The "Jockey Cap" is the class with the college and high school boys. Price 50c.

SALEM WOOLEN MILLS STORE

Great Big Fine line of Boys' Knicker Suits, and Hats.

Former President Taft Is Bitterly Denounced By Governor Johnson

Los Angeles, Cal., Sept. 6.—Ex-President W. H. Taft was bitterly denounced today in a speech delivered by Governor Hiram Johnson at the Labor Day picnic, Selig Zoo.

The governor said in part: "Recently ex-President Taft has been in constant volcanic verbal eruption in the southern part of the state. At the commercial clubs, bar associations, small gatherings and large, and even at the University of California itself, he has expressed his disapproval of reforms and reformers, and particularly at what has transpired in the state of California."

"Mr. Taft beams and smiles and thrusts and leaves no room to doubt his disapproval of the measures that have been adopted in California of recent years and of his dis-esteem of those who have adopted them."

"Mr. Taft says we have an excess of reform and that the leaders of the great reform movement have built up a political machine, that the state railroad commission, frightened away new capital, that we must not gag the originality, genius and enterprise of American business men and that we have done this by corporate control. With a calm superiority he points out our faults and the wrongs we have committed in most general terms. But his benevolence in behalf of California goes no further than generally to denounce us and the denunciation rests in the complacency and assumed superiority of his critic."

"Mr. Taft insists that non-partisanship in the state will destroy democracy. From such a champion of democracy as Mr. Taft, this fulmination overwhelms us as with an awful blight."

"Mr. Taft, in his sneers at the accomplishment of the state of California, represents conservatism just as it has been known for centuries. The two parties which divide the state, the party of Conservation and that of innovation, are very old, and have disputed the possession of the world ever since it was made. The battle of patrician and plebeian of parent-state and colony of old usage and accommodation to new facts, of the rich and poor, reappears in all countries and times."

Two Persons Killed In Auto-Train Collision

Portland, Ore., Sept. 6.—Two persons were killed near Fairview today when an auto whose engine had gone "dead" at a crossing was struck by a special O. W. R. & N. train and demolished.

The dead are: Charles W. Ray, postmaster at Free-water, Ore. Louise Williams, niece of Ray, aged 12.

Two other occupants of the machine, Mrs. Ray and young son, escaped injury. Miss Williams died several hours after the accident in a Portland sanitarium.

Sensational Play Marks Opening Golf Match

Del Monte, Cal., Sept. 6.—Sensational golf marked the opening round of match play for the California state championship here today when three matches went into extra holes before they were decided and Heinrich Schmidt was forced to make a 70 to defeat J. Jevne, of Los Angeles.

The Schmidt-Jevne match was the feature of the contest of the day. Schmidt played a remarkable game. His score of 70 is two below par. E. S. Armstrong, R. Y. Haynie, Jack Neville and Harry K. B. Davis, other favorites in the tournament, also won their matches, but without the stiff fight which Schmidt met.

Nine Hundred Carmen Strike In Albany, N. Y.

Albany, N. Y., Sept. 6.—The Empire state capital took its transportation afoot, in jitneys, or friendly autos today when 900 car men went on strike, completely tying up the city system. The men claimed unfair treatment. Sympathetic strikes in Schenectady and Troy, large nearby cities, are feared.

The crowds of early morning men and women workers took the new mode of transportation good naturedly for the most part, though inflicted considerable hardship on the residents of outlying districts.

Baby Fell Into Pot of Boiling Beans—Dies

Sacramento, Cal., Sept. 6.—Little Joe Deans, the twenty months old son of Mr. and Mrs. August Deans, died today as the result of burns sustained when the baby fell into a pot of boiling beans on a camp fire at the Gibbons hop ranch near Perkins yesterday.

Will Decide Championship of Tennis Courts Tomorrow

Forrest Hills, L. I., Sept. 6.—Maurice E. McLoughlin and W. M. Johnston, of San Francisco, will meet tomorrow in the final matches for the national tennis championship.

GRACE DOLLAR INJURED

Marshfield, Ore., Sept. 6.—A survey of the steamer Grace Dollar is being made in port here today to determine the extent of the damage sustained by the vessel when she ran ashore at the south jetty yesterday. The steamer was making its first outward bound trip from the port of Siuslaw with a cargo of lumber. The Dollar was floundered by means of a line. She succeeded in running to the jetty on the boat's own power. The Grace Dollar is a steel vessel built at Long Beach in 1913.

STEAMER TORPEDOED

London, Sept. 6.—The British steamer Mimosa has been torpedoed and sunk by a submarine, the admiralty announced today. The crew was saved.

SALEM MAN RAISES BANNER FLAX CROP OF 3 3-4 TONS PER ACRE

L. O. Herrold's Tract Near Parkersville Turns Out Largest Yield of Year

The banner flax crop of the state for this year was raised by L. O. Herrold of 351 North Summer street, who has a farm near Parkersville in the Lake Labash, Oregon. Mr. Herrold had 4 1-2 acres of flax which yielded 3 3-4 tons to the acre of fine quality flax with good straw and well filled with seed.

This is the largest yield reported at the pen where over 500 tons of flax are now stored and 100 tons more beginning to arrive from the fields at Gaston. Mr. Herrold's flax was raised on beverdam land from the seed secured by the state and supplied to the growers at the rate of \$1.50 per bushel. The straw brings \$15 per ton delivered at the pen and the convicts pull the flax and shock it in the fields.

So successful has the flax crop been in this section of the state this year that the farmers now propose to put in a thousand acres next year which will insure the flax plant at the penitentiary running the greater part of the year at full capacity. The state board of control proposes to allow the same terms next year that were given to the growers this year, that is, the state to furnish the seed at \$1.50 per bushel to be paid for after the crop is harvested, and to pay the growers \$15 per ton for the straw delivered at the pen and the convicts to pull the flax and shock it in the fields.

The working crew at the pen began this morning to install the machinery now at the pen for the thrashing of the flax as the old stove works inside the walls is crammed to the roof with this year's crop. Next year the flax will be thrashed as it is received at the pen and it will not be necessary to provide so much storage room.

Many Improvements On School Buildings During Past Summer

During the past summer, improvements of various kinds have been going on in the public school buildings. All of these improvements have been in the way of absolutely necessary repairs, or in work that had to be done from an economical standpoint.

In the Lincoln, Washington and Grant schools, where the Junior High schools will be established, rooms in the basements have been partitioned off and equipped for the domestic science and domestic art classes. Instead of going to the expense of building an annex to each of these buildings, space was partitioned off in the basements for this work.

At New Park and Highland, concrete walks have been built from the buildings to the edge of the property line. At the High school, a new bicycle shed has been erected to accommodate about 50 wheels. This was necessary as last year quite a number of the bicycles had to stand out in the rain and all kinds of weather. New spring fountains have also been placed in the High school to avoid the waste of water. Parts of the domestic science equipment of the High school have been re-built and improved and will be placed in the Washington school. These have been replaced in the High school by equipment especially adapted for the advance work.

In the Richmond and Englewood school buildings much of the plastering has been replaced, where necessary, with Keene's cement. Considerable work of this kind has also been done in the Highland school. Park school will have new concrete walks and other minor improvements. The Garfield building has been kept in such good condition that no work was necessary in the way of repairs.

KILLED BY ACCIDENT

Medford, Ore., Sept. 6.—Harry Fry, keeper of the city water intake at Fair Lake, was killed by a shot from his own gun according to the verdict of the coroner's jury today. It had been reported Fry was shot in mistake for a deer, but the evidence established the fact that only one shot was heard. Fry had fallen over a bush apparently causing the discharge. He dragged himself half a mile before he died.

BOALS GETS LEAVE

Dallas, Ore., Sept. 6.—Ray Boals, of this city, member of the faculty of the State Agricultural college at Corvallis, where he is an instructor in the electrical engineering department, has been granted a year's leave of absence and will leave Monday for Pittsburgh, Pa., where he will take a post-graduate course in Carnegie Institute.

PASSENGERS AT QUEENSTOWN

Queenstown, Sept. 6.—Thirteen passengers of the liner Hesperian are missing, according to a revised list of the Allan line officers here this afternoon. This list shows one first class, six second class and six steerage passengers unaccounted for.

Baltimore Star: A New York hotel was thrown into a panic when a guest's pot age started a tour of investigation. The rest of 'em probably thought it was the ghost of an ancestor.

AMERICAN BANKERS CONVENE IN SEATTLE

Ex-President Taft Will Address National Convention Next Thursday

Seattle, Wash., Sept. 6.—Beginning with a series of sombre committee meetings at the Washington hotel, the forty-second annual convention of the American Bankers' association opened here early today. It will continue all week.

Ex-President Taft will arrive here Wednesday and will address the convention on Thursday. His subject will be "Economic and Political Summary of the Generation Just Closing." During the afternoon, Thursday, Professor Taft will play golf as one of the entrants in the annual cup contest of the Seattle Golf club.

James A. Lynch, of San Francisco, now vice-president of the association, is considered the probable successful candidate for the presidency.

Tonight the bankers will be given free rein at the hippodrome dance pavilion. It will be "Bohemian night. Some of the best vocalists in the northwest will sing.

The executive council was in session at 2:30 p. m., to adjourn at 5 p. m. after naming the candidates for the official executive board, whose election and installation will take place tomorrow.

Some Vital Statistics of Marion County

According to the quarterly bulletin, for the months of April, May and June, recently issued by the Oregon State Board of Health, the births in Marion county were forty-two in April, forty-two in May and twenty-eight in June. For these same three months, the deaths in the county were forty-eight in April, thirty-five in May and fourteen in June. As far as measles are concerned, the county had only three cases in April, three in May, but in June there seems to have been almost an epidemic, as twenty-five cases were reported. In no case, however, has measles proved fatal. While but one case of scarlet fever was reported in April and the same in June, yet in May, seven cases were reported to the state board of health. There was no typhoid fever reported during any of the three months, and only two cases of diphtheria in May and two in June. But two cases of smallpox were reported, one in April and one in May.

While June is generally regarded as the month for brides, such was not the case in Marion county. In fact, marriages fell off considerably for that month. The April marriages were 20, then 29 in May, but in June, only eight. For some reason, with the exception of Multnomah county, there were more marriages in Linn county during June than in any county in the state, as the Linn county records show that 32 marriage licenses were issued. Another Marion county had more marriages than any county during June, as the whole state outside of Portland had but seventeen cases, while Salem had 25.

Freewater Man Killed When Train Strikes Auto

Troutdale, Ore., Sept. 6.—C. W. Ray, of Freewater, was killed and a son and daughter slightly injured today when a special train of the Portland Ad club en route to the Columbia highway dedication ceremonies, struck the automobile driven by Ray at a crossing near Fairview.

The engine of the automobile "died" on the railroad tracks and before Ray could start it again the locomotive crashed into the stationary machine. The place where the accident occurred is on a curve and the automobile was not seen by the engine crew until too late to stop. The machine was thrown 150 feet and was completely wrecked.

FATALLY INJURED IN FLY WHEEL

Pendleton, Ore., Sept. 6.—Fred Hill, a farmer, is expected to die as a result of injuries he received when his clothing caught in the fly wheel of a gasoline engine yesterday. His back was broken, his shoulder fractured and his head cut open, besides many other injuries. Hill was rescued by his wife who heard his screams and stopped the engine.

OREGON

Honolulu, Sept. 6.—Investigation today into the damages sustained by the P-1, P-2, P-3, the three remaining submarines of the "P" type, which were rammed by the United States steamer Supply, show that extensive repairs will have to be made on all of them.

FINAL APPEARANCE TODAY

THE CHRISTIAN

Hall Caine's Great Novel. Don't miss this great masterpiece—it will make you a better man or woman.

Also

Charlie Chaplin

In

A Woman

Its Charlie allright but Charlie minus the mustache is a different appearing Charlie. See Charlie as he really is.

"THE CHRISTIAN," A STRONG PLAY

Never were two actors better chosen to depict their main parts in a drama than Earle Williams and Edith Storey in "The Christian." Earle Williams has the strong face of character and sympathy that would win his way in a similar field in real life. Edith Storey does not appeal to one at first but as the play progresses, she grows so that when the climax is reached, she has won a place in your heart, and her influence remains.

"The Christian" is perhaps the strongest play ever seen in Salem. It

EDITH STOREY IN "THE CHRISTIAN"

is a wonderful production, absolutely void of sensationalism, entertaining, but above all, a play with a great lesson, and yet not a lesson that is obtrusive. The characters are not with in every day life, they are not a bit different, not a whit less sincere, or more hypocritical, and false. This is the real production of the play, and the appreciation of Hall Caine's genius is increased many fold in the minds of those who see this play although they have not read the book.

There was much skepticism last night as to whether the real Charlie Chaplin appeared in his late release, "A Woman," which is now showing at the Oregon. Our Charles, with his shoes and mustache, is so different from Naturo's Charlie "when he is without these weapons of his trade, that it is hard to believe it is he when he appears on the screen as a woman. And he is really so attractive when made up as a woman minus his shoes and mustache that if it were not for certain habits peculiar to Charlie alone, one could not believe his eyes. Never before has the opportunity presented itself to see the natural Charlie as he really is, so those who missed the comedy at the Oregon last night shouldn't fail to see it tonight.

HUBBARD'S SCHOOL BUILDING

Plans and specifications have been completed by Brown & Forbes, architects, Mohawk Bldg., and bids are now being received for the erection of the proposed school building to be built at Hubbard, Ore.

Plans provide for a two story structure and basement of hollow tile walls with a face brick exterior. Together with other rooms needed to make a modern school building for the amount available; bonds in the sum of \$15,000 were voted for the building. It will be 91x92 feet in dimensions.

Bids for a general contract, to include the fan system of heat will be received.—Portland Building Record.

PAINTED HIGHWAY RED

Seattle, Wash., Sept. 6.—A. L. Meigs, of Minneapolis, and wife and Karl E. Pfahler, in Seattle after literally painting the country red from their home city to the coast. With red paint they have marked the "red trail" or national park highway so it will be perfectly plain to automobile tourists the entire distance.

SUBMARINES REPAIRS

Honolulu, Sept. 6.—Investigation today into the damages sustained by the P-1, P-2, P-3, the three remaining submarines of the "P" type, which were rammed by the United States steamer Supply, show that extensive repairs will have to be made on all of them.

IS YOUR STOMACH CLOGGED WITH WASTE?

Daniel J. Fry Guarantees to Return the Money If Mi-o-na Does Not Relieve You.

"It's a pleasure to sell a medicine when my customers come in afterward and tell me how much good it has done them," said Daniel J. Fry, the popular druggist to a Journal man, "and that is why I like to sell and recommend Mi-o-na, the dyspepsia remedy. The distribution of samples that I made created so much talk and so large a proportion of those who received a sample have bought a box of Mi-o-na that my clerks have been busy selling the medicine ever since. I have so much faith in this article that I am going to guarantee it in the future, and will return the money to any purchaser of Mi-o-na whom it does not help. That may seem rash but my customers have said so many good words in its favor that I do not expect to have many packages returned.

"Anyone who has dyspepsia, whose food does not digest well, and who has to take thought as to what he can eat, and when, can leave 50 cents deposited at my store and take home a box of Mi-o-na and if the remedy does not regulate his digestion and help his dyspepsia he can withdraw his money. I don't know but what we would be willing to pay him interest."

This shows great faith in the merit of Mi-o-na. It is really a most unusual medicine and the rapid increase of sales since Daniel J. Fry introduced it in Salem shows that it does all that it is claimed to do—relieves dyspepsia, regulates digestion and enables those who use it to eat just what they want with no fear of trouble after.

Chicago Herald: A health expert advises people to smile. It might be well for some to consult their dentist first.

WHY IT SUCCEEDS

Because It's For One Thing Only and Salem People Appreciate This. Nothing can be good for everything. Doing one thing well brings success. Doan's Kidney Pills are for one thing only.

For weak or disordered kidneys. Here is Salem evidence to prove their worth. John I. Conger, prop. printing shop, 845 N. 17th St., Salem, says: "My back got weak and sore and my kidneys did not act as they should. At times I could hardly straighten. Knowing about Doan's Kidney Pills, I used them and they gave me relief from the first. It took Doan's Kidney Pills only a short time to rid me of kidney trouble."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Conger had. Foster-Milburn Co., Props., Buffalo, N. Y.
