## HEAVYWEIGHTS MAY MEET BEFORE LONG

### Jess Willard's Manager Asserts That the Champion Is Ready to Fight

By George R. Holmes.  
(United Press Staff Correspondent.)  
New York, Sept. 21.—A heavyweight championship battle is in the offing. The recent assertion of Tom Jones, manager of Jess Willard that his charge was ready to meet any heavy in the world, providing a sufficiently large purse, and a suitable place for the battle, could be arranged, was the first feeling. The second was the matching of Frank Moran, the Pittsburgh heavy, who recently returned from Paris, and Jim Coffey, the Irish mastodon, to do battle for ten rounds, at the Garden on October 19.

There isn't a whole lot of question any more that these two men are the most eligible to meet the big Kachan, Coffey, because of his size, gets a bid, and Moran has to be considered because he once gave Johnson a tough fight and because he is right now in his prime. Whether either of the men are capable of making things interesting for Willard is a matter that has as many sides as the who-started-the-war whence.

Moran is cleverer with his two fists than Willard, a fact generally admitted, but so was Jack Johnson. Moran is handicapped by a comparatively short stature—at least compared with the Giant Willard, and also he is out-weighted by about 25 pounds, a monumental handicap in a long fight. Moran's left hand is a powerful weapon, and he is particularly weak at the bat and in the clinch. He is a fighter, but he is not a champion, was considered one of the best in the division a few years ago, and Wells is no dwarf. Willard adherents claim that Jess would hold Moran off with his left arm and kill him with his right, which is hoisted at by Moran supporters. One thing certain, however, Moran would have to fight better than he ever fought in his life to whip the champion.

Coffey's size is his chief claim to fame. There, at least, he would be Willard's equal, or nearly so. And the big Irishman has improved all around in the last year.

The match at the Garden between the pair should be a bird. Each has something to fight for—a chance at the title if he wins, and that should be incentive enough to make "a battle their hands off." Coffey's size is offset somewhat by Moran's cleverness, so there would be any great advantage either way.

Mike Gibbons drew a laugh from the crowd watching him train for his bout with McFarland at Brighton. A friend of Mike's watching him duck the swings of Sailor Burke, exclaimed: "Mike, you're a wonder! You seem to get away from those haymakers by just throwing your head to one side and stopping the blow with your glove."

"Yes," drawled Mike, as he ducked under one of Burke's wild swings, "that would nearly have killed him, and I've stopped a lot of them things with my face, too."

## PORTLAND DEFEATS SEATTLE

Seattle, Wash., Sept. 21.—There is no joy in Seattle tonight and the fans are wearing crepe on their shirt sleeves. They are wiping their eyes with the pennant.

Portland's Coast League fifth-place came up and gave the Seattle champions of the Northwestern League a drubbing that will be remembered as long as the totom poles stand guard over Pioneer Square.

Portland greeted Charley Schmutz with a baptism of base hits and drove him off the mound in less than one inning, and four runs off Charley in as many minutes helped the Coast League team to a 7 to 3 victory over Seattle.

Chicago Herald: Germany knows how to make war, but to judge from her unofficial peace proposals, she doesn't know much about making peace.

## PHILLIES WILL FACE RED SOX OF BOSTON

### Practically Certain Now That Opponents In World's Series Will Be Present Leaders

By George R. Holmes.  
(United Press Staff Correspondent.)  
New York, Sept. 21.—The Red Sox and the Phillies will face each other in the world's series, barring miracle. Yesterday's results assured this, and about squeezed the last drop of pennant hopes from the other contenders.

These teams are in a position to lose five games, while the others in the race win all their games, and yet the Red Sox and Phillies would still keep the honor of battling each other for the championship.

Wood, Leonard, Ruth, Shore and Foster are pitching 700 per cent. Against them is pitted Grover Alexander.

The Red Sox outfield is incomparable. Speaker, Hooper and Lewis have been through the mill. With Barry at second, and Hobbitt and Gainer alternating at first there is nothing left to be desired. It is an open secret, however, that the Boston third and shortstop positions are weak spots.

Scott, Boston's flashy young infielder, is particularly weak at the bat and in the clinch. He is a fighter, but he is not a champion, was considered one of the best in the division a few years ago, and Wells is no dwarf.

Gardner, at third, was a trifle off color.

Carrigan is relying heavily on his staff of pitchers, who are young veterans—a very desirable class in a world's series.

## Strong Opposition To Military Training

Portland, Ore., Sept. 21.—Strong opposition to the proposal to establish voluntary military training in the Portland high schools will be voiced at the meeting of the teachers committee of the school board tonight, according to predictions today by prominent club women of the city.

Members of the school board are anxious to discover the sentiment of the public before any definite action is taken. They do not intend to force the issue.

Representatives of several patriotic organizations will be on hand tonight to present their claims in favor of military training, and a lively fight is in prospect.

## Here Is Good News for Stomach Victims

Some very remarkable results are being obtained by treating stomach, liver and intestinal troubles with pure vegetable oils, which exert a cleansing, soothing and purifying action upon the lower bowels, removing the obstructions of poisonous fecal matter and gases and preventing their absorption by the blood. This done, the food is allowed free passage from the stomach, fermentation ceases and stomach troubles quickly disappear.

George H. Mayr, for twenty years a leading Chicago druggist, cured himself and many of his friends of stomach, liver and intestinal troubles of years' standing by this treatment, and so successful was the remedy he devised that it has since been placed in the hands of druggists all over the country, who have sold thousands of bottles.

Though absolutely harmless, the effect of the medicine is sufficient to convince any one of its remarkable effectiveness, and within 24 hours the sufferer feels like a new person. Mayr's Wonderful Remedy is sold by leading druggists everywhere with the positive understanding that your money will be refunded without question or quibble if ONE bottle fails to give you absolute satisfaction.

## FOOTBALL CRITICS SAY ST. LOUIS EAGLES ARE TURNED WRONG WAY

St. Louis, Sept. 21.—Too much tango and not enough mud-wallowing practice, too much attention to the giddy voices in the grand stand, and not enough to the barking of the quarterback, kept Washington University out of the running in the Missouri Valley Conference last year, according to the best football authorities. The same errors threaten to keep the university's state team this year, if advance information is authentic. The school has never won a conference game in its entire association with the group. Nineteen-fifteen will be no exception it is predicted in circles authentic.

There are two other football teams in St. Louis. They are St. Louis University and Christian Brothers' College. St. Louis university will play minor league college football, with the exception of Georgetown and Arkansas, the two big-league opponents on the schedule. Christian Brothers' College, formerly famed for its football conquests, will have modified versions of the Christian Brothers' who were. Professionalism has been barred according to announcement at the school and with it, disappeared the best local material.

Captain Walter Essman will coach his own squad. He has three of last year's regulars including himself, to start with. The others are his brother Charlie and Larry Lynn. Times are dark at C. B. C.

Bill Edmunds, who won his letter at Michigan in charge of Washington university's squad and with fourteen letter men as a nucleus and with fourteen experienced players among the freshmen and sophomores of last year, is predicted a prosperous football year. Eight of his letter men were regulars last year. They include Gray, tackle, Meyer, center, and Berry and Ransom, ends. Edmunds will have to develop an entire backfield. Last year's back were graduated, and the subs of that squad were considered poor seconds to the regulars.

Twelve letter men will return to St. Louis university, George Koogan, of Minnesota, will coach the squad.

## HOW TO KEEP FACE YOUNG AND ATTRACTIVE

The way to ward off old age is not to fear it, not to allow one's self to be oppressed by the dread of advancing years. Use only legitimate preventives and avoid trying experiments with preparations not endorsed by physicians. An entirely safe and very effective way to keep the complexion young-looking and beautiful is to apply ordinary mercurized wax at bedtime, using it like cold cream, washing it off in the morning. This gradually absorbs the withered, faded cuticle, which is replaced by the more youthful, pink-tinted under skin. One ounce of this wax, to be had at any drug store, is enough to completely rejuvenate a worn-out complexion.

Crow's feet and other wrinkles, the first signs of advancing age, may be removed by a simple, harmless preparation made by dissolving an ounce of powdered saxolite in a half pint witch hazel. It is used as a face bath.—National Hygienic Review.

## LITNEY LICENSE IS RAISED TO \$25 FOR STATE FAIR TRAFFIC

### All Dogs Must Be Kept Within Terms of Ordinance After October 1

A license fee of \$25 was established by the city council last night for all autos carrying passengers for hire and the city recorder was authorized to notify all dog owners that after October 1 all of the terms of the dog ordinance will be strictly enforced. It was stated that the reception rooms for unchained canines had been completed with a room adjacent where unchained animals might be treated with gas and after October 1 all dogs must be accompanied by their owners of custodian on a chain.

The city engineer reported that the reconstruction of property owners against the paving of the Fairgrounds road was sufficient to prevent the paving of this drive and the street commissioner was authorized to purchase 160 yards of gravel to repair the street for fair time. When it was shown that all of the autos in the city that could possibly spare the time and many from other cities and towns of the valley were intending to go into the litney business during the state fair it was decided to raise the license fee from \$10 to \$25. The litneys on the regular fairground run and other autos doing a passenger carrying traffic for hire in this city all year deserved some protection in the minds of the council and the license fee was raised for this purpose. The ordinance had been prepared but was without the emergency clause and the council resolved itself into a committee of the whole and prepared the emergency clause which put the ordinance into effect upon its passage.

Payment of 75 per cent of the cost of the pavement on Seventeenth street was ordered.

Speed Cop Varney was re-elected for the remainder of the year upon motion of Councilman Von Eicken, of the police committee. It was stated that during the last six months that Varney had been employed he had made 37 arrests for speeding alone and that the fines had totaled \$705 and he was not only paying his own way but that it was a good investment for the city as he also served in other police capacities. There was no vote cast against the retention of the speed officer.

The heads of the departments of the city government were instructed to bring in before October 1 and file with the city recorder an itemized statement of the needs of their department for the coming year in order that the budget might be prepared.

It was suggested that an ordinance be presented to require all shade trees to be trimmed to a distance of at least 15 feet above the pavement so that the city sprinkling works might pass under the trees without the limbs making the driver. It was stated that the park board had the power to require this to be done and the matter was referred to the park board for action.

An ordinance was presented to make it unlawful to set a hose or sprinkler so that the water fell upon the sidewalk in sprinkling lawns or parkings, its provisions, however, not to apply to a sprinkler held in the hand and turned aside as pedestrians pass. The fine to be from \$2.50 to \$20 for violating the terms of the ordinance. The matter was referred to the fire and water committee.

Councilman Mills suggested that auto drivers directly in to the curb instead of backing in when parked along the curb of the streets. He said in defense of his suggestion that occasionally an awkward driver would take up too much room or smash a bicycle or something. Mr. Mills also said that amateur drivers sometimes forgot to relieve the reverse when they backed into the curb and that when they cranked up the machine would climb the curb and threaten pedestrians. He said he knew of just such things to happen in this city. The matter was referred to the ordinance committee for revision.

The Salem Elks lodge, No. 336, was given permission to hang a banner across the street in front of the club rooms on Elks' day of the state fair. The banner to bear the inscription "Welcome B. P. O. E."

The resolution of the light committee recommending lights at the crossing of Broadway and the O. E. track, at the intersection of Eighteenth and Belmont and at Twenty-fourth and Marion was adopted. The monthly pay roll for September was adopted, and the second half of the appropriation for the park fund was ordered transferred from the general fund to this fund.

The city attorney instructed the council that under the terms of the franchise of the Salem Flouring Mills company this company could be required to cover the mill race from High street to Front street. This would require an amendment to the ordinance, he said, and was then instructed to bring in the required amendment. A sidewalk was ordered on the west side of Liberty from Oak to Leslie.

## Monthly Report of Salem Public Library Shows Growing Interest

The report of Miss Anne D. Sweney, librarian of the Salem public library for the month of August, after taking a complete and careful inventory, shows the library to include 11,184 volumes and pamphlets, 2,311 of these adapted for the reading of children. August is not ordinarily a very active month, but this year 3,320 books were handled over the desk, an average of 127 each day. The busiest day of the month was when 212 books were taken out, and the slowest day when but 87

## Most men like Fatimas—but maybe you won't

Fatimas please so many men that they outsell any other cigarette costing over 5c.

But it may happen that your taste won't fit Fatimas. That's nothing against you. Nor against Fatimas.

But if your taste does fit Fatimas, you can feel

doubly grateful. For of this you can be sure—Fatimas are cool and friendly to the throat and tongue. And they will never leave you "feeling mean" as long as you smoke within the bounds of reason. These tests show you how to prove this.

Because Fatimas are cool and because they can be smoked freely and often—they have rightly earned the title, "The Sensible Cigarette."

It simply remains for you to see if their taste suits you as well as it is suiting thousands and thousands of other men. Test Fatimas today.

You may find that their taste is exactly what you've been looking for in a cigarette.

Lights & Mugs & Tobacco Co.

FATIMA was the Only Cigarette Awarded the Grand Prize at the Panama-Pacific International Exposition.

**TWO TESTS FOR ANY CIGARETTE**

The taste of the cigarette—according to a leading tobacco journal—is up to the smoker. But there are other qualities that you should look for in the cigarette that may help the average smoker to choose more wisely between different kinds of cigarettes.

The first test is for coolness, which means more comfort to the throat and tongue. Light any cigarette. Draw in a puff of smoke—small, ordinary puff in your mouth for a few seconds. Hold it "fast" around against your tongue and throat. Now blow out the smoke. If the cigarette contains a high grade of mild tobacco leaves, combined in just the right proportion, it will always feel cool and smooth both to your throat and to your tongue.

On the other hand, if the proportions are not right and if the cigarette contains inferior grades of tobacco or hidden strands of rank, oily leaf, you will feel a pipping sting at the tip of your tongue, or that "sandpaper" tickle in your throat, after smoking all day!

Test number two—How do you feel if the tobacco in the cigarette includes a correct proportion of mild grades—and is not so blended by age—and if they have qualities in each of the different types of tobacco, you will be able to smoke practically whenever you feel like it throughout the day without feeling any effect from it.

But with another cigarette in which the blend is less skillful, even though the tobacco are of the highest grade, you will find along towards the end of the day that you are likely to have that feeling of having "smoked too much."

Clip out these tests and try them on Fatima

were handled.

Readers in general do not care for anything especially intellectual during the last month of summer, and for this reason, the adult readers averaged 80 per cent fiction. This is the largest fiction percentage of any month for the year. Beginning with the fall months, this fiction percentage falls considerably. The juvenile reading showed 60 per cent fiction, which is about an average for the children. That greater interest is being taken in the library is evidenced by the fact that during August, 71 cards were issued to readers who had not heretofore taken advantage of the library. Since the opening of the fall term of the university,

the library rooms are thronged with young students who find the special books of reference of special advantage to them in their studies.

## Striking Wireless Operators Say Law Is Violated

San Francisco, Sept. 21.—Officials of the wireless operators' union, which is on strike against the Marconi company, today asserted the steamer Great Northern violated a federal statute in putting to sea with only one wireless operator after the strike was declared. The union will ask customs officials to enforce a fine of \$5,000.
