

Coffee Facts

Some months ago the effect of the European war was felt in the coffee market. Vast shipments usually consigned to these foreign countries, now at war, were dumped on American manufacturers for consumption. The result was an oversupply and a consequent reduction in the cost of green coffee.

Most coffee roasters saw in this the opportunity to increase their own individual profits. They bought coffee at the reduced price—roasted it and sold it at the same price they had always charged.

Believing the Retail Grocer and the Consumer equally entitled to share in this reduced cost, Lang & Co. immediately reduced the wholesale and retail price of their ROYAL CLUB brand.

For months past the public has shared in this saving to the extent of thousands of dollars, while all other coffee roasters on the Pacific Coast, without exception, maintained the same retail prices as before the reduction in the cost of raw coffee.

This is National Coffee Week, and your grocer is stocked with fresh-roasted ROYAL CLUB and GERMAN-AMERICAN COFFEES at the reduced prices, just as he has been for months past—and no better coffee can be bought at any price.

If you approve these business methods—methods which share with the public any saving which comes to us—then we want you to celebrate National Coffee Week with us by drinking ROYAL CLUB COFFEE, a 40c Coffee for 35c a pound; 3-lb. tin, former price \$1.10, now \$1.00. 5-lb. tin, former price \$1.75, now \$1.60; or GERMAN-AMERICAN COFFEE, 1-lb. tin for 30c, 3-lb. tin for 85c.

And, remember, these prices are not alone for this week. They are permanent reductions, made when the price of green coffee dropped, and they will be maintained until an advancing market makes necessary the re-establishing of the old retail prices. We guarantee no advance in our selling prices within 90 days.

It is therefore not necessary for you to "stock up" during "Coffee Week" at any so-called Coffee sale—the present prices on GERMAN-AMERICAN and ROYAL CLUB will be in effect next week and the week after. Buy fresh, pungent, full-strength, Coffee each week as you will need it.

If you have not tried ROYAL CLUB or GERMAN-AMERICAN, we want you to try it this week. Our Coffee is sold under the positive guarantee of satisfaction or your money back.

There may be some other Coffee which suits your individual taste better than either of our brands—no Coffee can suit every taste—but you will never know until you try ours.

Thousands of people now using our brands realize the extravagance of higher-priced Coffees when we sell these delicious steel-cut Coffees at 30c and 35c.

ASK YOUR GROCER FOR THEM.

Lang & Co.

Vast Water Power of Cascade Range

Well to the west of the great rock barrier which in the early days of the republic was assumed to be the natural western boundary of the United States lies another great belt of elevated land surmounted by a chain of rugged peaks and pyramids—the Cascade Range of Washington and Oregon. In these mountains there is an inexhaustible store of potential wealth,

Make Skin Smooth

There is one safe, dependable treatment that relieves itching torture instantly and that cleanses and soothes the skin. Ask any druggist for a 25c bottle of Zemo and apply it as directed. Soon you will find that pimples, black heads, eczema, ringworm and similar skin troubles will disappear. A little Zemo, the penetrating, satisfying liquid, is all that is needed, for it banishes all skin eruptions and makes the skin soft, smooth and healthy. Zemo, Cleveland.

Government Wants To Sell Some Timber

The forest service is advertising for sale 28,600,000 feet b. m. of timber, 82 per cent of which is Douglas fir, and the balance western red cedar, western hemlock and grand fir, all on the Doocewally river watershed in T. 26 N., R. 2 and 3 W., W. M. on the Olympic National Forest, Washington. The lowest price that the government will consider are \$1.50 per M for western red cedar, \$1.10 per M for Douglas fir, and \$1.50 per M for western hemlock and grand fir. Bids on this timber will be received by the rict forrester, Portland, Oregon, up to and including November 22, 1915.

BIG ONES TO VISIT COAST

Chicago, Oct. 18.—Chicago today looked like the scene of a world's baseball championship, harboring the cream of the big leagues. Stars of the American and National leagues are gathering preparatory to leaving tomorrow on a tour which will wind up at the California exposition.

WILL ABANDON NO POSTS.

Washington, Oct. 18.—Secretary of War Garrison today announced that the new army program does not call for abandonment of any existing post. The secretary feels that the country needs all its posts for training purposes if the war department is given the increases he recommends. No new post or arsenal construction, however, is contemplated.

PHILLIES AGAIN BEATEN

New York, Oct. 18.—The Boston Red Sox are not the only people who can defeat the Philadelphia Athletics. The leaders of the National league fell before the Lincoln Giants, a semi-pro team, Sunday in a thrilling game by a score of 1 to 0. Chalmers pitched and Baneroff, Stock, Paekert and other regulars played.

GOLD FOR WEDDING RING
Grass Valley, Cal., Oct. 18.—An ounce and a half of virgin gold from the Empire mine is speeding across the continent to be molded in the wedding ring which will unite President Wilson and Mrs. Norman Taft. It is being carried by Miss Dorothy Starr, daughter of General Manager Starr of the Empire mine as the gift of the Golden State.

CANADIAN OFFICIAL TALKS ON FARM LIFE
Lays Particular Stress On Beautifying the Farm Home For the Family

An interesting as well as forceful speaker, Duernier Marshall, held the close attention of a fair sized audience at the armory Saturday afternoon when he told of his experience as a farmer, and what they were doing in the province of Alberta, Canada, where he holds the office of minister of agriculture. Advocating that the farm be made as attractive as the city the speaker earnestly urged all farmers to set aside a week in each year for the improvement and beautifying of the home. Although he was rushed with work, this year on his farm in Alberta, all work was stopped while trees were planted around the home, fences put up and the home made more inviting in various ways. In order to keep the boy on the farm, he suggested that he should first be given a chance to attend an agricultural college and then permitted to use his newly acquired knowledge. A boy will naturally take an interest in blooded stock, especially if he happens to own an interest himself. If the boy has an interest in his work in improving farm methods, and also a financial interest, Mr. Marshall thought the chances were greatly in favor of the boy staying there instead of trying his fortunes in the city. Agricultural education in the public schools was but a question of a few years, and here was where the province of Alberta was leading, as the study of agriculture was already included in the course of study. With the study of home economics and the domestic courses in many of the public schools, the speaker thought it would now be much easier to keep the girl on the farm, especially as in the improved methods now advocated, many of them are for the betterment of the women's share in the household. As to the raising of thoroughbred stock, he was of the opinion from observation in Alberta that the farmer who started slow and gained a little experience, eventually succeeded better than the man who bought extensively of blooded stock, and got his experience afterwards. "The business of farming will fail unless you can have contentment on the farm, and this can be had only by training the boys and girls to take a pleasure in their work."

White Ribboners Sample Salem's Joju

About 300 delegates to the Woman's Christian Temperance Union which recently met in Seattle, were introduced to a temperance drink, one that soothes but most certainly does not inebriate, at the state house Saturday evening. On their way from the national convention at Seattle to San Francisco, the special hearing the delegates stopped in Salem one hour, and it was during their visit to the state institutions and the reception at the state house that loganberry punch was formally introduced to the advocates of a dry country. Met at the train by automobiles furnished by the Commercial club, the delegates, many of whom were really young and charming, were driven about the city and later given a reception at the state house. Miss Anna Gordon, of Evanston, Ill., president of the national W. C. T. U., was introduced by Mrs. Kemp, the Oregon president, who spoke briefly. Other speakers referred to their cordial reception in the west and especially the beauties of the Willamette valley. The delegation spent Sunday in Roseburg and today at Medford. After a brief visit at Ashland, the advocates of national temperance will be taken direct to San Francisco.

Had Several Wives First One Shot Him

San Francisco, Oct. 18.—Mrs. Samuel H. Dyott is in the city prison today, and her divorced husband, whom she shot, is in a critical condition, as the result of the dramatic culmination of a mixup of divorces and weddings. Mrs. Dyott says Dyott married another woman secretly in the east, after having lived with her for 20 years. She declares Dyott, when confronted with a charge of bigamy asked her to divorce him, promising to remarry her after divorcing wife No. 2. Instead of fulfilling his promise, she said he went to Los Angeles, where he married a third time. A fake telegram brought Dyott here yesterday. In the office of an attorney, Dyott refused to remarry his first wife and she shot him.

DIETS A GREAT COACH

Portland, Ore., Oct. 18.—"Lonestar" Diets, coach of the Washington State college football team, is being hailed today as one of the greatest football instructors the northwest has ever seen. With practically the same team that went down to defeat before the O. A. C. and University of Oregon aggregations last year, Diets has perfected a fighting mass that has humbled both in the dust this year by overwhelming scores. By winning the two games, the W. S. C. team has all but clinched the north-west conference championship before the football season is well under way. Diets formerly coached the Carlisle Indians.

TO PLAY AT EXPOSITION

San Francisco, Oct. 18.—The South Tacoma Tigers and the White Ants of Cleveland will meet in San Francisco and Oakland beginning October 23 in a three game series which will determine the amateur baseball championship of the world. Eighty-two thousand persons saw the White Ants win the game in Cleveland which made them champions. Lillian Russell says but few men have acquired decent table manners. Maybe they had them originally, but at noon luncheon, at least, it is the survival of the fittest.

WITHYCOMBE FAVORS "VOTES FOR WOMEN"

Governor Sends Out Campaign Dope To Eastern Suffrage Headquarters

That campaigns for woman suffrage in the east are growing hot is becoming more and more apparent, so far as Governor Withycombe's office is concerned. Almost daily he is receiving telegrams from eastern suffrage workers, asking for his opinion concerning the operation of "votes for women" in Oregon.

Today the Empire State Campaign committee of New York inquired "whether Oregon considers that woman suffrage has raised taxes and election expenses." To this inquiry, Governor Withycombe sent the following reply: "Emphatically there is no ground to believe that woman's suffrage has raised taxes and increased election expenses in Oregon, except so far as latter naturally would increase proportionately to increased number of voters. Equal suffrage is successful here. We of the west hope the men of the east will give eastern women their due."

The Boston Globe also wired today, asking for an expression of Governor Withycombe's opinion as to the workings of equal suffrage here. The governor sent the following message to the Boston paper: "Replying to your inquiry as to my personal opinion regarding the working of woman's suffrage in Oregon, it gives me sincere pleasure to endorse its operation here emphatically. I hope the voters of Massachusetts will have the good sense to take the forward step. The women of Oregon have taken, and continue to take, an active interest in public affairs and use their ballots thoughtfully and well. Education, child protection, civic morality and other of the large issues of community life inevitably are closer to the women than to the men, and where women vote these big questions, upon which rests our best development, receive an oversight and direction which do not permit of their neglect or abuse. I favored woman suffrage many years before Oregon adopted it, and after two years of votes for women here I endorsed it more enthusiastically than ever."

The Charlton Murder Trial Is Resumed

Como, Italy, Oct. 18.—The trial of Peter Charlton, American youth, charged with beating to death his wife, Mary Scott Castle, handsome California divorcee, in their Italian villa, was resumed today. Charlton, still pale and nervous, followed the proceedings from the customary iron prisoner's cage. A secret examination was held to divulge "intimate revelations" not contained in the official public documents. Afterward, the defense was expected to ask a second postponement because of the illness of Micelli Picardi, Charlton's counsel, and also because of the incompleteness of Dr. Defominici's statement regarding Charlton's mentality at the time of the murder.

Would Train Women To Take Men's Places

New York, Oct. 18.—Buen from an European trip, Mrs. Harriet Stanton Blatch, suffrage leader, today declared emphatically for training women to replace men in industries in event of war. Further, she held that universal compulsory service is needed. At the end of the war, she said, both England and France will have suffrage, in her opinion, though trades unions are opposed because they are bitter at the vast extent to which women are doing men's work on railways and in munitions factories.

SOME INHERITANCE TAX.

San Francisco, Oct. 18.—The largest inheritance tax in the history of the state was collected today when the amount of \$251,681 was paid as tax upon the estate of Isaac Kahn, once known as "the oldest mason" who died on April 18. Kahn left several millions.

ODD FELLOWS MEET AT HUBBARD
The semi-annual Marion county District I. O. O. F. convention was held at Hubbard last Saturday, October 9. The convention is composed of all the Odd Fellow lodges in Marion county. There were between 150 and 200 Odd Fellows present from various parts of the county. Ora Cosper, grand secretary of the Rebekah assembly of the state of Oregon; Henry S. Westbrook, deputy grand master, and Robt. Andrews, grand patriarch, were present. S. H. Holzapfel, of Stayton, president of the convention, occupied the chair at the afternoon and evening sessions. At the evening session the Initiatory Degree was put on by Chemeketa Lodge, No. 1, of Salem, Oregon, after which a very sumptuous banquet was served to about 120 members present, by Hubbard Lodge, No. 76, assisted by the Rebekahs. The hospitality of the members of Hubbard lodge deserves special mention, and it was the consensus of opinion that Hubbard Lodge, No. 76, had done itself proud in the way of entertainment and hospitality. The next convention will be held at Scott's Mills near Silverton on the second Saturday in May, 1916, and all Odd Fellows are cordially invited to attend.—Stayton Mail.

Whatever may be said of the railroad sandwich, the railroad doughnut, as at last evolved, deserves honorable mention and description in the cook-book.
