Everybody Slumped On Forrest Hills Courts

Forrest Hills, L. I., Sept. 2.—Although both champions and near champions slumped in their play yesterday, hard matches were predicted for today in the fourth round of the national tennis championship. So far the favorites have come through without a break, but as the play narrows down, it is believed some upsets are to be expected.

R. Norris Williams, title holder; Karl Behr, F. B. Alexander and T. R. Pell, of the eastern cracks are still in the running while Maurice McLoughlin, William Johnston and C. J. Griffith, of the California contingent, are standing for the west.

Three fast matches were looked forward to today with the coast players as the center of interest. McLoughlin had Alexander on his hands, Johnston clashed with Behr and Griffith was matched with B. F. Law.

T. R. Pell defeated C. M. Bull, of the Crescent A. C., 6-1, 6-2, 6-3.

Gardner and Marston played each other to a standstill during the morning round, which ended all square. Anderson ended the first 18 holes 7 up on Sherman.

O. A. C. Football Teams Gather For Practice

Oregon Agricultural College, Corvallis, Sept. 3.—With the opening of the college year at O. A. C. but two weeks distant the athletic coaches have gathered an advance squad of 30 football and near football men and left for Nye Beach, where an attempt will be made to season the men for the work of the coming year. The task confronting the coaches this year is not easy, since more than half of the thirteen letter men of last season's crack team have not reported. Not all of these are able to take the preliminary training and only four of the regulars are in the preseason line-up.

The situation is improved somewhat by the presence of several substitute and second string men, whose playing ability will stiffen the starting line-up of the new comers. Of course no line has yet been taken on the strength of the new men and altogether the prospect is not so encouraging as might be wished by the Orange supporters in view of O. A. C.'s coming tussles with eastern football teams. Last season's work at the beach proved its worth in unweaving star performers as well as in conditioning the men and things may wear a different look when the squad returns to the College.

The team will be quartered at the Cliff House on Nye Beach. The same training grounds used last year will be used this season. In the work of teaching football and getting the men in form, Dr. Stewart will be assisted by Everett May and R. M. Pavey. The entire trip will occupy just eighteen days.

Watching the Scoreboard

Graver Cleveland Alexander outpitched Christy Mathewson and Philadelphia whitewashed the Giants, 2-0.

White Sox blew up when Detroit Tigers began to hit, and the score was 8-0. Detroit except the platter clean. Seals hit the ball and again defeated Beavers, 5 to 3. That's three in a row. Vernon and Angels split even, but the scraps made such rough finishes in both contests. Doc White almost needed restoratives.

Salt Lake took an orderly ball game from Oakland, 4 to 3. It was one of the few chemically pure affairs seen on the coast this season.

Maurice McLoughlin Showing Improvement

Forrest Hills, L. I., Sept. 3.—Maurice McLoughlin's game is rapidly improving as the matches in the national tennis championship progress.

The California comet was in prime from today and disposed of P. P. Alexander in what was expected to be a hard fought match. The former champion has been experimenting extensively with a back court game, but came through today in top form, beating Alexander 6-3, 6-2, 7-6, 6-3.

Only in the third set did McLoughlin show up in the fast game he carried to Alexander. The former champion then let down perceptibly, however, and took but one game of the set. He came back strong in the fourth set.

R. Norris Williams, the title holder, also displayed fine form in his match today. The champion had no trouble with J. B. Adone, Texas state champion, who was utterly unable to solve Williams' smashes and place shots. Williams won in straight sets, 6-3, 6-1, 6-0.

A second coast player came through victorious when C. J. Griffin, of San Francisco, again won his match. Griffin defeated B. C. Law in straight sets 6-2, 6-4, 6-2.

GOOD ROAD BOOSTERS TO ATTEND CONGRESS AT OAKLAND SEPT. 13

Pan-American Road Congress Draws Delegates From All Over Nation

New York, Sept. 4.—Definite advancement has been made annually in road construction, maintenance and administration since New Jersey enacted the first modern State Aid Road Law in 1891. For the first dozen years the progress was slow; but during the past few years, the movement has been going forward at a constantly increasing pace, and with a momentum which grows stronger and faster as it proceeds, until it now forms one of the irresistible factors of human progress.

This progress has been marked from year to year by the annual conventions of the American Road Builders' Association and the American Highway Association. Not only in the mileage of roads improved has the advancement been made. Better types of roads and streets have been developed; better methods of construction; the more intelligent employment of materials; more economical administration; more advantageous systems of financing, all have contributed to the widening of the subject of highway improvement until 1915 finds a greater accomplishment than any previous year since the movement began.

Practically every state in the Union and every province and country in all America is pushing the construction of highways to the limit of means available. While every commonwealth has its own methods of procedure, the objects sought are in every case the same. The lowering of the cost of marketing products and securing supplies; the opening of channels of traffic to permit the development of new territory; and the enhancement of the values of property; better sociological conditions; all go to make up the sum of advantages which follow the improvement of the highways.

Hence the Pan-American Road Congress, which will assemble at Oakland, California, September 13-17. A large number of delegates has already been appointed, so that a full attendance is assured. Experts will present and discuss the latest and most approved methods; and those who are seekers for information will be able to find it, on any phase of the highway subject in which he is most interested.

The men do not wish to go, but orders are imperative from their government, and for the sake of the families they have left behind, it is probable that many will return and shoulder arms for the allies.

Texas cowboys with dead Mexicans tied to their lassoos; house used as fort by ranchers.

In an encounter at Las Nozias, Texas, between American ranchers and Mexican bandits who outnumbered the former four to one, the Americans took refuge in the ranch house shown in the lower picture and held the Mexicans at bay until help arrived in sufficient numbers to drive the bandits off. After the battle, which lasted two hours, during which there was a steady fire on each side, five of the Mexican bandits were found dead on the battlefield. The upper photo shows the cowboys with some of the dead Mexicans tied to their lassoos, just before they hauled them to their burial place.
