## THIRTY-FOUR BOYS FROM AUSTRALIA IN SALEM TODAY

### With Band and Specialty Performers They Will Give Entertainment Tonight

One of the gentlemen in charge of the Australian boys, who are in Salem today, gave out the following statement:

"To many Americans Australia is an undiscovered country. They reckon it is an island about the size of Cuba. As a matter of fact you could drop the whole 48 states of the American union into our continent and still have a big area left over for your real estate men to gamble with.

"America used to be God's own country—then they discovered Australia.

"I think it was Ben Franklin who said the eagle was an immoral bird. We made no such mistake in adopting as our creature emblem the kangaroo. It is the only one on earth which stands up on two legs like a man. It never fights unless someone starts something and it never puts its tail between its legs. It progresses like the country it typifies by leaps and bounds.

"Why don't more Americans come out and see us. There are wonderful trade possibilities there. You seem to prefer to go gambling around old-fashioned Europe, staying at hotels with a lot of other Americans and imagining that you can see the country."

The four of these boys is principally for educational purposes, and they are simply illustrating the theory this gentleman advances to Americans. They have come over to this country to see and learn—and they are working full time on the job.

Members of Party.

Lieutenant J. J. Simmons has charge of the boys. They came from some of the best families of the island and are all trained musicians, playing in the band. They are under strict discipline and when one is tardy for a parade, whether it is his fault or that of his line or hostess, if he happens to be visiting, he pays the penalty of being compelled to shine the brass instruments or something of the kind. There are other penalties for various other offenses.

Arthur Coyce is the financial secretary of the company and Professor Hetheridge is band director. The members of the party and their respective ages are as follows: G. G. Zepke, 17; Clive Borkwood, 19; Stan Saunders, 17; Gordon Williams, 17; Terrence Hicks, 17; Perry Hicks, 18; Robert Kinnaird, 17; Kenneth Phillips, 17; Chester Bond, 18; Fred Curran, 20; Otto Stenberg, 19; Robert Davison, 20; Walter R. ## IOWA WOMAN TELLS OTHERS

### How Lydia E. Pinkham's Vegetable Compound Carried Her Safely Through Change of Life.

Cedar Rapids, Iowa.—"At the Change of Life the doctor said I would have to give up my work and take my bed for some time as there was no help for me but to lie still. I took Lydia E. Pinkham's Vegetable Compound and kept up my work and now I am over the Change and that is all I took. It was better for me than all the doctor's medicines I tried. Many people have no faith in patent medicines but I know this is good."—Mrs. E. J. RICKETS, 354 8th Avenue, West, Cedar Rapids, Iowa.

## ONLY CONTINUED HOT WEATHER WILL SAVE HOP YARDS FROM LICE

### Vermine Invade Upland Yards Which Have Heretofore Been Immune

According to the reports received from the hop growers of the Willamette valley, the general conditions of the hops in lower Marion county are particularly bad on account of the lice; in Lane county they are fair and in the Independence hop growing section they are good with few exceptions. This is accounted for by the fact that the yards on the bottom lands around Independence have always been bothered with lice and the growers thoroughly understand the handling of the pests. In the upland yards, however, the lice have never been bad, and many of the growers neglected to spray soon enough.

All yards that were sprayed with the standard lice killers by July 1 were in fair condition; but those that were not sprayed until the middle of July are badly overrun with the vermin.

Continued hot weather is the only salvation for the growers in the badly infested yards. The hot weather dries up the mites but they thrive in cool weather and will invade the burr of the hop and cause mold.

Hop picking will start about September 1, and already many pickers are signed up with the growers. In all cases those desiring to pick hops will register with the grower unless the grower applies for pickers at the Hop Growers' association headquarters. A call was left at the offices of the association this morning for 20 pickers, but in general the pickers are advised to register with the grower personally. There has been no change in the hop market for some time and the prevailing price for primes is quoted at about 15 cents.
