UNCLE SAMUEL MAY FURNISH PICKERS TO OREGON GROWERS

Directors' Board of Hop Association To Consider Matter Saturday—Market Strong

Government co-operation in aid of the solution of the problem of securing pickers for the coming crop of hops of the state of Oregon is one of the propositions which the board of directors of the Oregon Hop Growers' association will take up for consideration at the special meeting called for next Saturday in this city. The matter has been presented to the executive committee of the association by Raphael P. Boham, inspector in the U. S. immigration department, and it was laid over until the directors' meeting for consideration and action.

Every year the hop growers experience more or less difficulty in securing adequate help during the picking season, due to labor troubles and race differences, and it is believed that if the government employment bureau, which is conducted in conjunction with the immigration department, much of this trouble will be eliminated and better results obtained in the hop districts every year and this plan, it is believed, would not in any way interfere with local labor in the hop fields as the latter is always given the preference.

This will have a tendency, it is represented, of eliminating the troubles which sometimes arise when help is secured through the medium of private employment agencies. Hundreds of hop pickers are imported into the hop districts every year and this plan, it is believed, would not in any way interfere with local labor in the hop fields as the latter is always given the preference.

Within the last few days the hop market has taken on new life and considerable contracting has been reported at 12 cents throughout the district. Since the announcement of the Hop Growers' association contract for a 12-cent block of its holdings, something over 50,000 pounds, representing an advance of 2-1/2 cents over the then prevailing market price of 11 cents for 1915 contracts, the growers have taken courage and are holding out for better prices than are now offering. Some contracts are reported at 12 cents in some, however, one of which was the Haring & Craig lot of 40,000 pounds to Hal V. Bolino for London shipment. Several other lots are reported in the market at 12 cents and business has begun to look very good for the hop grower generally after a season of depression and uncertainty.

Vice-President J. L. Clark, of the Hop Growers' association, this morning made arrangements for luncheon at the Hotel Marion for 40 directors for Saturday noon and a full attendance of the directors is expected upon this occasion when some very important business will come up for consideration concerning the future policy of the association.

Famous Old Mill Race At Eugene Sold Again

Eugene, Ore., June 24.—The Eugene millrace, historic in University of Oregon lore and romance, was sold today by the Chambers Power company to the Eugene Excelsior company and the Eugene Woolen Mills for more than \$25,000. The property, including the two-mile ditch and 40 acres of land, was purchased 12 years ago by P. L. Chambers for \$3,000, which price included much land since sold.

The millrace is one of Eugene's oldest institutions and around it have been built songs, traditions and neighborly good feelings. It was built in 1832 by William Shaw and William Smith. Since then it or parts of the original race has been sold or transferred 13 times. The ditch passes through a highly improved portion of the city. When dug this was all a farm.

The race was first used to run a saw mill. The heavy timbers of the old mill, two feet square, still form the frame of a great mill near the site of the present flour mills. The original mill was burned in years or more ago. A woolen mill was then established. A distillery was built but later became a fertilizer factory.

For many years Eugene's electric power was generated, and its water supply supplied by the waters of the millrace.

Sam Krasner Convicted On White Slavery Charge

Portland, Ore., June 24.—Sam Krasner, once a power in the Portland underworld, was convicted in the federal court today of white slavery for transporting Irena Babcock from Portland to Shiloh's Springs, Wash. The jury returned a verdict of not guilty on a second count in the indictment which charged Krasner with taking the Babcock woman from Portland to Seattle for immoral purposes.

Irena Babcock was the principal witness against Krasner, alleging that after being his devoted follower for years he had deserted her for another woman. Krasner was arrested in New Orleans and returned here for trial. The plea for postponing Krasner was not filed.

SEARCH FOR WOMAN

Portland, Ore., June 24.—Search was begun by the police today for Mrs. Anna Dick, 36, formerly of Fresno, Cal., and her daughter, four years old, who disappeared from here several weeks ago. Mrs. Dick left her place of employment without notice, abandoning her personal effects. She took the child with her.

Portland Woman Fights To Annul Divorce Decree

Seattle, Wash., June 23.—Mrs. Ella G. Ford, of Portland, is here today with a claim that her husband, Corrie Ford, former assistant manager for Lipman Wolfe & Co., of that city, heard a divorce here a year ago by fraud. She alleges that although Ford knew her address and that of her two brothers, Fred E. Green, of the Portland Oregonian, and W. L. Green, she knew nothing of the divorce until long after the decree was made. Mrs. Ford has entered a petition to re-open the case and nullify the decree, supporting it with an affidavit in which she declares Ford went through the marriage ceremony with a woman in Victoria, named Jenkins, on December 1, 1913. His decree was signed July 28, 1914. She says that in order to keep the affair secret from her, Ford used as the title of his suit the names "C. G. Ford vs. M. E. Ford," and that he wrote her letters only a few days before the trial assuring her of his affection for her. Ford left Portland, she declares, to assume management of the Hudson Bay company store at Calgary, and it was there that he met the Jenkins woman.

EXPRESS CONFIDENCE IN ACTION OF PRESIDENT

Portland, Ore., June 24.—Expressions of patriotism and confidence in President Wilson were given today by the citizens of Portland. All public buildings, practically every business house and thousand of private residences were decorated with the national colors. Each citizen wore a small American flag. Hotels distributed tiny national emblems to their guests. At noon the training ship Boston fired a presidential salute of 21 guns. In the public schools flag drills were held, followed by patriotic talks. Tonight three municipal bands will discourse patriotic music in the city parks. Ford vs. M. E. Ford, and that he wrote her letters only a few days before the trial assuring her of his affection for her. Ford left Portland, she declares, to assume management of the Hudson Bay company store at Calgary, and it was there that he met the Jenkins woman.

Prominent Realty Man Passes Away At Dallas

(Capital Journal Special Service.) Dallas, Ore., June 24.—C. L. Pritchard, one of Dallas' most prominent real estate men, passed away at the Dallas hospital Tuesday afternoon after an illness of about a month caused by gall stones. Following an operation for the removal of the stones Mr. Pritchard seemed to improve for a short time but finally began to get worse and for the past week little hopes have been entertained for his recovery. Mr. Pritchard came to this city several years ago and at once entered the real estate business and by hard labor and honest dealings had just worked up a good business when taken sick. For a time he was connected with George McBeck but for the past two years has been operating for himself. He leaves a wife and two children to mourn his death. Funeral services will be held from the Chapman undertaking parlors Thursday afternoon at 2 o'clock. Burial will take place in the I. O. O. F. cemetery.
