### SENATORS TO PLAY STAYTON IN THIS CITY SUNDAY P. M.

### Visitors Will Present Strongest Lineup In Order To Close With a Win

As Sunday's game with Stayton is likely to end up the 1915 baseball season the Salem Senators intend to wind up with a brilliant victory. Stayton also is bringing its baseball season to a close and is as confidently expecting a brilliant victory, as neither side has yet been able to agree on the winner the question will be decided with baseball bats and padded mits at the league grounds Sunday afternoon at 3 o'clock.

Keene will do the twirling for the Senators and Gill will perform behind the wind pad. Jones will check at the first station with Wilson at second and Miller at short. Captain Humphries will hold down his old position at third and Chuck Lowe, Reinhart and Craig will handle the flies that swarm into the outfield.

Stayton claims to have the best lineup of the season and also the strongest. They have won nine out of the 10 games played, and do not intend to take any chances with the last game. The Stayton lineup will be: Bartholmey, c; Cole, p; Rock, 1b; Robertson, 2b; Glecker, ss; Kellogg, 3b; Thoms, lf; Goodman, rf, and Sloper, cf.

Stayton claims also to have a famous strike-out pitcher in Cole, who has been doing the twirling this season, and the battle with Keene on the mound for the Senators promises some unusual features.

### NINE FATALITIES ARE REPORTED FOR WEEK

### Six Killed In Railroad Operation According to Accident Commission

For the week ending today there were 165 accidents reported to the state industrial accident commission, of which nine were fatal, which is the largest record of fatalities ever reported at the industrial accident commission in one week. Of this number six were killed in railroad operation or construction, two in logging and one steamboating. One of the fatal accidents was from Brooks, in this county, where it was reported that one Joe Garman went to sleep on the railroad track and was killed by Southern Pacific train No. 15.

There were but two injuries reported from this county out of the 165 cases reported. Earl Ruble, of Silverton, suffered a strain while logging, and Wiley Jones, of Scotts Mills, concussion of the brain while logging.

Of the total number reported 109 were subject to the workmen's compensation act; 34 were from public utility corporations; 25 were from firms or corporations which have rejected the provisions of the act; and 5 were from firms or corporations which do not employ labor in hazardous occupations.

Following is shown the number of accidents by industry: Sawmill, 27; logging, 26; railroad operation, 25; paper mills, 6; bridge construction, 4; contracting, 5; machine shop, 9; steamboating, 4; mining, 4; passengers on railway, 4; and of the following three each: (crossing works, boiler works, railway construction, meat-packing, paving, light and power; two each of the following: planing mill, quarry, threshing, department store; and of the following one each: tin shop, construction, road construction, grain warehouse, ice cream factory, longsoaring, milling, truck and dray, mill construction, department store, furniture manufacturing, ice manufactory, mattress factory, grain and feed store, stock yards, express portier, grain elevator, hand clearing, box factory, cannery, grading, bakery, blacksmith.

### HEAT AT LOS ANGELES

Los Angeles, Cal., Aug. 27.—Unusual heat followed today in the wake of the climatic freaks which astonished southern California yesterday. While rain poured in some parts of the south, thunder storms minus the moisture occurred in others. A rainstorm three blocks wide cut through the Highland Park district of Los Angeles. It was flanked on either side by dust storms.

### CONSUL IS RECALLED

New Orleans, La., Aug. 27.—Harry T. Hunt, British consul here, has been recalled. It was learned today. T. F. Erskine, of Portland, Ore., will succeed him.

### The British colony of New Orleans recently criticized Hunt for what was termed his apathetic attitude toward bomb makers arrested here.

### The Salem fire department was called out this morning at 10 o'clock in response to an alarm turned in for a grass fire at the Gosser residence at 1223 South Twelfth street.

### The family has gone to the hayyard and the fire had reached the barn when the engine arrived. No damage was done except that the barn was slightly scorched and the flames were quickly extinguished by the department. It is thought that the fire was started by children playing in that vicinity.

### The public utilities commission today ordered the Southern Pacific company to install block signals on its line between Jefferson street in Portland and Oswego along which line there occurred recently a collision in which two trainmen were killed. The commission also recommended that the railroad take more care in the future in backing a freight train out upon the main line. The wreck was on August 20 near Silverdale.

In "Prohibition" Salem picture fans will soon have an opportunity of seeing one of the big things that has been put over recently—a picture as interesting and stirring as a "Billy Sunday Sermon." Free from platitudes, it tells the story in six intense reels—and holds you spellbound by its thrilling situations.

In this big attempt to put over the story of King Booze, the author has symbolized the guiding impulses of our big and little selves, and called them Demon Rum, The Angel of Prohibition, Mephistopheles, and Intelligence. These symbolic figures appear and disappear upon the screen as the minds of the drink enslaves men sway under the impulses of good and evil.

In the story the father drinks like the proverbial fish. That he lives despite his orgies is a physical feat and inspires no imitation. His friend, a talented lawyer, goes to the gutter. The dawn of a new tomorrow breaks upon him; he comes to the top like a rubber ball.

The father has two sons. Both love the same girl. The loser, a despicable character, a jealous demoniae, determines to work upon his younger brother's inherited weakness for drink and finally lands him upon the physical and moral rocks. But love and intelligence triumph in the besotted mind of both father and son and they swear off for good and for all.

There are several bully walloping fights, one between the diabolically plotting brother and his sister-in-law and the final battle in which the schemer is killed. There is conflict all the way through—conflict with the spirits within, with the spirits in the bottles and incarnate spirits who are handy with their fists.

It is a picture all should see. It is a picture no one will forget. Those who attended the special exhibition pronounce it one of the strongest films ever produced.

**The Woman Who Tells Us**

she wants another roast "just like the last one" is not a rarity here. In fact, she's quite numerous. There's a reason. We never take advantage of a young woman's lack of experience to palm off inferior meat on her. Hence she trusts to our judgment and good faith. Besides we haven't any poor meat to palm off if we wanted to. We don't handle that kind at all.
