EUGENE'S DOLLAR DAY WAS GREAT SUCCESS

Liberal Advertising On Part of Merchants Make It Regular Circus Day

Eugene, Ore., Sept. 23.—Dollar day sales broke all anticipations yesterday. Half a dozen of the largest stores announced at 6 o'clock tonight that all records for a single day's sales had been broken. The stores were filled all day, and, according to the dealers, nearly every one was buying. One bank that offered a dollar free with every new savings account opened gave away \$176, and many of the accounts opened ran into large sums of money. Depositors were in line all day long, and two tellers and one assistant were busy taking their money. Dollar day was so successful that it will probably be repeated in Eugene. Thousands of persons came from the country, as on circus day, and the streets and stores were crowded all day. It was the biggest carnival ever held here. Eugene merchants last night carried 18 pages of nearly solid advertising, announcing Dollar day bargains in the Eugene Guard. Monday's Guard carried 16 pages of Dollar day advertising, and that published Saturday carried 20 pages. The Morning Register also carried a great deal of extra advertising. It was due to this liberality of advertising no doubt that the Dollar day plans were successful. Dollar day marked the opening of the Lane county fair, and marked the greatest first day in the history of the fair. As last year the grand and school exhibits form the chief features of the fair. Practically every school in the county, representing thousands of school children, are taking part, the largest number ever competing at a similar event in the county.

STOMACH MISERY QUICKLY VANISHES

Your money back if you want it is the way in which Daniel J. Fry, the popular druggist, is selling Mi-o-na, the great dyspepsia remedy. This is an unusual plan, but Mi-o-na has so much merit and is so almost invariably successful in relieving all forms of indigestion that he ran but little risk in selling under a guarantee of this kind. Do not be miserable or make your friends miserable with your dyspepsia. Mi-o-na will help you. If it doesn't, tell Daniel J. Fry that you want your money back and he will cheerfully refund it. A change for the better will be seen from the first few doses of Mi-o-na and its continued use will soon start you on the road to perfect digestion and enjoyment of food. Mi-o-na has been so uniformly successful that every box is sold under a positive guarantee to refund the money if it does not relieve. What finer proposition could be made. Daniel J. Fry gives his personal guarantee of "money back if you want it" with every box of Mi-o-na that he sells. A guarantee like this speaks volumes for the merit of the remedy.

HOW ANY WOMAN CAN REMOVE HAIRY GROWTHS

It is not longer necessary for a woman to visit a beauty specialist to have superfluous hairs removed, for, with the aid of a plain delicate paste, she can, in the privacy of her own home, remove even a stubborn growth in a very few minutes. The paste is made by mixing some water with a little powdered delatone. This is applied to the hairs and after 2 or 3 minutes removed and the skin washed, when it will be left clear and hairless. Be sure you buy real delatone.

STATE NEWS

Pendleton, East Oregonian: After lying for four years in a sack of barley stored in this city, a costly wedding ring, ownership unknown, was found Thursday by John Q. Peebler, warehouse man at the Furnish warehouse, while ransacking the barley. The ring bears the inscription from "Floyd to Cora." The barley had been stored in the warehouse for four years, and while ransacking it Mr. Peebler's eye detected something bright so from one sack to another, and, investigating, found the ring. It is octagonal in shape and is insaid. Mr. Peebler has no means of knowing to whom the ring belongs.

That east is east and coast is coast meteorologically is the contention of the Forest Grove News Times, which goes on to say: "Excellent rains visited this locality the past week. On Friday and Saturday the downpour was accompanied by considerable lightning and thunder, something unusual for this community. In fact, it is very seldom that we have any thunder or lightning and when we have a little demonstration like that of last week that the average easterner would scarcely pause to listen to, the older Oregonians in fright hunt for the places of safety."

Bend Bulletin: "How's business?" That was the banal question asked this week of more than a score of Bend merchants. It was asked in a cursory manner so that these merchants would not suspect that it was premeditated. To this interrogation came no hesitating replies. All grades up from "good," "looking up," "rushing" to "never better." All were straight from the shoulder, and there were no reticent, uncertain quibblings when spoken.

Medford Mail-Tribune: Indian summer weather prevails over the Rogue River valley today with bright sunshine and hardly a breath of air stirring. Grouse, quail and deer are plentiful in the mountain districts, but most of the hunters are waiting for a heavy rain before going to the wilds. A few more chilly nights and the leaves will begin to fall rapidly.

Silver Lake Leader: On September 9, while raking hay on the UR beach lands a coyote came upon the scene which tried to bite one of the mules driven by Mr. Aldrich. The other hay haulers, noticing the conflict, came to the rescue, and Mr. D. Long stabbed the animal with his pitchfork, killing him. The coyote proved to be affected with the rabies.

The Stanfield Standard has retired from the field of journalism—as the Stanfield Standard. It will henceforth appear in larger form, in a new dress, and under the title the Oregon Optimist. There is to be no change of management.

"Baker capitalists," advises the Democrat, "would do well to put their money into modern bungalows. The demand for this class of houses continues far in excess of the supply and it is probably conservative to say that 50 more such dwellings could be rented in Baker today at monthly rentals from \$20 to \$30."

Jefferson County Searchlight: Dr. B. K. Leach and wife, former editor and associate editor of the Searchlight, left Monday for California to visit friends and relatives, and also to look for a new location.

As proof of the extreme salubrity prevailing at and about Joseph, the Herald avers that there has not been a death in that terrane for six months, and that "Undertaker Resch is beginning to complain about his hard luck."

BISURATED MAGNESIA

A well-known medical writer says: "I always first prescribe Bisurated Magnesia in every case of hyperacidity (sour acid stomach) that comes to me." A teaspoonful in a fourth of a glass of hot water usually gives INSTANT RELIEF. Sold by all druggists in either powder or tablet form at 50 cents per bottle.

DALLAS BREAK HEALED

Dallas, Ore., Sept. 23.—The Dallas city council Monday night directed Auditor and Police Judge Charles Gregory to file bond for faithful performance of the duties of his office. This action had the effect of dissolving a cloud that hung over the relations between the auditor's office and the mayor. Judge Gregory was re-elected without opposition at the general election held last April, and assumed the duties of his office in May. He took his oath of office as required by the charter, but failed to file his approved bond.

For some time there have been strained relations existing between the auditor's office and the mayor, and Mayor Kirkpatrick insisted that Gregory file his bond or else vacate office. The matter was brought to a head at the meeting of the council.

OREGON NEWS TODAY

Charged With Arson. Portland, Ore., Sept. 23.—Four men are under indictment by the grand jury today in connection with the alleged operations of an "arson trust." They are Morrie Keeney, formerly a city fire department lieutenant; George W. Woollette, a plumber; William Stewart, and a man whose name is held secret pending arrest. Woollette and Stewart are said to have confessed, implicating Keeney and others. Eight Portland fires are declared to have been started by the alleged arsonists, but District Attorney Evans is positive there were many more than this. Ten confessions have been secured, it is said, involving 20 persons in the operations of the "arson trust" which began 10 years ago. Not only were fires started in many parts of Oregon, but California as well, it is alleged.

Dollar Day a Success.

Portland, Ore., Sept. 23.—This is "Dollar Day" in Portland and bargain hunters were in a frenzy of delight. Practically every store in the city is offering prodigious amounts of merchandise for one dollar. It was estimated that \$500,000 would be spent by Portland buyers and, due to the reductions in the price of commodities offered for sale, \$150,000 would be saved to them.

Fire Victim Dies.

The Dallas, Ore., Sept. 23.—Terribly burned in the Masonic Temple fire which did damage of \$33,000 yesterday, D. W. Wilson is dead today. Wilson was janitor of the building. Austin Fox, the elevator boy, the second victim of the fire, is in a serious condition.

THE GERMAN VIEW.

(Los Day Daily Record.) In the newspaper revelations of the correspondence with German agents in this country with the German government, and the activities of the German secret service, we find the following passage from Herr von Waetzold, German trade representative in the United States, in a letter to his government: "The large war orders, as the professional journals also print, have become the great means of saving American business institutions from idleness and financial ruin. This is not only true of the average and smaller institution, but also of the larger ones."

MARCONI ON FIRING LINE AS HEAD OF WIRELESS DEPARTMENT

Marconi, under arrow, just about to leave on tour of inspection of wireless stations. Because of his great work in the wireless field, Signor Marconi, when he answered his country's call, was appointed by King Victor Emmanuel as head of the wireless department of the Italian army.

MRS. BAKER EX-CONVICT

San Francisco, Sept. 22.—With the death in a rooming house Sunday night identified as Mary Glynn, an ex-convict, the man whose photograph was found in her room declared to be Gene Kepler, former San Francisco cafe entrepreneur, the police today expected to clear the mystery surrounding the murder. Finger prints taken from the dead woman tallied with those of Mary Glynn taken at San Quentin prison two years ago, when she was serving a term for grand larceny. Detectives were confident today that the woman was slain because of some knowledge of criminal proceedings, and the fear of her slayer that she would cause his arrest.

DISCOVERY ENABLES HAIR TO ONE TO HAVE CURLY HAIR

Quite accidentally some one made the discovery that the application of ordinary liquid salerine would actually turn straight hair curly and wavy in a few hours. She told her friends about it, who in turn told others and now thousands of women have benefited by the information. The simplicity and harmlessness of this method, and the way the hair dries in such pretty curls and wrinkles, will appeal to any one who tries it. The favorite way is to apply the salerine with a clean tooth brush before retiring. The effect upon arising is quite surprising, the curliness having such a natural appearance and the hair being so bright and lustrous. Particularly will this be appreciated by the habitual user of the despoiling waving iron—which, happily, can now be discarded. The liquid salerine which can of course be obtained from any druggist, is neither sticky nor greasy. A few ounces will keep the hair curly for many weeks.—Mirror of Fashion.
