or new, who pay a year's subscription (\$3.00), either back subscription or in advance, will also be entitled to receive an atlas without extra charge.

This is the most liberal offer the Capital Journal has ever made.

The Capital Journal has just received a new shipment of the "World at War" atlases. They are of a later and revised edition and consist of 24 large, highly-illustrated pages, printed on heavy enameled book.

The atlas contains splendid colored maps of all the warring countries, with routes of travel and railroad lines; many tables of army and navy and general statistics—in fact, the work is a complete ready-reference library for students of the great war. It is a book which would ordinarily sell for \$1.00 or \$1.50, but we are having them made up in large lots and buy them at a price which allows us to give them away to subscribers on very easy conditions.

A. ANDERSON LAID TO REST.

Andrew Anderson, aged sixty-seven, died at the hospital in Portland on Wednesday. His body was brought to the Miller cemetery for interment which took place at noon today.

Mr. Anderson was a resident of Monitor and was well known in this vicinity. He was taken to the hospital some time ago where an operation was performed from which he died. He leaves a wife and family of children living on a farm at Monitor.—Mt. Angel Tribune.

Occasionally a bachelor lives to marry the daughter of the man who turned him down.

An abrupt fall in temperature a few nights ago when ice froze in various sections of the country, is found to have done considerable damage to tender vegetation, such as tomatoes, corn, and beans. Fruit blossoms were injured to some extent, especially the first crop of strawberries, while hops were nipped back and their growth somewhat retarded and in many cases it will necessitate a second training of the vines. Potatoes are burned black, but will grow out another head, although it is believed that grapes and walnuts have received something of a setback.

Luther J. Chapin, county agriculturalist, lectured at Quinaby last Thursday evening, taking up the general phase of farming which he discussed in a helpful manner before a large number of practical farmers.

Sunday services are shortly to be transferred from Buena Crest school house to Quinaby Park Tabernacle, as soon as the weather permits. Last Sunday Rev. S. S. Mammy of Salem presided at the tabernacle receiving his usual welcome from his many friends here.

What is believed to have been a dog suffering from rabies was killed by Ray Jones near Wascoda last week. The animal could eat, but after being fed would attempt to bite those offering it food.

Frank Matthes lost a valuable mare last week from blood poison.

The Perkins' school will close Friday for the year.

Mrs. Frank Marshall and her daughter, Miss Jennie Marshall, will leave today for a several months' sojourn in California. They will be guests of Mrs. Marshall's brother, Mr. Hugland at Santa Rosa, and will make a tour of the south before returning to Quinaby.

Quinaby is still waging a clean-up campaign and most of the homes in this vicinity have been brightened up in some manner. Among recent improvements are some modern fixtures in the residence of A. M. Anderson; J. C. McFarlane has seeded his lawn and placed an ornamental wire fence around it; Arthur Girod has completed the installation of a water system in his house; John Zielinski has erected a garage and a large swing on his lawn; Miss Christine Harold will shortly erect a garage; the Paul Girod house is nearing completion, while a six acre tract of woodland on the McMann farm
