

"LET 'ER BUCK"

Notice Cherrians

August 30, 1915.
To the Cherrians, as well as the General Public:
The best features of the Pendleton Round-Up, for the past four years, will be shown at the Oregon theater, on Tuesday and Wednesday evenings. Having attended the Round-Up on several occasions, and knowing the moving pictures of same will be very interesting, I have made arrangements to have all Cherrians admitted free.
Respectfully,
—T. B. Kay,
King Ring.

PENDLETON ROUND-UP

BEST PART
OF
LAST FOUR YEARS

ADMISSION 10c

VIVIAN MARTIN IN

"LITTLE MISS BROWN"

(Brady-World Film)
The play at the Oregon tomorrow is another comedy feature entitled "Little Miss Brown." Those who saw last week's feature, "The Cub," will want to see this offering.

Vivian Martin's much admired comedy gifts are given every chance of showing themselves in this production. She plays the part of Betty Brown, who has two lovers. One of whom she so indiscreetly flirts with, that she finds herself alone in a Hartford hotel, where

VIVIAN MARTIN
IN
"LITTLE MISS BROWN"

she is mistaken for the wife of a young man who has come to the hotel to meet his wife, and his uncle and aunt and be presented with some money. Betty Brown has some extraordinarily amusing adventures and misfortunes before the entanglement is straightened out, and she sends the unwelcome lover to the right about and declares for the right one.

One of the most remarkable casts ever since in a motion picture is seen in this comedy. Besides Vivian Martin there is Chester Barnett, John Hines, W. J. Ferguson, Crawford Kent, John Stuart, Alberta Gallatin, all clever comedy artists.
James Young directed the picture.

Mr. L. HARRIS, Manager and President of
250 KEARNY ST.
Bet. Sutter and Bush

HOTEL STANFORD

A modern, fire-proof, up-to-date Hotel, located in the center of everything and on a direct line to the Exposition Grounds.

RATES

which has some pretty and effective settings and many animated scenes of hotel and domestic life.
Excellent photography adds charm to a piquantly pleasing and exhilarating picture.

IF BACK HURTS USE SALTS FOR KIDNEYS

Eat Less Meat If Kidneys Feel Like Lead or Bladder Bothers You—Meat Forms Uric Acid.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.
You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then be fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.
Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which keeps your kidneys clean, thus avoiding serious complications.
A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

Resume Operations At Wending Mill Monday

With a crew of 200 men in the mill and the woods, the Booth-Kelly Lumber company will resume operations at Wending mill Monday, according to A. C. Dixon, manager of the company, after having been closed since July 20. Mr. Dixon said yesterday that a crew of 60 men has been at work on the mill since it closed, making repairs in a general way. A new dam has been built, a new carriage has been installed and other improvements have been made.
The company will operate but 75 men in the timber to get out logs, says Mr. Dixon. They will furnish logs only for the Wending mill, the supply from the pond at Coburg being used by the Springfield mill.
Mr. Dixon says that the men are already gathering at the camps and everything will be in readiness by Monday to resume operations at full capacity.—Eugene Register.

DOWNWARD COURSE

Fast Being Realized by Salem People.
A little backache at first.
Daily increasing 'till the back is lame and weak.
Urinary disorders may quickly follow.
Dropsy and often Bright's disease.
This frequently is the downward course of kidney ills.
Don't take this course. Follow the advice of a Salem citizen.

W. H. Bradley, farmer, 614 S. 21st St., Salem, says: "About two years ago kidney trouble came on me. First, my back began to ache, then, pain seemed to spread all over my body, like rheumatism. The kidney secretions were unnatural and I knew that my kidneys were disordered. I read an endorsement of Doan's Kidney Pills given by one of my neighbors, and I got some. Before I started the second box of this medicine I was almost entirely free from pain and my kidneys acted regularly. I have used Doan's Kidney Pills since with good results."
Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Bradley had. Foster-Milburn Co., Props., Buffalo, N. Y.

SENTENCED TO EAT

Los Angeles, Cal., Sept. 1.—"Say, boss, let's get back to the scotties!"
This yell was heard frequently in the city jail today where Jacob Dryman, who was sentenced to 10 days for ordering a restaurant meal and refusing payment, is serving his time.
Judge Richardson ordered the jailer to feed Dryman all he could eat, and the prisoner certainly makes the turnkeys hustle. Yesterday his menu was as follows: Three loaves of bread, one platter of butter, 15 cups of coffee, 6 pints of milk, one pound of sugar, 6 pounds of beans, two pounds of beef, 11 eggs, 12 apples and one pound of grapes.

Harry K. Thaw Files Suit For Divorce From Evelyn

Pittsburg, Pa., Sept. 1.—Suit for divorce from Evelyn Nesbit Thaw was filed here today by attorneys for Harry K. Thaw, who presented their petition in the court of Judge Reid.
Thaw charges infidelity and names John Francis as the alleged co-respondent.
There was the greatest speculation as to the co-respondent named by Thaw. John Francis is not known here.
Thaw's attorneys would give no information regarding Francis, except to say he was a resident of New York state.
The petition alleges improper relations and names several dates and different places in New York City.
Instances of alleged misconduct were cited as having occurred in December, 1909, and January, 1910, on West Thirty-first street, New York.
The baby, which Evelyn declares is Thaw's son, is not mentioned in the petition.

When Mrs. Thaw's mother was asked as to the whereabouts of her daughter she said she did not know and also professed to know nothing of the suit.
Known on Broadway.
New York, Sept. 1.—John Francis, named by Harry K. Thaw in his suit for divorce in Pittsburg, is known to Broadway as a former newspaperman. He recently has been engaged soliciting advertising for a theatrical paper.

Secretary Not Informed.
Lake Tahoe, Cal., Sept. 1.—H. E. Rice, secretary to Harry K. Thaw, when seen here this afternoon, declared he knew nothing regarding the filing of a divorce suit by Thaw beyond the information given him by the United Press. He said he did not know John Francis, named as co-respondent.
Thaw has not yet reached here. He left the Utah metropolis Saturday evening by automobile, but has taken his time coming here. Rice expects him tonight, he said.

Only One Identified Body Is Recovered

Honolulu, Sept. 1.—With one body identified, workers continued to dig in the mud and debris filling the ill-fated submarine F-4 today in an effort to recover the last of the remains of Lieutenant Ede and his 21 men who went to their death in the harbor here last March.
It may require two or three days to clear out the F-4. There is little left of the bodies of the submarine victims resembling human forms, and the chances are against many being identified. One body taken out yesterday was identified as that of George T. Ashcroft, of Los Angeles. The bones were identified by a dental bridge. The remains of other members of the crew were located in the after compartment. Little more than their skeletons remain.

Arch-Bishop Christie, of Portland, was in the Oregon building Sunday. "I heard some Portlanders express a doubt about the Oregon building," said the bishop, "but I think he must have been sick. This is beautiful, beautiful, inside and out. I think it wonderful and did you ever see such lovely wood as that myrwood furniture?"
T. K. Churchill, born in Oregon in 1851, but away from the old home near Harrisburg since 1880, said, "This is a mighty fine showing. I have been living in Los Angeles a long time, and I have interests in Montana, and I am certain that either state can beat California on everything but climate. There is no place where they can grow more or better stuff on an acre than they can in Oregon, and this exhibit building is fine, mighty fine."

DIED

WELLS—At the home of her parents, Mr. and Mrs. W. L. Cummings, 1422 State street, August 31, 1915, Mrs. Ploy C. Wells, at the age of 40 years. Surviving her besides the husband, are two daughters, five and seven years of age. Also three brothers, C. E. W. A. and A. E. Cummings, all living in Salem. The sisters surviving are Mrs. C. O. Bates, of Turner; Mrs. C. W. Laughlin, of Grays River, Wash., and Miss Laura Cummings, of this city.
Funeral services will be held at the W. L. Cummings home, 1422 State street, 10:30 o'clock Friday morning, with interment in City View cemetery.

EVANS—In the city, Lawrence Evans, at the age of 43 years.
The body will be shipped to relatives in Dodge Center, Minn., for burial.

OREGON HENS CUT WIDE SWATH IN COMPETITION

No Other Egg-Layers In Their Class—Notes of the Exposition

(Capital Journal Special Service.)
Oregon Building, Panama-Pacific Exposition, Sept. 1.—Oregon hens are still cutting a wide swath here. White Leghorns from Prof. James Dryden's flock at the Agricultural college are so far ahead of competing egg-layers from other states that the contest which ends November 15 is certain to prove them winners by a splendid margin. The champion Leghorn thus far are 172 eggs ahead of the best pen from any other state, and the second best pen is also filled with a flock from the Oregon Agricultural college. A Victoria, B. C., pen occupies third place in the contest, but another Oregon pen is coming along at such a rate within the past few days that there is every reason to believe Oregon will capture first, second and third places in this great contest involving hundreds of birds from many states and countries. Prof. Dryden is the man who produced the world's champion, 303 egg hen for Oregon, and is now demonstrating that Oregon methods and Oregon breeding stock will result in producing champion flocks even in such an abominable climate as that in the immediate vicinity of the Golden Gate.

The mining exhibit has been granted six more silver medals, these on marble, granite, coal, carving and a mining map by Director Fred R. Mellis. C. N. Ravlin, director of horticulture, is making a terrific row over failure to recognize Hood River vinegar. In some way this was passed up even without inspection or analysis as agreed upon. Ravlin and disinterested experts insist that Hood River vinegar is the finest product of the kind in the world, and if necessary the law will be invoked to make the exposition determine whether it is or is not that.

Mining Week, September 20 to 27.
During the week of September 20, "the days of old, the days of gold," will be reproduced at the exposition, with elaborate exercises for each day. It is said that the mining men from all parts of the world will be there. All miners and mining men, together with the would-be magnates, are promised an unusually entertaining week.
This will also be the beginning of Washington and Idaho state activities here. A "Zone of Plenty" day is to follow during the early part of October, a day in which the people of the seven northwest states will participate.

Pleased With Showing.
When Governor Withycombe was here with the Benson party he came to the Oregon building first, as a matter of course. After making the rounds of the building he expressed himself enthusiastically and left no doubt of his thorough confidence that the state has in its magnificent advertisement in its unique building and the display therein. He was pleased with the appearance of the displays, thought them adequate, and commended warmly on the very attractive appearance of the decorations and the holiday atmosphere of the place. It was suggested that he see the other Oregon exhibits, then make a comparison with the exhibits and state buildings in competition, and give his final impression. Governor Withycombe did this and then said: "I can only add emphasis to what I said this morning. I am immensely pleased with the Oregon showing throughout. It is a credit to the state and a credit enough today to make me very proud of Oregon at the exposition. The resources of the state are shown up splendidly, and I believe we will reap a splendid reward." His words were pleasing to those here concerned with Oregon's efforts to attract attention and doubtless they will prove a pleasant assurance to those in Oregon ever anxious that the state should be kept at the forefront. By-the-way, Governor Withycombe made a real hit when he came to the exposition as a private citizen and on Benson day sat in the shadow that Oregon's "most notable citizen" should have all the glory. This, with his readiness, geniality and apparent ability, is still the subject of pleasant comment among men of affairs, and there is a widespread impression here that Oregon has a governor as great as Oregon's showing at the P. P. I. E.

Arch-Bishop Christie, of Portland, was in the Oregon building Sunday. "I heard some Portlanders express a doubt about the Oregon building," said the bishop, "but I think he must have been sick. This is beautiful, beautiful, inside and out. I think it wonderful and did you ever see such lovely wood as that myrwood furniture?"
T. K. Churchill, born in Oregon in 1851, but away from the old home near Harrisburg since 1880, said, "This is a mighty fine showing. I have been living in Los Angeles a long time, and I have interests in Montana, and I am certain that either state can beat California on everything but climate. There is no place where they can grow more or better stuff on an acre than they can in Oregon, and this exhibit building is fine, mighty fine."

Eastern Oregon's gift of popcorn recently proved such a hit at the Oregon building that "Popcorn Day" is to be repeated by J. A. Lackey, director of the eastern Oregon exhibit. A large quantity of what is said to be as fine popcorn as experts here ever saw has just arrived from the empire east in September 25,000 sacks will be ready for the crowd. Eastern Oregon is trying to establish markets for its superior popcorn and is likely to accomplish it by this method.

Tillamook cheese is also to be given away, but this is to be a continuous performance. Each day hereafter samples of this superior product will be given to all comers by a demonstrator representing Parrott & Co., the San Francisco concern handling the Tillamook cheese.

Roseburg and Douglas county are figuring on an apple day at some early date. It is the plan to send a bevy of girls and several tons of apples and cut a wide swath. Douglas is one of the big counties that has no exhibit here, but it proposes to get into the game some way. It is a fact commented on here occasionally that there is considerable inquiry about Douglas county, and that a number have signified their determination to go there, some of them having investigated before.

The Willamette loganberry and peach are being demonstrated semi-occasionally and that both are in great favor is evidenced by the number of grocers now coming to book orders or to get information. In a two hour demonstration one day last week no less than 23 loganberry juicers were taken.

This juice is being demonstrated at the Emporium, the largest department store in San Francisco, and there is no question in the minds of any but that this development in Oregon is going to pay for the development of the loganberry possible to raise even in this prolific region.

F. M. Sherman has come from Lebanon to replace his exhibit in the palace of agriculture. He has an extensive exhibit designed to show what can be raised on a ten acre farm in the Willamette valley. This has attracted great attention, and with a complete new dress of the superb specimens from this year's crop the exhibit will be a winner for Oregon.

Exposition May Not Get Pendleton Round-Up Show
Pendleton, Ore., Sept. 1.—Although reported on what was believed to be good authority that the Pendleton Round-Up would be produced at the San Francisco exposition in October, it was learned today that such arrangement has not yet been made and no contract entered into.
There is much opposition to the arrangement here because of the fact that the Round-Up is a Pendleton institution, and although the horses, riders, stunts, and old stage coaches could be transported to the exposition, the wild west spirit which has made the show world famous would be lacking.
Local surroundings are necessary, it was said, to make the show a success.

WAR NEWS OF ONE YEAR AGO TODAY

Intention to move capital of Bordeaux officially announced in Paris. Fighting reported within 40 miles of city. Germans reported to have lost enormously.
Germans reported strongly fortifying Brussels. Berlin dispatch says siege of Antwerp will begin immediately.
Russia reports sweeping victory over Austrians in Prussian Poland. Lemberg evacuated by Austrians.
Russia claims that fall of Alenstein will not hamper advance into Germany. Berlin still believed to be objective.
Turkish ambassador in Washington admits mobilization of troops on both sides of Bosphorus, but denies that it is directed against Greece.
Germany justifies burning of Louvain on ground that German soldiers had been killed by civilians.

of marketable lumber it is said that the salvage would bring no more than the cost of removing the structure, so there is added reason for leaving the building stand as it is. It is a tremendously substantial building, could be made to serve splendid purpose for many years to come, and would prove an exposition landmark that thousands would find pleasure in viewing.

Like Oregon School Methods.

Oregonians will be glad to know that school methods now in vogue in both city and rural school throughout the state are counted in the forefront by educators throughout the country. During the time the National Education association was in session here, hundreds of the leading educators spent much of the time at the Oregon school exhibits in the Oregon building and place of education, were enthusiastic in praise of the work so effectively attempted and more than a few complete copies of the methods as exemplified in the exhibits. Several California superintendents signified their determination to institute the methods of standardization, and in three instances have already done so. S. H. Focht, of the U. S. department of rural education, had pictures taken of the work exemplified in the palace of education and will present the Oregon rural methods in a special bulletin soon to be sent broadcast throughout the nation. Several foreign commissioners have gone into Oregon methods exhaustively, and will adopt them in their native lands. The exhibit of the Portland school of trades, the public schools of that city and the manual training and art work of the high schools of Oregon, as shown in the Oregon building, has attracted many to the building, and the interest has been such that none can doubt the universal confidence that Oregon schools are doing an advanced work along right lines. This certainly ought to prove an encouragement to those directing the work, and to the people who are paying the taxes by which the work is made possible.

More Gifts for Public.

Eastern Oregon's gift of popcorn recently proved such a hit at the Oregon building that "Popcorn Day" is to be repeated by J. A. Lackey, director of the eastern Oregon exhibit. A large quantity of what is said to be as fine popcorn as experts here ever saw has just arrived from the empire east in September 25,000 sacks will be ready for the crowd. Eastern Oregon is trying to establish markets for its superior popcorn and is likely to accomplish it by this method.

Tillamook cheese is also to be given away, but this is to be a continuous performance. Each day hereafter samples of this superior product will be given to all comers by a demonstrator representing Parrott & Co., the San Francisco concern handling the Tillamook cheese.

Roseburg and Douglas county are figuring on an apple day at some early date. It is the plan to send a bevy of girls and several tons of apples and cut a wide swath. Douglas is one of the big counties that has no exhibit here, but it proposes to get into the game some way. It is a fact commented on here occasionally that there is considerable inquiry about Douglas county, and that a number have signified their determination to go there, some of them having investigated before.

The Willamette loganberry and peach are being demonstrated semi-occasionally and that both are in great favor is evidenced by the number of grocers now coming to book orders or to get information. In a two hour demonstration one day last week no less than 23 loganberry juicers were taken.

This juice is being demonstrated at the Emporium, the largest department store in San Francisco, and there is no question in the minds of any but that this development in Oregon is going to pay for the development of the loganberry possible to raise even in this prolific region.

Exposition May Not Get Pendleton Round-Up Show
Pendleton, Ore., Sept. 1.—Although reported on what was believed to be good authority that the Pendleton Round-Up would be produced at the San Francisco exposition in October, it was learned today that such arrangement has not yet been made and no contract entered into.

There is much opposition to the arrangement here because of the fact that the Round-Up is a Pendleton institution, and although the horses, riders, stunts, and old stage coaches could be transported to the exposition, the wild west spirit which has made the show world famous would be lacking.
Local surroundings are necessary, it was said, to make the show a success.

Oregon Hop Crop Not Believed Above 100,000 Bales Now

Portland, Ore., Sept. 1.—That the hop crop of Oregon will not go above 100,000 bales is now the opinion of some of the leading interests in the trade. First reports from fuggie yards indicate a light output.
While conditions are reported favorable for a normal output in the independence section, it is stated in reports to local dealers that the situation around Newberg is very bad. In fact, one of the samplers and buyers for a local firm, who is stationed in that district, made a request to the firm today to be sent to some other territory, stating that if he were furnished all the hops in that locality the enterprise would not pay the firm.
Around St. Paul the conditions are similar, according to the reports received this morning. In the Aurora, Butteville and Champco sections the yards present a "spotted" appearance, some of them showing normal production, while others are scarcely good enough to pick.

Reports from Washington are to the effect that the outlook is normal in the Yakima section and in western Washington districts with no vermin reported.

First reports of picking in California are to the effect that the production is somewhat less than expected, and it is now safe to say that the entire east production will be considerably below first estimates.

This, together with the fact that the English crop is not generally estimated above 250,000 hundredweight at the present time, would call for a lively market were it not for the constant spread of the prohibition movement and the general demoralization of the trade due to the war.

No business is showing in the local territory. Owing to the numerous reports that the outside trade have received regarding live and blight in this state, buyers are inclined to await samples of the crop before making firm offers.

A late New York mail advice says of the general situation:

Receipt for week Bales 430
Receipts since September 1 131,254
Exports to Europe for week 758
Exports from September 1 81,255
Imports from September 1 20,701
"The new season has not opened as yet, but we are getting some mail samples of the California crop, where picking has been in progress for more than a week. Dealers seem disposed to hold off until the situation is clearer. It has been a poor year for growers on account of the war and constant temperance agitation, and while it is expected that England will need some of our hops this year it is uncertain when she will begin buying. In the meantime we shall have a somewhat nominal position until the crop is pretty well harvested. The Sacramento samples are much better than last year, and it is expected that the quality will average good."
New York state the crop will be short; many of the yards have been neglected and these will give a light yield and irregular quality. A few of the yards were well cultivated, sprayed carefully, and these promise a good yield and fine quality. A loose, slipshod way of raising hops will not pay these days. Some of the late estimates of the English crop are raised slightly and now run from 250,000 to 270,000 cwt.

Opinions of Growers.

That the Oregon hop crop this year will not exceed 100,000 bales was the estimate made today by I. L. Patterson, owner of a large hop ranch near Bala, and formerly collector of customs for Oregon. It there are heavy rains during the picking season, Mr. Patterson said the yield would not exceed 75,000. No matter what conditions may be until the crop is harvested, he said there would be an unusually large percentage of inferior hops.

"Probably 75 per cent of the crop of Oregon is grown in Marion and Polk counties," continued Mr. Patterson. "Blight has been a serious factor to contend with in the two counties, but with favorable picking weather we should have a large quantity of good hops."

"It is difficult to make a prediction as to the prices that will be received. England, I am informed, has only about half the crop produced there last year. If shipping conditions are good, Oregon growers should get a fair price for their product. The yield in California is about the same as last year, which was large. Conditions are such that Oregon growers must insist upon clean picking, which will aid prices materially."

J. S. Cooper, who has inspected many of the yards in Marion and Polk counties, also estimated the yield in the state at not more than 100,000 bales. In summing up conditions, he said:

"In the Jefferson and Independence districts the hops are generally in good condition and clean. There are, however, several yards that will not produce enough hops to pay for the cost of growing. I think there are yards that will not be picked unless there have been underestimates. The hot weather has aided several yards, but others were too far gone to have any effect. Lice and honey dew have wrought havoc in several yards. Spraying the hops in the bottom lands, where spraying is necessary every year, but in the uplands, where there has been little spraying heretofore, the lice have caused great damage. The honey dew this year has been worse than for many years."
