

THE ERRING WIFE IS WELL RECEIVED

The Oregon is to be congratulated on the wonderful program that it offered its patrons yesterday. The vaudeville was superb—by the way, the lady of the act was a former Portland girl, but the best thing was the remarkable Fox photoplay with Frederick Perry, the star of the tremendous Broadway success, "On Trial," in the leading part, and Dorothy Bernard, Stuart Holmes,

George Alison, Jean Southern, Claire Whitney, all stars, in the minor roles. This exceptional picture grips the audience and holds the interest to the end. Where Mr. Rameau bows his head and brokenly whispers, "I thank thee, O God." All will be interested to know that Dorothy Bernard, who takes a prominent part in this picture, is a former Portland girl. She was leading lady at the Baker Stock company in Portland for three seasons, but deserted this for the silent drama.

GOOD ADVICE

A Salem Citizen Gives Information of Priceless Value.

When you suffer from backache, Headaches, dizziness, nervousness, Feat weak, languid, depressed; Have annoying urinary disorders; Do you know what to do? Some Salem people do. Read the statement that follows. It's from a Salem citizen. Testimony that can be investigated: C. W. Hill, wagon maker, 1939 North Front street, Salem, says: "I had more or less backache and my kidneys were disordered. Doan's Kidney Pills have always relieved me in a short time. I know of several other people who have taken Doan's Kidney Pills with good results. You may continue publishing the statement I gave before, recommending them." Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Hill had. Foster-Milburn Co., Props., Buffalo, N. Y.

GERMANY FIGHTS FOR LIBERATION FROM ENGLAND

"Brutal Supremacy" of Great Britain Was Cause of War Says Gazette

Washington, Aug. 30.—Another development, at least regarded as in the direction of restored peace in Europe, came late today when the state department received information from London that there was to be a relaxation of the "hard rule" under which American shipments have been held up by the allies. Connection was seen between the Berlin assurances of last week regarding the submarine warfare and the London assurances as to American commerce.

Berlin, via London, Aug. 30.—Germany is not fighting for world supremacy but for "the liberation of Europe from the brutal supremacy of England," the government stated today through the North German Gazette, its official organ.

Replying to the recent utterances of Sir Edward Grey, the government flatly denied the foreign ministers' assertion of Germany's desire for world supremacy.

"Germany is fighting for the liberation of Europe from the brutal supremacy England has maintained with her powerful fleet and with the policy of splitting Europeans into two hostile parts, harking at each other in the British interest, and permitting England to throw her weight wherever her egotistic ambitions were best served," the statement said.

No reply was made to Grey's reference to possible demands for indemnities. The charge that England had planned to land troops in Belgium if the military developments demand it, was reiterated.

Bulgaria Will Be Neutral

Rome, Aug. 30.—Bulgaria pledged Turkey her neutrality on August 24, according to Austrian advices received here today. The Bulgarian diplomats were said to have delayed negotiations until a second installment of the German loan was received.

Belgium Bar to Peace

Portland, Ore., Aug. 30.—The European war will last until Germany establishes the right to retain possession of Belgium, or England and France restore the country to its own people. This was the belief expressed today by Arno Dorsch, war correspondent and magazine writer, who is visiting his father, J. E. Dorsch, Dorsch just returned from the European battlefields.

Dorsch said that he did not believe that Germany could carry the war far enough into Russia to make that campaign a conclusive factor in the settlement of the conflict.

"Whether Warsaw remains in German hands is by no means so important as whether Antwerp does," he said.

Want Public Market Location Changed To Central Business District

Just as the public market was getting under good headway with the booths erected on Perry street, and everything pointing to a bigger business than ever next Saturday, a disagreement of opinion seems to have arisen among several as to whether the locality chosen was the most available or best adapted for a public market. The following communication addressed to the editor of the Journal expresses the idea of a few who are interested in the market:

"The board of managers of the market have erected the shed, or booths, and have done this with the best intentions. But they are on the north side of the street in hot summer and where the south rains will drive into them. The patrons have interviewed Mr. Stockton, E. T. Barnes and McEvoy brothers and the sidewalk north of any of these places can be secured for the market, and give protection from the sun and rain and is a much more desirable place for the market. Preference would be north of the Barnes racket store, and Mr. Barnes has consented to the use of this space. (Signed) Wallace, Miller, Jones, Mathis, Ryan and other patrons of last Saturday."

GENERAL GOETHALS GOES SOUTH

Seattle, Wash., Aug. 30.—Major General George W. Goethals left here this morning on the Shasta Limited with his wife and son, for the California exhibitions, after spending Sunday in Seattle.

During the day he was shown the University of Washington and then taken for an inspection of the Lake Washington canal. He displayed great interest in the canal locks at Ballard, which are second in size only to the Panama canal locks, but made no comment.

GIRL GIVEN UP AS LOST

Seattle, Wash., Aug. 30.—With police, parents, neighbors and outsiders holding many theories as to the cause of the disappearance of 15-month-old Florence Kelly from the beach at Fantleroy park last Thursday, search for her has been practically abandoned today. Whether she was caught in a wave and carried to deep waters of Puget Sound, whether she wandered into the wood and was lost, or was carried off by an eagle or kidnaped, are all matters of conjecture.

One Week More In Which To Remonstrate Against Paving Fairgrounds Road

The report has been in circulation about the city that today was the last day in which the property owners along the fair grounds road could remonstrate against the proposed paving of this street. This is in error as the property owners can file a remonstrance up to and including September 6. The city charter allows 10 days after the last publication of the notice of intention to improve. Saturday, August 28, was the last day on which the notice appeared.

Would Quit Praying and Fight For Peace

Boston, Mass., Aug. 30.—"We have prayed long enough. Let's stop war with one good fight rather than to continue to pray while manufacturers go on making munitions."

With this statement Rev. George C. Richmond, rector of St. John's Episcopal church, of Philadelphia, jumped to his feet and threw the Boston minister union into confusion today. Prayers for peace had just been said. Rev. Richmond attracted attention several years ago when he refused to perform the marriage ceremony of Miss Madeline Force and John Jacob Astor, later lost on the Titanic.

The rector suggested to the Boston ministers the adoption of a resolution asking President Wilson to send the navy to Mexico and then to Europe on the side of the allies.

ANOTHER BAYONNE STRIKE

Bayonne, N. J., Aug. 30.—Rumors that another strike of employees of the Standard Oil company will be called here were circulated today. The strike resulted in several men being killed in riot. The men are now said to present the company's action in refusing to discharge about 75 negroes hired as strikebreakers. The workers were given a ten cent increase after the last strike. Oil advanced one cent shortly afterward.

FOREST FIRES IN OREGON

Portland, Ore., Aug. 30.—The forest fires in the Cascade mountains in the vicinity of Mount Hood have already swept over six thousand acres, it was reported today.

Several hundred fire fighters are combating the flames at three different points. The fire on the Salmon river, 13 miles southwest of Mount Hood is still raging unabated, but the ones on Shell Rock creek and White rivers are believed to be under control.

POLK COUNTY PIONEERS

The organization committee informs the Observer that it is the purpose of many patriotic citizens of Polk county to make an earnest effort to organize a Pioneer's association on Thursday, September 23, the second day of the Polk county fair, which will be specially designated as "Pioneer Day." It had been the purpose of the committee to organize the name at least two delegates for each voting precinct to assist in the work of reorganization, but it has been found impracticable to do so. All persons interested in the movement are requested to consider themselves such delegates, and do everything in their power to help along the good work. Not only are they requested to be present themselves, but each is urged to bring his neighbor also.

It has been suggested that the name and style of this organization be known as "A Home Gathering of Polk County Pioneers and their Descendants," but this suggestion is only tentative, and is subject to amendment or revision by the members of the association. A speaker has been invited to address the pioneers, and the purposes of the organization will be fully set forth by selected speakers on the day of organization. The committee is especially desirous of having a large and enthusiastic gathering on this occasion. Any further information regarding the proposed organization will be furnished by Mr. J. T. Ford, of this city.

CARRIER HAS CONFESSED. SAYS DISTRICT ATTORNEY

Portland, Ore., Aug. 30.—That Sanford W. Currier, who was arrested several days ago on the charge of arson, has confessed that he fired one of his homes in Portland and started several blazes in California, was the statement today of Deputy District Attorney C. W. Robison, who has charge of the case. Currier is being held in the county jail in default of \$20,000 bail.

Robison said that Currier's alleged confession was not such that any detailed statement could be given out, but that he had implicated a number of persons as being accomplices.

The police suspect Currier of being the head of an "arson trust," which has operated all along the Pacific coast. Currier is said to have admitted that he began his career as an arsonist 10 years ago in Los Angeles.

His plan of action, was, it is said, to build a shell of a house, stock it with cheap furniture, over-insure the property and then set it on fire.

HEARING IS POSTPONED.

(Capital Journal Special Service.) Dallas, Ore., Aug. 30.—The case that was to have been heard before Judge H. H. Belt Saturday morning of an injured workman who believed that the allowance awarded him by the state industrial accident commission was too small, was postponed on account of the failure of the man to appear before the court. Judge Belt believes this to be the first case of its kind on record since the legislature of 1913 gave the right to injured workmen to appeal from the award made by the state commission. State Attorney George L. Brown will represent the commission when the case comes to trial, which Judge Belt believes will be within the next few days.

Rev. McConnell, of The Dalles, has been chosen by the congregation of the Christian church to fill the vacancy caused by the resignation of Rev. C. C. Curtis about a month ago. Rev. McConnell has been connected with the Christian church at The Dalles for the past five years and is said to be a man of exceptional ability. He will commence his work in this city about the first of October.

Steamship Sunk at Seattle Dock

(Continued from Page One.)

worked the vessel toward shallower water, where she held until the ropes broke and she sank. At high tide but little else than her pilot house showed. Her stern was in 30 feet of water.

The wrecking steamer Santa Cruz last night began the work of raising the Watson. This work will require a week or 10 days.

The longshoreman, Kilmoe, 40 years old, had just boarded the vessel and was descending to the hold when the freighter crashed into the Watson. He was knocked down by a falling beam and died before he reached a hospital.

The Paraiso was entirely undamaged. The Pacific-Alaska Navigation company lost the Admiral Sampson, a vessel almost identical in size and design to the Watson, a year ago when she was rammed and sunk by the Canadian Pacific railroad steamship Princess Victoria near the harbor here, during an early morning fog. Several lives were lost.

For Sale, Choice 225 Acre Farm

One of the best Grain and Dairy Farms in Polk county, and owing to its location is an ideal tract for subdivision located 7 miles from Salem on rock road, with railroad and shipping station at door. Has a large set of modern improvements. Good family orchard; all fenced and cross-fenced with woven wire; 200 acres under cultivation, and in clover. Balance in timber and pasture with running water. This farm will be offered for a short time at a bargain. Will consider some good Portland or Salem income property as part payment, some cash, balance long time 6 per cent. This is an exceptionally good proposition, and will not last long. For further information see JOSEPH BARBER, Office 405 Hubbard Bldg. Phone 1644 or 1722. Salem, Ore.
