Loss of Liner Arabic **Caused Slump in Stocks**

New York, Aug. 21 .- The loss of the ings as collateral seem thus far unsue Arabic caused a sharp drop in the mar-ter on Thursday when it was realized that this threatened a fresh and danger-ter attempts to re-establish British credit offered much promise. The simpcus crisis in our relations with Ger- lest and in some respects the best plan is for Great Britain to place a short many.

many. In one form or another, the war con-tizues to dominate financial affairs here. Although we have succeeded in being strictly neutral in our actions, our here. Although we have succeeded in being strictly neutral in our actions, our foreign and domestic trade, our foreign exchange and security markets as well as our banking arrangements have all been deranged more seriously and more fundamentally, than at any time since fundamentally, so particle is that been at any time, and would be a distinct relief in the ex-change situation. Activity in the war stocks continues with wide fluctuations. Many of these stocks have already scored remarkable advances in spite of persistent profit taking. The steel issues have been espe-cially conspicuous for strength. Much of their rise has been legitimate be-cause the industry has risen from ''pau-per to prince'' in a few short months. I

much confidence and too much specific to make specific to the transition of the transitions of the transitions of the transitions of the varies of the stock exchange the activity into losses which it will require years to overcome, and some of which a twee stock exchange the activity into losses which it will require years to overcome, and some of which muth states is steadily augmenting its resources and no foreign trade when the war is over, it will be found that the relative economic positions of the varies over, it will be found that the relative economic positions of the varies of the state states at the end of July in 1914, so that in vast y changed. Genany will require years are on the states at the relative economic positions of the varies of the varies at the relative economic positions of the varies of the varies at the relative economic positions of the varies of the varies at the relative economic positions of the varies at the red of July in 1914, so that in vast y changed. Genany will require the require transmittion. tions of the various nations will have vastly changed. Germany will require years of recuperation. So, too, will Bel-gium and parts of France. Russia and Italy may feel the consequence less as riously than the countries just mention-ed, while Great Britain will feel the in-juries least of all the belligerents. But the United States remains the only great power in the world that will, or even an bare difference. Russia and steel shares. General trade was

juries least of all the belligerents. But the United States remains the only great power in the world that will, or even can, benefit from this tragic strug-gie. In estimating our business future this is the central fact that should not be forgotten. not be forgotten. road shares are attracting more atten Attention in financial circles has once

tion since it is believed that they will benefit during the last quarter of the year from the effects of the good harvmore been concentrated on foreign ex-change. Sterling dropped to 4.64, the lowest on record. This means a shrinkest and renewed industrial activity. The future of the market will of course age of nearly 5 per cent in sterling ex-change, compared with about 17 per cent in French exchange, about 12 per cent in German exchange and 25 per cent in Italian. The decline in sterling cent in French exchange, about 12 per cent in German exchange and 25 per cent in Italian. The decline in sterling would have gone still further had it not been made known that the British gov. The trading element on the floer of the market will of course the war. At present so genuine peace indications are in sight, although ef-forts to bring the struggle to an end are being made in various directions. The trading element on the floer of the market will of course the war. At present so genuine peace indications are in sight, although ef-ing in the inner recesses of your nose and throat and are causing the crnment was taking active steps for protecting its credit in this market. The the exchange are still talking and workcrament was taking active steps for protecting its credit in this market. The situation in exchange was rapidly be-the exchange are still talking and work-coming more acute by knowledge that the time was approacating when the ex-cess of exports over imports, which it ex-cess of exports over imports, which its at the bottom of the present exchange erisis, would become still more formid-able. Some stable settlement of Eu-prope's debt to the United States is im-perative. Our creditors may talk about stock being so hug, es to be embut store and fress and if the only practical way of adjustment was the selling of British short term notes of honds in the United States. British hold-ers connot be induced to part with any further important amounts of Americas securities. Efforts to raise loans in this country by pledging British hold-
