Douglas, Ariz., Aug. 26.—Governor Maytorena, of Sonora, today confirmed the report that General Felipe Angeles was coming to Sonora to take over the chieftainship of the state for the Villa faction. No definite date for the transfer of authority from Maytorena to Angeles has been fixed.

Stomach Trouble Due to Acidity

Stomach troubles such as indigestion, wind, and stomach-ache are simply evidence and fermentation is taking place in the food contents of the stomach, causing the formation of gas and acids. Wind distends the stomach, and causes that full, oppressive feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the fermenting food. Such fermentation is unnatural, and acid formation is not only unnatural, but may involve most serious consequences if not corrected. To stop or prevent fermentation and to neutralize the acid, a teaspoonful of bisulphate of magnesia, probably the best and most effective corrector of acid stomach known, should be taken in a quarter of a glass of water immediately after eating, or whenever wind or acidity is felt. This stops the fermentation, and neutralizes the acidity in a few moments. Bisulphate of magnesia can be obtained from any druggist. It enables the stomach to do its work properly without being hindered by poisonous gas and dangerous gas and dangerous acids.

Bisulphate of Magnesia, No. 25 E. 26th St., N. Y. C.

Public Market Booths Ready For Occupancy Plans Adopted In Eugene

Eugene also feels the need of a public market. Sheds have been erected and the market under the supervision of certain municipal regulations, will be ready for business early next month. The Eugene idea of handling a public market, according to ordinances passed, is as follows: The market shall be under the charge and control of the local Pomona grange. Producers may sell through an agent, but this agent must be on a flat salary, and not sell on commission. Only produce raised or manufactured from produce raised by those associated with the public market can be offered for sale. The stalls in the market are to rent for 25 cents a day. Several members of a family may sell from the same stall, but an outsider will also have to pay 25 cents, if selling from a stall partially occupied. Associations pay 50 cents a day for stalls. The grange shall appoint a market master and his assistant, to be confirmed by the city council. The grange shall decide the amount of salary to be paid them, and they shall have control and entire management. The market shall be open on Saturdays from 7 o'clock a. m. until 6 o'clock p. m., and on other days, except Sundays, from 7 o'clock a. m. until 1:30 o'clock p. m. There shall be no outcry or public music to attract business, but the producer may place signs over his stall calling attention to his goods. All poultry for sale must bear the name and address of the seller; eggs must bear the name of the producer and storage eggs must be properly marked. No produce may be sold at prices higher than the prevailing prices.

SEATTLE PROFESSOR DIES. Seattle, Wash., Aug. 26.—Professor Frank Edward Johnson, 41, instructor in civil engineering at the University of Washington, is dead today of appendicitis, following an operation. Professor Johnson was the fourth member of the university faculty to undergo an operation for that ailment this summer. His wife was recovering from a similar operation in the next ward when infected of her husband's death.

INDUSTRIAL REPORT CONDEMNS WORK OF OIL AND STEEL KINGS

Law, the report takes up in detail the question of trusts and monopolies discussed in the first section of the Manly statement. The enactment by congress and the states of legislation embodying the principles contained in the British trades dispute acts is recommended. This legalizes the strike, lockout, boycott, blacklist, bringing in of strike-breakers and peaceful picketing removing all restrictions upon both sides. Detailed plans are outlined and urged upon congress for a permanent national expert as a member of his personal staff. *****

Chicago, Aug. 26.—Seething denunciation of the Rockefeller and Carnegie foundations and that the declaration that the lives of millions of wage earners are subject to the dictation of a relatively small number of men, featured the third section of the Manly report of the industrial relations commission made here public here today.

The entrance of the Rockefeller foundation into the field of industrial relations, through the creation of a special division, was declared to "constitute a menace to the national welfare, to which the attention, not only of congress but of the entire country should be directed."

"Backed by the \$100,000,000 of the Rockefeller foundation, this movement has the power to influence the entire country in the determination of its most vital policy," the report declared.

The investigation into industrial conditions which is being made by the Rockefeller foundation is not in good faith, it is declared, but was originated to promote the industrial interests of Rockefeller.

This charter, it is urged should limit the funds of the foundations, specify their powers, provide for rigid inspection of finance and complete publicity and that no "line of work not specifically mentioned in the articles of incorporation shall be entered without the unanimous consent and approval of the board of trustees or unless congress is directly informed of such intention." "The final control of American industry rests in the hands of a small number of wealthy and powerful financiers," it is stated. Under the heading "Unions and the

Mr. and Mrs. Tracy Stants and family have returned from a two weeks' outing at Newport.

Mr. and Mrs. J. H. Shepherd and family left Tuesday for Lincoln, Neb., where they will share their future home. Mr. Shepherd, who for the past several years has been conducting a jewelry store in this city will engage in the real estate business in the Nebraska city.

Mr. and Mrs. W. C. Cook and family of McMinnville were in the city Sunday visiting at the home of Mrs. Cook's parents, Mr. and Mrs. A. V. Snyder.

Mrs. H. P. Shriver left Sunday afternoon for a visit with her sister at Centralia, Washington.

L. C. Feiger of Fairfield, Illinois, is a guest of his brother-in-law, John R. Sibby.

A. Huest of Salem was a Dallas business visitor Monday afternoon.

Mrs. Fred Talbot of Falls City is visiting this week at the home of Mrs. Kate Muscott.

DON'T SUFFER—LAUGH AT STOMACH MISERY

Daniel J. Fry Will Return the Money If Mi-o-na Does Not Relieve Dyspepsia.

Among all the remedies in Daniel J. Fry's popular drug store, there are few that he is willing to sell on a guarantee to refund the money if they do not cure. Mi-o-na, the famous dyspepsia remedy has helped so many of his customers that Daniel J. Fry says, "If this remedy does not relieve you, come back to my store and I will cheerfully return your money." Anyone who has dyspepsia, indigestion, headaches, dizzy feelings or liver troubles, should take advantage of this chance to be made well without any risk of spending their money to no purpose. Mi-o-na will relieve you, will regulate the digestion, will enable you to eat what you want. If it does not do all this it will not cost you a cent. Daniel J. Fry has sold hundreds of boxes of Mi-o-na in the last few weeks and has yet to receive the first complaint from any customer. Such a record is simply marvellous and speaks volumes for the merit of the remedy. It is easy enough to fill a column with the symptoms afflicting those who have dyspepsia, but there is no need of describing their condition. What they want is relief and they can get it in Mi-o-na. Do not suffer a day longer with disordered digestion. If Mi-o-na relieves you it costs you 50 cents a box, if it does not, you have Daniel J. Fry's personal guarantee to return your money.

RELIEF FOR NEWPORT

Newport, Ark., Aug. 26.—The first relief train which has reached Newport since the city was inundated as the result of swollen streams, arrived today, bringing state troops. The soldiers took charge of the city and began distribution to the needy of the 1,500 rations they brought with them. Hundreds of persons are still marooned in the surrounding country.

OREGON BUILDING IS REMEMBERED BY FAIR VISITORS IS REPORT

Unique Log Structure Makes Good Impression Says Supt. Churchill

The Oregon building at the San Francisco fair is attracting more favorable comment than any other building on the grounds according to State School Superintendent J. A. Churchill who returned from the educational conference held recently at San Francisco.

"Easter and foreign visitors have a general concept of all of the buildings," says Mr. Churchill, "but after they leave the fair there is nothing to set one state building apart from any other in the visitors' mind, except in the case of the Oregon building which is of a distinctive type and entirely different from any other building on the grounds. The Oregon building is unique and attractive and the exhibit is excellent."

Naval Lieutenant Is Under Serious Charge

Seattle, Wash., Aug. 26.—Naval Lieutenant Joseph S. Hudings' sudden disappearance from this city a month ago remained secret until today when the cause of his unexpected leave taking was made public through the unusual disclosures of Clara Millanowski, 13 years old, formerly employed as maid in the lieutenant's home. The girl brought action against him for \$5,000 damages.

On the evening of July 16, she declared in court today Hudings and his wife were absent and she put the two children to bed then retired to her room for the night.

It was quite late when the officer returned alone. She alleged he shortly appeared in her room, clad only in his summer underwear. He laid down beside her. She screamed and fought him off, she said, finally escaping from the room.

Judge Jurey gave the girl a judgment of \$500 today. Lieutenant Hudings allowed the case to go by default.

He had been employed here as navy inspector at the Morn ship yards where six submarines are under construction. He left here last month with his wife and two children.

OLD RECORDS ARE FOUND.

Five volumes of the Congressional Globe, of great historical interest, were found in an Albany second-hand store recently. They were issued in 1890 and 1891 and give debates in congress just preceding and following the outbreak of the civil war. These books were purchased by Willard L. Marks, an Albany attorney. The senators from Oregon at the time the first of these volumes were compiled were Joseph Lane, who was one of Oregon's United States senators, and who is the grandfather of one of Oregon's present senators, Hon. Harry Lane and Edward D. Baker, whose famous speech in defense of James W. Nesmith, of Polk county, and grandfather of Representative McArthur, was also a United States senator from Oregon during part of the time covered by these records. Lansing Stead was Oregon's representative in congress at that time, the entire state having but one representative.

ARREST GERMAN FOR TAKING PHOTOGRAPHS

Gustave Klopsch Had Much Data Concerning American Defense Works

Washington, Aug. 26.—While Gustave Klopsch, a young German, was locked up here today charged with having taken photographs of American defenses, the chief worry of secret service men and agents of the department of justice was whether they had seized all the data Klopsch gathered on visits to Fortress Monroe and the military reservation at Cape Henry.

Officials were reticent as to just what was found on Klopsch, but photographs taken from him are said to have included views of guns at fortifications at Fortress Monroe. The young German also had pictures taken at Cape Henry, where new defenses are being planned to guard Chesapeake bay.

Klopsch is held in \$5000 bail and will be sent to Norfolk for trial. When he will be taken there for a preliminary hearing is not known, but it is expected his arraignment will be set within a few days.

Klopsch is employed at the Carnegie institution here as an instrument maker. He declared a sentry at Fortress Monroe gave him permission to take pictures there.

Not German Spy.

Washington, Aug. 26.—There is nothing to show that Gustave Klopsch, the young German arrested yesterday for taking photographs of guns and defenses of Fortress Monroe, was acting under instructions from Germany, it was declared here this afternoon. "The boy may be only an overly enthusiastic German," said A. Bruce Bielanski, chief of the bureau of investigation of the department of justice. He added that there was nothing to indicate Klopsch was connected with Ortolph, the supposed spy who is being held in Florida. Klopsch's drawings, Bielanski said, showed no particular aptitude for getting precise military information such as would be required if it was to be of any use to a possible enemy.

Klopsch will be given a hearing here before a United States commission on September 2, preliminary to his trial in Norfolk, if it is decided to take such a step.

Rube Marquard Is Headed For the Bushes

New York, Aug. 26.—Its "back to the minors" for Rube Marquard, at one time the main spring of the pitching strength of the Giants, unless the big pitcher can persuade Manager McGraw to give him his unconditional release. This is not regarded as likely. Marquard was sold to the Toronto club of the International league, Pitcher Herbert coming to the Giants on the deal. Marquard has been one of the most talked of pitchers since he broke into the big leagues from the Indianapolis American Association more than six years ago. The price paid for him—\$10,000—was then a record. For several seasons he showed nothing and became known as "the \$10,000 lemon." Three years ago he established a record by winning 19 straight games and last season turned a sensational performance by beating the Pittsburgh Pirates in a 21 inning game with Babe Adams. He made a sensational start this year, but has been an in and out. Marquard stirred baseball circles by jumping to the Federals last winter, but made a return leap to the Giants. It would cause no surprise if Marquard went to the Federals in case the Giants refuse to give him an unconditional release.
