THE MARKETS

The market quotations show no change from yesterday's quotations. There is the same slow demand for wheat, and those who have oats are holding for a better price. Reports from the Chicago and Portland markets give no information as to the future trend of the market. The mere fact remains that the majority of farmers believe that 70 cents for wheat and 32 cents for oats is too low a price and that eventually the market will take an upward turn.

The scarcity of eggs is boosting the price, and the same may be said of hens. The Salem Poultry and Egg Circle is doing more business than ever, and on top of this, the mulling season is on and eggs are scarce. Butter prices are holding at the advance established early in the week.

Steers sold as high as 6.25 and bulls at 4.50 to 5.00; calves went around 7.50 to 8.00. Trading in the hog division was not very rapid. Time-Bomb Concealed In Trunk Cause Fire On Liner Santa Anna

New York, Sept. 14.—That a time bomb concealed in a trunk on the Fabre liner Santa Anna, caused fire aboard her in midocean which imperiled the lives of more than 1,800 passengers was one theory officials here held today. This was strengthened by the fact that the fire, it is learned, started Sunday night in baggage in the steerage, and raged seven hours before being controlled. Captain Pavey had feared the vessel was to be the victim of German spies, because of her Italian, reservist passengers, and had delayed his sailing a day, while a thorough search was made of the entire ship. This failed to reveal anything, however. While first reports indicated the Santa Anna carried no inflammables nor explosives, indications today were that she was heavily laden with cotton seed oil, lubricating oil and paraffin wax. A complete report from Captain Pavey is expected when he reaches the Azores.

German Money Used To Cause Longshoremen To Engage In Strike

San Francisco, Sept. 14.—Vice President John Kean, of the Longshoremen's union, indicated today his belief that German money and influence had sought to bring about a gigantic dock strike to tie up Atlantic and Pacific shipping. Apropos of the claim of President Gompers of the American Federation of Labor that he himself knew of a gigantic plot with thousands of dollars of German money behind it, Kean said: "The men were given promise of large strike benefits, and these promises unquestionably came through German agents." He professed to feel certain that German agents tried to prevent signing of the new agreement at Seattle, and he quoted President O'Connor of the National union, Buffalo, N. Y., as saying that he had received a direct offer from German agents if he could aid in calling a longshoremen's strike.

American Farm Life On Decline, Say Speakers

Stockton, Cal., Sept. 14.—There is something radically wrong with farm life in America. Statistics prove that American farm life has been on the decline for fifteen years, that the population of already overcrowded cities has increased ten times as rapidly as the population of farming districts, that food consumption has increased eleven times as rapidly as food production and that the average profits of the farmer differ but little from the average wages paid for ordinary farm labor. These are assertions made by noted speakers at the twenty-first convention of the International Irrigation congress in session here. Today the delegates to the convention are endeavoring to discover the causes of the situation which speakers have told the congress means a crisis in the affairs of irrigation districts. The delegates are today touring the northern and southern San Joaquin, Calhale, Modesto and Tullock irrigation districts personally investigating conditions in field and on farm. Many of the delegates have gone to the Goodwin dam, above Knights Ferry today to view the head waters of the Okadale river in the head waters of the Okadale river in the head waters of the Okadale river. GROCCERS FIGHT MARKET. Portland, Or., Sept. 15.—The Retail Grocers' association today announced that action would be immediately started to obtain a restraining injunction against the operation of a public market in this city. Robert G. Duncan, secretary of the association said that land owners, insurance men and peddlers would provide the greater part of the funds needed. Duncan estimated the grocers of the city lose \$140,000 a month as the result of the operation of the public market. Others predicted that if the market was permitted to continue it would soon become a place for housing several hundred small Japanese grocers, as was alleged to be the case at Seattle.
