WILLARD NOT ANXIOUS TO ENTER RING AGAIN

Champ Busy Picking Up Easy Coin and Asks "Hopes" To Gain A Record

(By Hal Sheridan.)
New York, May 21.—The advance signs of coming summer seem not to deter the fight bugs. Straw hats are as common as flies in August along Broadway now but the indoor winter sport is claiming more than its share of attention. Everywhere there is an undercurrent of talk about the big fight, and finally the discussion always leads around to the question: When and who will Jess Willard mix it with? That seems to be of more interest to the Broadway fight sport than anything on the calendar just now.

And Billy Gibson's request for \$10,000 for Jim Coffey's end in a match with Charley Weinert has stirred the unsettled waters anew. Jack Bulger, Weinert's manager, replied he was willing to split that figure. But Gibson can hold out, for Coffey is worth all he can get and would prove a mighty good drawing card in such a match. Of course, the talk of a meeting Willard right now is a little premature, but Coffey ought to be able to hold his own with Weinert.

But the big idea in Gibson's mind is that Coffey is in training for a match with Willard—sometime. The date is not of much importance for the big champion is not anxious to display his wares in the roped ring just yet; but when he is prepared to come into the ring again Jim Coffey expects to be sitting inside the ropes waiting for Jess.

So Gibson wants Coffey to meet all comers until the big time arrives, when his fighter will be in condition to stand up to the champ. Billy Gibson is a crafty manager but it will take some clever work to force the big Kansas cowboy champ into the ring before he wants to.

However, unless Gibson and Bulger come to terms there is not much chance of Coffey meeting Weinert. The Broadway Sporting Club wanted the match as Coffey is a favorite of the New York fight "bugs" just now.

SILVERTON WINS TWO.

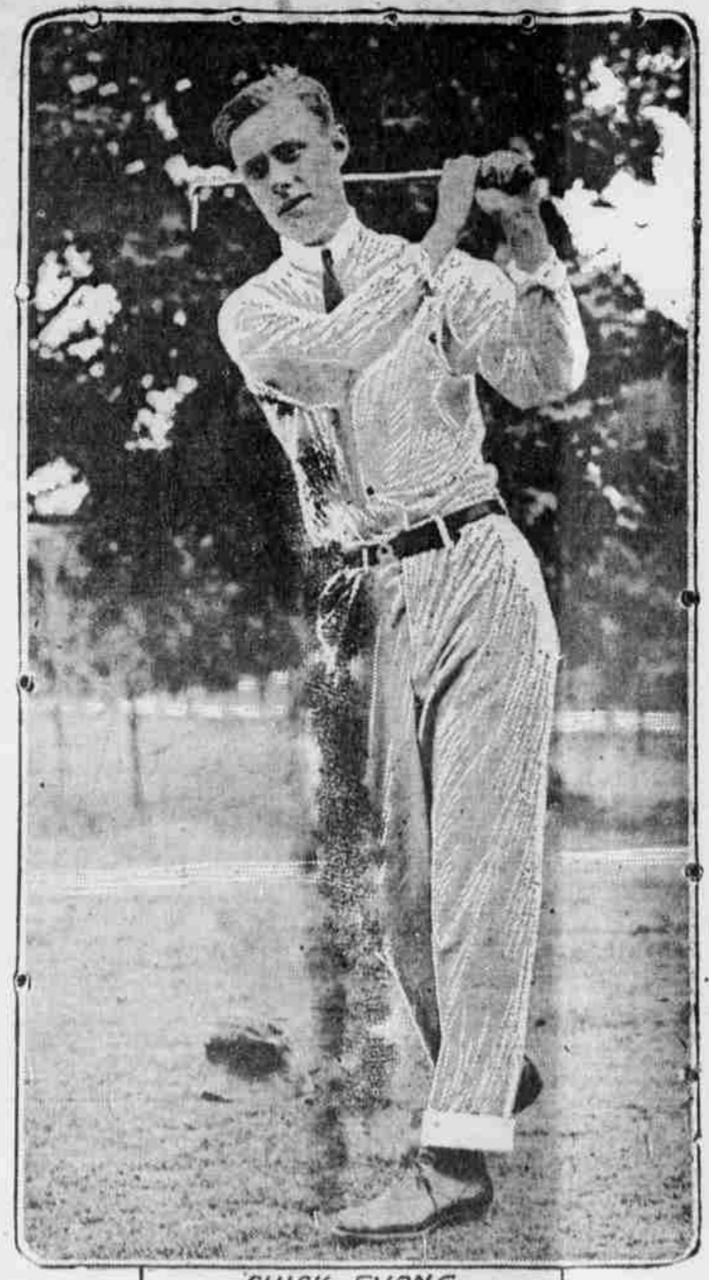

Silverton baseball fans had the pleasure of seeing the local team win two consecutive victories Saturday and Sunday and each game was interesting from start to finish.

Saturday the local boys met the famous Indian team from Chemawa on the Davenport grounds in this city and the game resulted in favor of Silverton by a score of 9 to 1. The Silverton team in this battle displayed unusual activity and had the best of the game from start to its consummation. The boys have been anticipating a victory in the Chemawa game ever since it was arranged and were not disappointed in the least. They were in their best when the game was called and played one of the most creditable and interesting games that has ever been witnessed in Silverton.

Sunday Silverton defeated the Stoughton team by a score of 11 to 1. This was also a good game, but it did not require such an effort as did the Saturday game, nor was it as interesting. Both games were witnessed by large crowds of people. The attendance Saturday was better than at the Sunday game, probably due to the more element weather conditions and the fact that the farmers' picnic brought to town a great many of Silverton's favorites.

The Silverton boys are establishing a reputation that we may all well feel proud of.—News.

CHICK EVANS HANGS UP NEW GOLF RECORD FOR THE PACIFIC COAST

CHICK EVANS
PHOTO BY AMERICAN PRESS ASSOCIATION

In the qualifying round of the Panama-Pacific exposition amateur championship Charles ("Chick") Evans, western amateur golf champion, made the first eighteen holes in sixty eight. He established a record for the English course. His score for the thirty-six holes was 143. H. Chandler Egan, former amateur national champion, finished second with a score of 154. E. H. Bankard of Chicago finished third, with 157. Sixty-four players qualified. Evans is the favorite for final honors.

URIC ACID IN MEAT CLOGS THE KIDNEYS

Take a Glass of Salts if Your Back Hurts or Bladder bothers You—Drink More Water.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull you have rheumatic twinges. The urine gets cloudy, full of sediment, the clamminess in the kidney region, sharp pains in the back, or sick headache, dizziness, your stomach sour, tongue is coated, and when the weather is bad nels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste, get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

McCredie Surprised That Birmingham Is Ousted

Los Angeles, Cal., May 21.—Great surprise was expressed today by Manager Walter McCredie of the Portland Beavers when he heard that Manager Birmingham of the Cleveland Americans had been ousted.

"I cannot understand it," said McCredie, who is always in close touch with Cleveland through an arrangement between Portland and Cleveland for the transfer of players. "The last I heard Birmingham was filling the bill. I suppose the reason assigned, 'unsatisfactory progress,' is the cause. There are many good men in line for the job, but it would hardly be right for me to name any of them."

As it had been reported that Bill Rodgers, infielder, was released back to Portland by Cleveland because he could not get along with Birmingham, McCredie was asked if he thought the change in managers would have any effect on the Rodgers situation.

"They will have to see me about it first," he replied. "Of course, at this distance, it is difficult for me to say what effect the change may have. As for Rodgers, I hear that he has returned to his home in Cincinnati. He is the property of Portland, and he must return to us. I believe he will be back in Portland, all right, when we get there."

ROCKEFELLER SAYS HE DID NOT DIRECT BIG COAL STRIKE

was our duty to interfere."
"Since you bring me into it," Walsh retorted, "I will say that, if I own a saloon, as the Colorado Fuel & Iron company does through taking most of its profits, I would be interested in the question being closed."

Categorically denying that he was in any way personally connected with the Colorado coal strike, as charged by Frank P. Walsh, chairman of the federal commission on industrial relations, John D. Rockefeller, Jr., yesterday submitted a prepared statement to the commission.

"All political matters, as well as matters of detail, were decided on and carried out by the executive offices at Denver without asking our advice," he said.

The Colorado Fuel & Iron company was not in any way connected with the conviction of John L. Lawson, member of the district board of the United Mine Workers, who was found guilty of murder, recently, Rockefeller insisted.

"I feel, and have always explicitly expressed the feeling, that when private interests participate in criminal prosecutions the proceedings tend to lose that impartial quality, which should characterize the administration of justice. When I learned that Lawson's trial was forthcoming I made careful inquiry to assure myself that the Colorado Fuel & Iron company was not participating in the prosecution."

Rockefeller denied that he withheld information from the United States department of labor or was indifferent to the suffering caused by the strike.

He declared he did not exercise any personal influence extending to the state house at Denver, and denied that he "knew the Colorado Fuel & Iron company controlled the prices and fixed the working conditions at the mines."

The witness explained at some length the charges made by Chairman Walsh that he attempted to dictate a

Tennis Tournament Is Called Off

The non-conference tennis tournament which was to have been played on the Willamette courts tomorrow has been called off by Manager Teeters. The uncertainty of the weather necessitated the postponement of the tournament. As soon as nice weather prevails the non-conference schools will come to Salem and endeavor to wrest the championship. At present the Willamette team is out of form as the courts have been too wet to allow practice on them.

RIVER OF MUD FLOWS FROM LASSEN

the house and barn were swept away and several head of stock perished. Neighbors were searching for the Hall family this afternoon in the hills.

There is now no road through the valley. The county highway was wiped out by the mud. Travel is possible only on horseback by riding far up on the hillsides.

The great flood, having descended from the mountainside moved slowly over the comparatively level valley, but in some places was three feet deep. The depth throughout the 15 miles over which it had spread by noon was from six inches to four feet. Toward 11 o'clock the flood was beginning to lose its force. At that time it hit the farm of Henry Rogers, two miles above Casel, where it divided. About half found an outlet in the lava fields and the remainder went down Hat Creek.

Over the farm of Henry Mooris the mud was two miles wide and three feet deep. The stream was thick and slimy. The home of Henry Wilcox was destroyed. Mud a foot deep covered all of his tillable land this afternoon. Logs four feet in diameter drifted all over his alfalfa fields.

Secretary Olcott Sends Warning To Auto Owners

The secretary of state is mailing an important notice to motor vehicle owners throughout the state addressed to the newspapers, dealers in automobiles, county clerks, sheriffs, justices of the peace, constables, city auditors and recorders, chiefs of police and banks throughout the state, calling attention to the changes in the law effective May 23, 1915, providing that number plates cannot be transferred from one motor vehicle to another motor vehicle, and the further requirement that upon the sale of a motor vehicle the purchaser must notify the secretary of state and pay the statutory filing fee of \$1.00 for noting such transfer upon the records of his office, and the further fact that no sale or transfer of a motor vehicle is valid unless the required notice is given by the purchaser and the fee paid by him.

TWO SUICIDES WITH GAS.

San Francisco, May 21.—Neil Delvin and Peter Lutick, two dependent men, today committed suicide at separate points in San Francisco. Both used gas and stuffed the cracks of the doors and windows of their rooms with cotton.

Fifteen cents was found on Delvin and a penny on Lutick. The men are believed to have come here in search of employment. Their bodies were removed to the morgue.

strike letter from E. M. Ammons, then governor of Colorado, to President Wilson and a number of governors. He said the correspondence found by Walsh developed from a visit made to Ivy Lee, press agent of the coal operators at New York, by Major E. J. Boughton, adjutant general of Colorado. Boughton explained that Ammons was anxious to remove the country's misunderstanding in regard to the strike. Lee, according to Rockefeller, suggested letters to the president and to the governors.

Major Boughton made a memorandum of his own views, said Rockefeller, with the understanding that Lee would put them in the form of a letter.

Rockefeller admitted that he sent Lee a rough statement in regard to the strike with a suggestion that it might be useful to Boughton, but said he never saw the draft sent Boughton, who later assured Lee that he went no further with the suggestion. Ammons, who was then governor of Colorado, never knew that the suggestion was made, according to Rockefeller's statement.

"Utterly Different!"

Three years ago we could have offered you a 20 for 10 cents cigarette of superior quality.

But that cigarette would have been 90% just like all others.

We could have given you no legitimate reason for changing to ours.

So we waited—and made researches and spent thousands of dollars—until we originated NEBO plain end, a cigarette that is in every respect, except shape and color of paper, "Utterly Different" from any other cigarette that was ever manufactured.

A cigarette that offers you every reason for changing from the just-like-all-the-rest cigarette you are now smoking.

All we ask of you is an open mind—and one fair trial of NEBO plain end.

➔ **GUARANTEE**—If after smoking half the package of NEBO plain end you are not delighted, return balance of package to P. Lorillard Co., New York (Established 1760) and receive your money back.

Facts Not Arguments

"I am tired of listening to generalities and arguments. I want to draw my own conclusions."

This was the statement of a large manufacturer who was considering his advertising problem.

The facts were gathered. They embraced figures from all over the United States.

And as a result of these facts the manufacturer decided that he would have to use the newspapers if he wanted to sell his goods.

Manufacturers anxious for the same facts can have them in confidence by addressing the Bureau of Advertising, American Newspaper Publishers Association, World Building, New York.
