**Detectives Guard Foreign Loan Commissioners**

Chicago, Sept. 28. — Detectives swarmed through the depot today on the arrival of the allied loan commissioners, fearing there might be an attempt against their lives by some anti-ally crank. The commissioners will be under close guard during their visit here.

Local financiers admitted that the visit is not wholly "social" as it was claimed yesterday, and it was evident that the commissioners sought to obtain western support for their \$500,000,000 loan proposal which thus far has had a chilly reception from western interests.

The commissioners were given an impromptu greeting at the depot and then were taken to their hotel, James Ferguson, Ogden Armour, John and Samuel Insull, prominent bankers and business men, greeted them.

**OREGON HORSEMEN WOULD MAKE SHOW A SOCIETY EVENT**

**Erection of Livestock Judging Pavilion Favored for Night Shows**

By unanimous resolution the Oregon horse breeders' association at a special meeting, at the state fair grounds last night, went on record as favoring the erection of a livestock judging pavilion at the fair grounds before another two-year period expires and pledged themselves to urge upon the state fair board the necessity for this, as the most effectual means of fostering the livestock industry of the state, and to use all the influence at their command with the members of the next legislature to secure an appropriation.

The motion was made by A. J. Simons, of Macleay, following the suggestion offered in an address by Prof. E. L. Potter, of the O. A. C., endorsed by all speakers who followed him and Dr. W. H. Lytle, state veterinarian, not only indorsed the plan for a permanent livestock pavilion at the fair grounds but proposed, as an immediate relief of the situation, the securing of canvas for the erection of an immense tent in which to hold night horse and livestock shows at the fair next year and at other places in the valley during the year. The proposition was received with acclamation and Mr. Simons' motion was adopted without a dissenting vote.

The horse breeders also went on record in favor of the wiping out of the grade stallion entirely from the state of Oregon, as the most serious menace to the future of the horse business in the state and the northwest, and also the total elimination of the defective stock in the pure-bred class of horses which is responsible for the great number of inferior horses now on the market to the great detriment of the industry and the farmer.

The horse breeders held an enthusiastic get-together meeting and numerous prominent horse breeders made rousing addresses of encouragement to the horsemen present and the best of spirit prevailed throughout. Prof. I. J. Hiddings, of Lewiston, Idaho, who is judging the draft class of horses at the state fair, gave a very optimistic address upon the outlook for the horse business for the future, pronouncing the Oregon show of horses, especially in the Percheron class, the best that he had ever seen in the northwest—far superior to the show of Spokane and North Yakima—and predicted success to the industry if the stockmen would only stand together and fight for pure-bred stock.

**Two Americans Slain In Battles With Haitians**

Washington, Sept. 28.—Three Americans killed and a score wounded stood today as the total casualties of America's peace efforts in Haiti. One hundred Haitians have been killed and 200 wounded, it is estimated, since the United States marines landed two months ago with the avowed purpose of bringing order out of chaos in the island republic.

Admiral Caperton's report of the latest trouble with the revolutionists was reassuring. Sniping continues but the rebels are submitting to disarmament around Cape Haitien except for small bands.

To the north, however, a considerable force is forming.

Thus far there has been no serious rebellion against the new government. Caperton's 2,000 men are maintaining martial law in the large cities, and are taking drastic steps to try to re-open the railroads that the famine ridden interior may be relieved.

The Haitian congress now in session is expected to ratify the treaty providing an American protectorate over Haiti for ten years.

**Juvenile Department of United Artisans**

The officers of the Juvenile department of the United Artisans, the first lodge of its kind in the United States, are as follows:

Court of Fairies: Margaret White, ruler; Mona Schann, chaplain; Mayle Hunter, assistant ruler; Letha Wilson, past ruler; Merle Matlock, corporal; Lowell White, sentry.

For the Court of Legions, the following have been elected to the various offices: Orley Leffingwell, Garnet Clearwater, Edwin Kirtley, Essie Lindsey, Ruth Mendelsohn, Edna McFarland, Georgia Bewley and Helen Smith.

Drill teams for each of these departments of the organization will be organized and work commenced next month.

Seltzer adds that the fare is \$6258. If they'd only make that the fare over here, what a joy it would be to insist

Mr. Consul Hazeltine reports a demand for an American typewriter with a "light touch." Sorry, Columbia, but the lightest touch American typewriters we ever found was no less than \$5 a plate, with wire. This of course is a lighter touch than the American chorus girl touch, still, not so light as it might be. The late models are much heavier.

A California man has insured his avocado peach tree for \$30,000. We suppose that when his little boy is bad, he says, "Willie, I hate to cut a hundred-and-fifty-dollar switch to lick you with, but I'll certainly spend the money if you don't behave."

**WOMEN CAN FINANCE ENGLAND'S WAR**

London, Sept. 15 (By mail).—"The women of England by their efforts can finance this war and it would be good if they would band themselves together and sign an economy pledge."

This is but one of the conclusions arrived at by the parliamentary war savings committee, which has solicited the help of experts to advise the housewife and civil population the most vital need of wartime thrift. Other general suggestions are:

No person should build a house to reside in himself.

Any presents given should be war loan vouchers or bonds.
