THE GREATER CHICAGO STORE

BANKS WOULD CURB STOCK SPECULATION

Wall Street Brokers Must Behave Themselves Or Give Security

New York, Oct. 1.—The conservative element in Wall Street was reported today to be arranging to stop the bulls for fear that tales of "millionaires made over night," coupled with four successive "million share" days in the market may result in a era of reckless speculation which would ultimately end in a sudden slump.

The word has been quietly passed that the banks would demand a large collateral if the market does not act more conservatively than it has in its recent days of feverish activity.

The quick success of the gigantic allied loan is recognized as a contributory factor in booming the market. Subscriptions are reported already to total more than \$400,000,000.

The recent activity on the street has sent prices of seats on the exchange soaring. One seat was sold for \$62,000 or \$2,000 above the last sale.

The market continued its bullishness today, however, opening strong. Steel common soared to \$1, the highest mark it has touched since 1907. A quarter of the trading was in these shares.

Wall street went mad over speculation in war issues again today. Steel common led the sky rocketing. A frenzied mob was about the steel post, and before the close the figures soared to \$1 3/8.

The curb market, too, was jammed despite the rain. Umbrellas had no chance with the jostling wild throng.

The Market Closed Irregular

Wall street began to show signs of "cracking under the strain" of its unusual business. Several commission houses suggested a vacation tomorrow in order to permit clerks to catch up with clerical work, resulting from several million share days.

The governor of the exchange said, however, that it is impossible to close, as the whole world is trading there.

Henry Clews, noted banker, declared the market is booming because "everybody wants to buy stocks, and the demand is making prices soar."

People, he said, believe that after the war America will see a big industrial boom.

"The big interests," he continued, "are in a strong position. New banking laws have been set up to safeguard against panics, and banks are bursting with deposits. People are spending less. This has made money for investors plentiful."

"Merchants are beginning to realize that we are on the edge of an era of prosperity. Exports are now larger than at any time in our history and the half billion allied loan will increase these exports."

Stone Opposes Loan

St. Louis, Mo., Oct. 1.—Chairman Stone, of the United States senate foreign relations committee, was on record today in opposition to the \$500,000,000 allied loan now being floated in this country.

Stone declared the loan endangers American neutrality. Bond holders, he believed, might become partisans, particularly if this one loan led to others, and in this way a large part of the nation would become unneutral.

Banks Are Threatened

Chicago, Oct. 1.—Bankers who subscribe to the allies' \$500,000,000 loan here today face threats from cranks.

The first of these has been delivered to President Charles G. Dawes, of the Central Trust company, who was the first banker here to announce himself in favor of the bonds. As a result it is today closely guarded. Moreover, special detectives kept a close watch on his residence all night.

STOMACH MISERY QUICKLY VANISHES

Your money back if you want it is the way in which Daniel J. Fry, the popular druggist, is selling Mi-o-na, the great dyspepsia remedy.

This is an unusual plan, but Mi-o-na has so much merit and is so almost invariably successful in relieving all forms of indigestion that he ran but little risk in selling under a guarantee of this kind.

Do not be miserable or make your friends miserable with your dyspepsia. Mi-o-na will help you. If it doesn't, tell Daniel J. Fry that you want your money back and he will cheerfully refund it.

A change for the better will be seen from the first few doses of Mi-o-na and its continued use will soon start you on the road to perfect digestion and enjoyment of food.

Mi-o-na has been so uniformly successful that every box is sold under a positive guarantee to refund the money if it does not relieve. What fair proposition could be made.

Daniel J. Fry gives his personal guarantee of "money back if you want it" with every box of Mi-o-na that he sells. A guarantee like this speaks volumes for the merit of the remedy.

No \$5 Required For Telephone In Future

The state public service commission today issued an order abolishing the \$5 advance deposit required of certain patrons of the Pacific Telephone and Telegraph company. It has always been the custom of the telephone company to require applicants for flat rate service to deposit \$5 which was to be forfeited if the connection was not retained one year.

The commission's order goes away with this, and after November 1, when it goes into effect, the only requirement will be that subscribers pay in advance.

Except for meter or measured service no deposit shall be demanded from any customer for service.

ALLIED OFFENSIVE IS REAL EFFORT

France Claims To Have Sufficient Munitions To Carry Drive Through

By J. W. T. Mason.

(Written for the United Press.)

New York, Oct. 1.—It can no longer be doubted that the allies planned to have their present operations on the western front develop into the long expected major offensive.

Otherwise, so careful a diplomat as Senator Pichon, would not have stated, as he did in an extensive interview with the United Press, that France has sufficient munitions to carry the drive to a conclusion.

The allies must have realized that the Germans will claim they have "shot their bolt" if the offensive fails.

The French and British announcement that private cable messages to neutral countries are subject to a two days delay is an indication that important movements are in progress. This move means that the allies devised this scheme to prevent Germany from learning through ingenious code telegrams to

Sterling Gum The 7-point gum

San Francisco Chronicle: "Women in America dress better than women in Europe, but the most dress much worse," says a woman writer. You can't burn the candle at both ends.

IN SUCH PAIN WOMAN CRIED

Suffered Everything Until Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Florence, So. Dakota.—"I used to be very sick every month with bearing down pains and headache, and had headache a good deal of the time and very little appetite. The pains were so bad that I used to sit right down on the floor and cry, because it hurt me so and I could not do any work at those times. An old woman advised me to try Lydia E. Pinkham's Vegetable Compound and I got a bottle. I felt better the next month so I took three more bottles of it and got well so I could work all the time. I hope every woman who suffers like I did will try Lydia E. Pinkham's Vegetable Compound."—Mrs. P. W. LANSING, Box 8, Allyn, Wash.

Why will women continue to suffer day in and day out or drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?

For thirty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, tumors, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

PRESIDENT GREETS MANY OLD VETERANS

Annual Encampment Ends With Election of Officers For Next Year

Washington, Oct. 1.—The forty-ninth annual encampment of the "boys in blue" came to an end here today with election of officers.

Four candidates, Elias H. Montfort, of Cincinnati; Frank O. Cole, of Jersey City; William J. Patterson, of Pittsburgh; and Captain Patrick Conroy, of Topeka, were in the field to succeed David Palmer as commander in chief. Montfort appeared to be leading.

Elias Montfort was today elected commander in chief of the G. A. R. A heavy rain marred the final reunions. Thousands of visitors have already left the city for their homes. Exercises attendant upon President Wilson's laying the corner stone of the new Arlington memorial amphitheatre at Arlington national cemetery were transferred indoors except for the actual fixing of the stone.

Thousands of tottering veterans and other guests crowded the White House last night to shake hands with the president, though the program contemplated only a small reception to a few affiliated organizations and G. A. R. leaders.

Use Wireless Telephony Over Enormous Distances

San Francisco, Oct. 1.—With wireless telephony over enormous distances an established fact as evidenced by conversations between Arlington, Virginia and Honolulu, engineers of the American Telephone and Telegraph Co. declared that further improvement of the invention would be prosecuted with vigor.

John J. Carthy, chief engineer, to whom credit is due for the success of the invention, today declared trans-Pacific communication by the human voice is practically assured, and that before long, it will be possible to talk

OFFICIALS OF RIGGS NAT'L BANK INDICTED

President Included In List of Those Charged With Perjury

Washington, Oct. 1.—Three officers of the Riggs National bank were today indicted by the federal grand jury.

The indicted men are: President, Charles E. Glover. Vice-President, H. H. Fletcher. Vice-President, W. J. Fletcher. It was charged that they falsified statements concerning the bank's alleged stock operations. The charge is perjury.

The bank issued a statement, in anticipation of the indictments saying that the American Audit company of New York had declared the banks denial of stock operations was true.

The indictments against the officials are an outgrowth of the bank's action against Secretary of the Treasury McAdoo, Comptroller of Currency Williams and United States Treasurer Burke, charging them with attempting to wreck the institution.

from this coast to Oriental centers. "Should the Arlington station be duplicated at Seattle," he said, "it is reasonable to suppose that the radius of transmission from there would be equal to the radius of transmission from Arlington, Yokohama and Tokio are within a radius of 4990 miles from Seattle."

AN EASY WAY TO END CATARRH FOREVER

Simple Home Treatment Destroys Germs of This Dangerous Disease.

The reason why so many people who suffer from Catarrh never seem able to get cured is that they are continually seeking the momentary relief of sprays, fouching, greasy creams, ointments, etc. Such things do open up the swollen nostrils and clear the head temporarily, besides stopping for a while the disgusting blowing, hawking, spitting and choking, but they never cure. To drive out Catarrh for good you have got to get down to its real cause. Catarrh is a germ disease. The air is always full of catarrh germs thrown off by one person and absorbed by another and when the system does fall to throw off such germs they find permanent lodgement in the nose, throat and head and multiply rapidly.

The germs of catarrh can be best destroyed by inhaling the pure medicated air of Hyomei (pronounced High-come). This splendid and powerful combination of oil of Eucalyptus with other healing agents has a wonderful germicidal action. You breathe its air into your nose, throat and lungs by means of a small hard rubber inhaler which Daniel J. Fry and other leading druggists here in Salem and vicinity supply with every treatment. This medicated air is certain death to the germs of Catarrh and drives them completely out of your system and when the germs are destroyed the catarrh with all its disagreeable symptoms will stop. Even two or three minutes use will give refreshing relief, while, if you will use it two or three times a day for a few weeks it will completely banish catarrh and every symptom of catarrh. As Hyomei is pleasant to breathe and is always sold by druggists everywhere with a positive guarantee of successful results or money back, surely no catarrh sufferer should go long before trying this simple home remedy.

New Orleans States: The men of Houston are encouraging the "Buy-it-in-Texas" movement but George Bailey of the Houston Post is frank enough to admit that the stuff is made in Kentucky.

New York American: Mrs. Taft's opposition to woman suffrage ought to deal a staggering blow to the cause in the great galaxy of states that support Mr. Taft, viz. Utah and Vermont.
