M'FARLAND LIVES UP TO REPUTATION IN GO WITH MIKE GIBBONS

Both Boxers Defensively Clever and Make Each Other Look Foolish

By George E. Holmes.
Ringside, Brighton Beach, N. Y., Sept. 12.—Packer McFarland of Chicago, heralded as the world's cleverest boxer, lived up to that reputation here last night by building up a victory in the last two rounds of his 10-round bout with Mike Gibbons of St. Paul. Up to the eighth round the battle was as even as the most neutral spectator could have wished.

McFarland was going strong at the finish, while Gibbons was plainly tired from his unceasing efforts to penetrate the marvelous defense of the Chicago man.

Both boxers took turns in forcing the fighting up to the eighth round, and after vainly endeavoring to penetrate each other's defense would fall back into their respective shells.

Chicagoan Cool Fighter.
McFarland fought a cool battle throughout, pulling the stun that Jack Johnson made famous—that of smiling over his opponent's shoulder at his friends around the ring.

Gibbons never smiled during the entire battle. With blazing eyes and teeth bared he strove desperately but fruitfully to put over a knockout. But each time he was met with a seeming flock of gloms. McFarland's shade was not big. In fact, he didn't have any till the eighth round. Never was there an even bout up to that session. But the last two rounds were so clearly the stockyards battler's that they gave to him the slight shade there was.

Both boxers were so defensively clever or that at times each made the other look foolish in his efforts to land.

From the time the gates were opened at 5 o'clock there was a steady stream of jostling, perspiring men pushing their way into the huge circle.

30,000 Seats Are Occupied.

Folly thirty thousand of the fifty-odd thousand seats were occupied when the first preliminary went on at 8:30. And still there seemed no end to the jostling

stream. The dollar seats, high up on the brim of the wooden track, were jammed by 7 o'clock, and before 9 o'clock the ring-side boxes were comfortably filled. Scattered here and there among the boxes were numerous fashionably-gowned women. A little disorder gave the horde of policemen a busy 10 minutes when the lights among the dollar seats went out and their occupants immediately clambered out among the boxes. They were chased back—those the police could reach.

A 32-piece band played the huge throng into its seats. Three hundred ushers, resplendent in new fashions, gave an air of class to the affair. They bowed the box seat-holders into their places with Chesterfieldian grace, giving the gallery good food for much caustic comment.

Alie Mack, 126, knocked out Bobby Gare, 122, in the third round of their scheduled six round preliminary, and the crowd yelled its approval. The ten round semi-windup, was between Young Munday and Frankie Daly, featherers.

Honors were about evenly divided at the end of 10 awkward rounds. The crowd began yelling for McFarland and Gibbons.

By the end of the first preliminary every seat in the huge enclosure was filled and the aisles were jammed to the point of suffocation.

A crowd estimated at 60,000 saw the battle.

Watching the Scoreboard

Walks followed by swats won for the Cubs over the Braves.

The Giants made seventeen runs off Cincinnati in the first game and got whitewashed in the second when Tony was dishing them up.

The Beas and Vernon split Sunday's over-size bill and also split the series fifty-fifty.

Hitt went into the first game in the eighth with the bases full and none out, and retired the side scoreless.

Five home runs at Vernon in the morning with the bases full and Angels clouting heavily. Seats won, 8-4. But the Angels blanked them in the afternoon.

The Oaks whipped the Beavers twice, evening up the series. Partland's score on juicy errors in the afternoon made them eligible for the suicide club.

Higginbotham let Oakland bunch the biggies in the auto-mardian game and lost.

Negotiating For Loan Greatest In World's History

New York, Sept. 13.—With the arrival of J. J. Hill, railroad magnate, negotiations were started today for the world's greatest loan—estimated from one-half billion dollars, desired by representatives of the European allies.

Hill is reported to be strongly in favor of the loan, maintaining that if it is not made, America may find her bumper crops a failure, inasmuch as a Europe without money could purchase in the great American market.

Moreover, it was said, he considers that South America will step into the breach if America does not, and that she will furnish not only a loan, but, in addition, will be a source of much of the allies supplies, aside from munitions.

Establishment of the credit the allied commission desires, he said, is of far more importance to America than to England. If America's wheat is to feed Europe's millions, there must be a stable rate of exchange, he said, and this can be assured only by the loan.

The United States will have 735,000,000 bushels of wheat to sell abroad.

The nation must find a purchaser. Moreover, there will be much more wheat harvested on the entire globe for use in Europe than Europe will take. Hence, to dispose of America's wheat, Hill said, the loan is absolutely essential, for otherwise Europe will go into other markets.

Hill felt, however, that the loan must not be so limited as to provide only a credit for war munitions purchase, for in such circumstances, western banks would not take an interest, or at least, not sufficient interest in it.

The form of the proposed loan is unknown, but it was suggested in the street today that a syndicate, composed of bankers from all parts of the country will be formed to underwrite it and offer the public notes at five per cent, secured by France, England and Russia.

"We want to keep this great trade we have built up during the war," said a prominent banker today. "The more the allies can borrow here, the more they will buy here."

NEW MOTORCYCLE RECORD

Chicago, Sept. 13.—Carl Godwy holds a new motorcycle record today as a result of his piloting an Excelsior to a win in the 300 mile event at Speedway park. His time was 2:29:51 2/5. More than 15 1/2 minutes better than the record set at Tacoma less than a month ago by Earl Armstrong.

Drunken Austrians Indulge In Riot

(Continued from Page One.)

countrymen by Policeman Long in last night's melee.

The rioting at Linnton was a result of insults offered American women by a mob of drunk-crazed Austrians. A citizen whose name was not learned summoned Patrolman Long and the two attempted to disperse the crowd of foreigners. A fight immediately followed, in which the officer's companion was beaten unconscious. He was rescued by Long after a desperate struggle.

Aid was then summoned from Portland. Five plainclothes men who were rushed to the suburbs in an automobile were routed by the rioters. Another automobile scene and the mob finally was dispersed, but not until Patrolman Long had been compelled to use his revolver to protect a brother officer from being seriously injured by a cudgel in the hands of one of the rioters. Joe Rose was the victim of the policeman's bullet. He was shot through the stomach, and may die.

Captain Barty fell into an excavation while pursuing several fleeing men and sustained a broken shoulder and several fractured ribs. Detective Hammerley fractured his right wrist in swinging a blow to the head of an Austrian rioter.

Alleged Arson Trust Is Being Investigated

St. Louis, Mo., Sept. 13.—The grand jury started today an investigation into an alleged "arson trust," which it is claimed has been operating here for six years, during which time it defrauded insurance companies out of at least \$2,500,000.

Julius Bensch, a wealthy broker, has given bond to answer any charge the police may decide to make against him.

Attorney Herbert O. Baker, prominent in social life, was arrested Saturday following capture of four alleged "torches" who were carting away a wagon load of inflammable material to the Bellows Manufacturing company's yards.

Because of the prominence of the men alleged to be implicated, and because of the gigantic scale on which the operations were said to be carried out the city is stirred.
