DR. FORD OFFERS LETTERS IN DEFENSE

Financial Deal Causes Stormy Debate In Methodist Conference

Roseburg, Ore., Sept. 24.—I have been involved in charges which are meant to show questionable financial dealings, and which, if founded, would result in serious injury to my reputation," Dr. T. B. Ford, of Oregon City, declared yesterday, as he faced several hundred ministerial delegates in attendance at the annual conference of the Methodist Episcopal church.

Supreme silence followed. Dr. Ford continued: "I declare to the open conference and before God that these charges are false and I know too well my service to the church to implicate myself in such affairs."

Although admitting openly that his son, O. F. Ford, of Portland, had become obligated to Robert C. Motor, a member of the Columbia conference, in the sum of \$9,000, Dr. Ford said he was not involved to the extent of a cent.

Secretary Compares Statement.
 Here Dr. Barick, the secretary of the conference, then confessed to having made statement regarding Dr. Ford's reputed troubles. He contended that his statements were justified by a letter he had received from Mr. Motor.

Although intimating that this letter contained authority for his remarks, Dr. Barick refused to make its contents known either in open conference or at a private meeting of leading churchmen that followed.

It was said here tonight that other persons in attendance at the conference have copies of the letter in possession of Dr. Barick and that it contains nothing detrimental to Dr. Ford.

Bishop Calms Debate.
 "Let us have peace and quietness," interposed Bishop Cook at this stage of the proceedings. Various suggestions were then made for final determination of the matter, the bishop pointing out three ways of hearing each side of the controversy.

One was to appoint a select committee to make an investigation, another to appoint a commission, while the third was to debate in executive session. Bishop Cooke urged that there be as little disturbance as possible and the matter was dropped.

As the suggestions for disposing of the controversy were being discussed the following letter written by Robert Motor, and addressed to Dr. Ford was read in open conference:

"Hope, Idaho, Aug. 16.—To Whom It May Concern:—Having learned that it has been circulated that the Rev. T. B. Ford had borrowed of me \$9,000 and had failed to pay it, I wish to state that such is wholly untrue. It was his son, O. F. Ford, to whom I loaned the money, the doctor assuming no responsibility whatsoever in the matter.

Character Testimony Given.
 "I would say also that I have been acquainted with Dr. Ford since February, 1872, at which time I was licensed to preach, he being the presiding elder of the quarterly conference and appointed me to a work in his district. From that time we became more and more intimate and quite closely associated in the work of the ministry so that in my home, in his home, in camp and in journeying on horseback, by coach and rail, I never heard him say or do anything inconsistent with the most gentlemanly character, and as presiding elder, or pastor, ever to mistreat or injure any person.

I gladly give this testimony to the good character of Dr. Ford, and hold it a privilege to have had the favor of his acquaintance and friendship.

"ROBERT C. MOTOR."
 Rev. E. C. Cline and Dr. Clarence True Wilson had much to do in restoring harmony. Dr. Cline confessed to his blunder in repeating the purported transaction after hearing about it.

Bishop's Relative Dies.
 Dr. James Moore, of the Salem district, reported that 30 new buildings had been erected under his supervision the past year, including eight parsonages and 11 new churches. He said the property had increased \$100,000 in value, and 1,500 members had been added to the church. At this afternoon session Bishop Cooke received a telegram announcing the death of his sister-in-law, Miss Lizzie Fisher.

The feature of last night's session of the conference was the address by Dr. Clarence True Wilson.

British Horse Transport Sunk By Submarine

Washington, Sept. 24.—The British horse transport Anglo-Columbian was sunk by a submarine at 9:30 o'clock this morning on route from Montreal, Consul Frost at Queenstown cabled the state department.

Frost reported that the vessel was given warning before she was torpedoed, and that the crew had ample time to take to the boats. No casualties resulted.

Six Americans were among the crew. The transport halted after an exciting chase of 78 miles, when the captain saw that he had no chance to escape.

Officials regarded the incident as tending to prove the sincerity of Germany's claims that she would give warning to vessels before torpedoing them, though in this instance there was doubt that warning was required in view of the vessel's apparent attempt to escape.

Missouri Pacific Wreck Kills Several Trainmen

Omaha, Neb., Sept. 24.—Misunderstanding of orders, according to Missouri Pacific officials, was responsible for a crash between a south-bound passenger train and a north-bound freight at Oread, Nebraska, which resulted in the death of H. C. Goodhour, of Kansas City, passenger fireman, and the fatal injury of M. Sherlock, of Kansas City, veteran passenger engineer.

It was believed no passengers were killed, though several were hurt. Both engines were demolished.

Sherlock died later of his injuries, and Express Messenger Cotton was so badly hurt that he may die.

J. K. Wilson, of Falls City, Nebraska, brakeman, was the only member of the freight train crew to perish.

The passenger train was going 40 miles an hour, while the freight was making fifteen. When the crash came one of the engines exploded.

VIA WIRELESS
 A gold rooster play in five parts, adapted from the great play of the same name by Paul Armstrong and Winchell Smith, featuring Gail Kane and Bruce McKae. Supported by Paul McAllister and a splendid cast.

Marsh, a draftsman in the gun factory of John Durant, is swindled by Edward Pinkney, Durant's general manager, out of the huge royalty to be paid should a gun of Marsh's invention prove a success. Pinkney loves Maisie, but is outwitted by Lieut. Somers, U. S. N.

Somers also has invented a gun which he gives to be east to the Durant Iron Works, and which, if successful will do Pinkney out of his expected graft on the Marsh invention. Pinkney takes good care that the Somers gun is "killed" in making. He then misrepresents Somers to Maisie and her father, and though Maisie loves the lieutenant, she feels she must give him up. Accompanied by her mother and Pinkney, she goes in the Durant yacht for a cruise. The boat hits a mine, and in the rush to leave her, Maisie is trapped in the wireless room. She sends out the S. O. S. signal taught her by Lieut. Somers. The lieutenant, aboard a U. S. cruiser, arrives at the side of the doomed ship just in time to make a sensational rescue. Will be shown tomorrow, Sunday, and Monday at Ye Liberty theatre.

Captain Von Papen Won't Talk About "Idiotic Yanks"

San Francisco, Sept. 24.—Dodging all questions about his designation of Americans as "idiotic Yanks," Captain Von Papen, German embassy attaché, "in bad" with this government for letters sent to Europe by American Correspondent Archibald, was here tonight. With him was Prince Hatzfeldt of the German embassy. Von Papen registered as "Pape" while his companion used the unassuming title of "Mr. Hatzfeldt."

The attaché indicated he was on a "leave of absence" but whether this was to be permanent and he virtually a recall by Ambassador Von Bernstorff he would not say.

United States secret officers were reported to have their eyes on Von Papen's moves. He is reported to plan a trip to Mexico.

How to Destroy Catarrh Germs and End Catarrh Forever

A Specialist's Advice.
 Catarrh is a germ disease and the only way to cure it so it will stay cured and never come back is to kill and drive out of your system the catarrhal germs which have found lodgment there. When the germs go the catarrh will stop. The trouble with most treatments, like sprays, salves, creams, greasy balms, lotions, etc., is that they give only temporary relief by opening up for a while the clogged head, throat and nostrils. In a little time the catarrh comes back as bad as ever.

People who suffer continually from catarrh should drop such temporary makeshifts and get something that really gets at the root of the disease and stamps it out. There is nothing better for such cases than breathing into your nose and lungs the pleasant, soothing, healing, germ destroying air of Hyomei (pronounced High-o-mey) made from purest oil of Eucalyptus and combined with other powerful healing, antiseptic and germ destroying ingredients. Hyomei penetrates and breaks the inflamed swollen membranes of your nose and throat, stops discharges, clears the passages and completely overcomes the disease by destroying its cause. For catarrh germs cannot live in your body after Hyomei reaches them. Daniel J. Fry and many other good druggists in Salem and vicinity have long sold Hyomei on a positive guarantee of successful results or money back and find this generous policy pays. Most druggists are now giving a pocket inhaler made from hard rubber with every complete treatment sold. This makes a very simple, easy and convenient as well as a thoroughly reliable means of treating by the best known method this dangerous and often disgusting disease.

Gouley and City Policeman G. N. Norton had been chasing another motorcycle a few minutes before, and has fired several shots. While Norton was at a patrol box, it is alleged Gouley shot Frissell, thinking he was one of
