Detroit Electric \$1975 to \$2275

—always available

That's one of the big advantages of an enclosed car like the Detroit Electric. In rain or shine, cold weather or warm, you can enjoy its use.

It has no cylinder to freeze—no radiator to chill—in winter. It is always clean and free from fumes and odors common to gas cars. Because of the simplicity of its mechanism and the high quality of its construction it is not being constantly laid up for repairs as is the case with some gas cars. Every member of the family can drive it safely and so you get far more use from the modern Detroit Electric than you do from a car that only the head of the family or a trained chauffeur can operate. It "picks up" more quickly than any gas car and is much easier to drive in congested traffic. A demonstration will prove mighty enlightening. Just phone a convenient time.

Polk County Fair Best Exhibition Given

Dallas, Sept. 27.—The fourth annual Polk county fair came to a close Friday evening. The exhibition this year was the best of any ever held in the county and such an abundance of fruits and vegetables and other products of the county were brought in by exhibitors that the pavilion was packed to its utmost capacity. The exhibits by the school children were especially interesting this year which goes to show that Polk county ranks among the first in good schools. The livestock exhibition, though small, was larger than last year and it is to be hoped that next year a larger exhibit of the blooded stock raised in the county will be an exhibition. The county exhibit which was prepared by Mrs. Winnie Braden, secretary of the fair association, and J. E. French was the best ever collected in the county and will occupy a prominent place in the county booth at the state fair in Salem this week. After the close of the state fair it will be taken to Portland and exhibited at the Land Products show, the county court at a recent meeting having allowed \$200 for maintaining the exhibit at the Portland show. Though the absence of carnival attractions was felt by some of the visitors, the singing of Mrs. Hallie Parish Hinges, the Oregon nightingale, of Salem, was far more entertaining than all the shows in the state.

FAIRGROUNDS POLICE ANSWER ALL QUERIES

Chief Burnett Has Strong Force Collected From All Over the State

The police force at the fair this year is made up of the "pick of the state" according to W. Al Jones, who selected them and M. P. Burnett of Corvallis, who is the chief of the "exposition police." The men are uniformed in blue with brass buttons for trimmings and neat blue caps with a gold band. W. H. Goulet, who is county commissioner of this county when he is not policing the fair grounds track, is the mounted officer with Charles Yanke as chief aide. Officers Goulet and Yanke patrol the fair grounds track and chase the youngsters off of the track and the race horses on to it as well as gallop on errands for the race course officials.

Part of the duty of Mr. Goulet is to explain the curious sights of the fair to the people who are not familiar with everything they see. For instance he must explain that the aeroplane will go up at 4 o'clock, and the reason that it does not start promptly at 4 is because of engine trouble. Also that Munster will not loop the loop as the machine is not of the looping kind, that the silver plate on the neck of Honest Boy, H. S. Hogoboom's horse, is for the horse to breath through, the horse had throat trouble and it was necessary to put an "intake valve" in his neck so he could supply his lungs with oxygen, that it does not hurt the horse to breath that way and in fact it would hurt him if he did not get his breath that way and—well, there are other numerous questions to be answered by the fair grounds police but they are strictly on the job.

In addition to the above mentioned the following are patrolmen:
Barnett, M. L., of Corvallis; Cummings, Hugh, of Corvallis; Gardner, Irvine B., of Riddle; Jones, M. W., of Monmouth; Jones, S. J., of Salem; Kelley, S. M., of Roseburg; Munkers, I. A., of Seio; Murray, S. G., of Salem; Phillips, W. C., of Salem; Rhinehart, T. H., of Salem; Goodman, H. B., of Roseburg; Shaw, A. B., of Salem; Thatcher, E. J., of Corvallis; Thompson, R. E., of Salem; Vidito, Thomas, of Corvallis; Walker, D. E., of Gervina.
Plain clothes: Keller, W. L., of Portland; Ross, T. H., of Toledo.
