SCHOOL "KIDDIES" TO BE PERMITTED TO WATCH PARADE

School Board Would Not Grant Half-Holiday for Circus—Teachers Elected

Hey, kiddies, you will get to see the circus parade, anyway. And if mamma and papa want you to go to the circus in the afternoon of Thursday, you can get excused. Otherwise you will have to wait until evening to view the wonders of the big tented show, or "play hookey" from school in the afternoon, and this latter would not be right, for Mrs. Pickett, the "bogey woman," would certainly get you.

Upon the presentation of the fact, the school board last evening by City Superintendent Elliott, that a circus would be in town tomorrow, and that the boys of the Garfield school had petitioned for a half holiday in order to see the parade and attend the circus, the school board, after much pro and con, finally decided to dismiss school from 10:30 to 1 o'clock tomorrow morning in order that the "kiddies" may view the wonders of the big parade. There will be no holiday in the afternoon, and such of the children who do not secure a special written excuse from their parents will have to put off going to the circus until evening.

Director Barnes said that he could remember how he always hated to have to go to school when there was a circus in town, and he sympathized with the children and moved for a dismissal at 10:30 in the morning and no afternoon school. He received no second to the motion, however, and it "died a-borning."

It was argued by Directors Lee and Buren that, if school were to be dismissed for the afternoon, not more than 20 per cent of the children would be able to go to the circus, and that the remaining 80 per cent would be turned out on the streets and, possibly, into mischief, and they were sure the parents would object. Chairman Miles was also inclined to favor the "kiddies," as he drew a mental picture of himself in bare feet and knee breeches, looking for a chance to carry water for the elephant to wash his way in, but a compromise was reached by allowing the children out in time to see the parade.

Upon the recommendation of City Superintendent Elliott, the board elected William P. Murphy as assistant instructor in sciences in the high school for the coming school year, at \$60 per month, the regular schedule salary for the first year. Mr. Murphy comes excellently recommended by the professor of the University of Oregon, where Mr. Murphy graduated and put in a year in practice teaching, and from the Cottage Grove superintendent, where he taught in the high school for the past year. He is also an athlete and musician, and will assist in athletic instructions to the junior grades of the high school and give lessons in orchestra music.

Officer Stubbs Shot a Dog—Killed Him, Too

"It is seldom I speak for police men," said Officer Stubbs last night, "but there is considerable misapprehension prevalent relative to the death of a dog, belonging to a family in this city, which was quarantined as account of scarlet fever, might speak the language, and the animal was shot and killed. Officer Stubbs was detailed to perform the last rites. The officer's told in his own words:

"I approached that condemned dog (not profanity) with my fingers on the trigger of my trusty Al Cal. auto, thumb on the hammer. Squaring my eye along the sights I saw this dog range, and I aimed and fired, which raked him from stem to stern, and he died without wiggling his ears. It was such a shot evened out in the history of the police department. That's the correct version."
