Say Pacific Mail Uses the Truth Frequently

Washington, Oct. 14.—The administration is preparing to "show up" the Pacific Mail Steamship company's motive for disbanding under the plan that the LaFollette seamen's act forced them from business. It is learned to day that the commerce and treasury departments had collected a great deal of evidence to controvert the company's claims that if it complied with this law it would lose money.

Justice Wardell, receiver of the Port of San Francisco here today, conferred with Secretary of Commerce Redfield. Wardell's figures showed that the Pacific Mail liner Mongolia cleared \$128,000 net every trip, while the estimated earnings of the Mongolia and Manchuria were \$11 per mile net.

Saturday Farmers Sale and Market Day

The farmers sales and market, to be held in the city next Saturday, promises to be a success in every respect, according to the opinions of those who are in close touch with the community, and from the numerous inquiries received from the farmers. Today, seats are being placed in the market place on Liberty street, in what is known as the Waring barn, and a proper platform for the fruits and vegetables.

All cattle less than one year old may be sold at auction without a test, but if over this age, they must have a certificate of a tuberculosis test. This is the decision of those who have been looking up the law on this subject.

If the market has the support of the farmers, and if the success of the sales and auction next Saturday appears to justify it, the sales will be held every two weeks. The committee in charge of this sales market are working hard to make the first sale an unqualified success, as upon the results of this first day will depend greatly the future of a sales day for Salem.

The importance of the American Theatre, was the subject chosen by Prof. Wallace MacMurray for his opening lecture Tuesday evening. One hundred men and women interested in the drama of today, listened to a splendid presentation of the possibilities of the theatre. Prof. MacMurray believes that the theatre when brought under proper control, may present problems and their remedies which the church cannot and does not present. He emphasized the importance of the support of the educated and cultured people in raising the standard of the theatre by attending only those plays which are the best and which have as their aim, the betterment of social conditions and the uplift of humanity.

GENERAL GORDON'S FORESIGHT

London, Sept. 15.—(By mail.)—A remarkable instance of prevision relating to the war was cited here today with an extract from a letter written by the famous General Gordon, to a friend, in 1882. He wrote: "Every Briton should think of the future and each one should insist on the government passing a measure for compulsory universal military training, so far as England is concerned, she need not, for the next quarter of a century, be under any apprehension of serious difficulties arising with any of her European neighbors, but in 1910 or thereabouts there will have arisen a naval power which may prove mightier than she, and should she (Germany) gain the supremacy, England will become extinct both as a land and sea power, and all her dependencies, including India, will fall into Germany's clutches. You may live to see this, I shall not, but when that time comes, remember my words."

SURE WAY TO GET RID OF DANDRUFF

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.
