A NEEDED LESSON NOT OFTEN LEARNED

Learning how to play is one of the most valuable and important things one can acquire. Edison, despite the fact that he never takes a vacation, and works from fourteen to twenty hours a day, has this ability in the highest degree. He makes play of his work. He gets the joy of play out of it. He turns from one job to another, charmed with the possibilities each presents. To do this, even in a degree, means success. But one of our exchanges calls attention to the possession of the ability, so seldom I dreamed the sea was everywhere, acquired by busy people, to throw off the day's burden and recreate. Play ball or pitch quoits or do anything else within reason or morals that appeals to you so that the cares of the day slip away and are for the time forgotten. Youth is not a matter of years; it is a mental condition. To have loves and friendships and many points Man still hesitates between a heavenly and an earthly of interest into the sundown of life learn to play. And keep right on playing!
