## 300,000 INVITE THE PRESIDENT TO COME

There Are That Many On the Invitation But the Balance of Coast Joins Them

Washington, Oct. 20.—California's invitation to President Wilson to spend his honeymoon on the Pacific coast was slated today for presentation. With it, too, was to go a piece of California gold from Dorothy Starr, and a bouquet of California orange blossoms from Esther Bull. The invitation itself was a petition of 300,000 names in charge of S. Albin McQueeney, a 11 year old school girl.

The date for the president's wedding, however, has not been determined and the president has previously indicated he cannot go to the coast. Miss Margaret Wilson, the president's daughter will return here tomorrow for the first time since her father's engagement to Mrs. Norman Galt was announced. She will be hostess at receptions to Mrs. Galt.

The presidential yacht, Mayflower, will arrive next week having been overhauled and redecorated at Norfolk.

## MORAN MAY MEET WILLARD.

New York, Oct. 20.—Frank Moran of Pittsburg, today stands first in line for a match with Champion Jess Willard by virtue of his victory last night over Jim Coffey. Moran brought their scheduled ten round bout to a sudden close in the third round with a right swing to Coffey's jaw which put him down for the count.

Until this blow was struck Coffey had the better of the bout. The Dublin giant took the aggressive from the top of the gong.

## BRIGHTER CHILDREN

Children are probably brighter today than a generation ago—but are they stronger? That's a grave question. So many pinched faces, dulled eyes and languid feelings make us wonder if they will ever grow into robust, healthy men and women.

If your children catch colds easily, are tired when rising, lack healthy color, or find studies difficult, give them Scott's Emulsion for one month to enrich their blood and restore the body-forces to healthy action.

Scott's Emulsion is used in private schools. It is not a "patent medicine", simply a highly concentrated oil-fool, without alcohol or harmful drugs. It cannot harm; it improves blood; it builds lungs and strengthens the system. Your druggist has it—refuse substitutes. Scott & Bowne, Bloomfield, N. J. 15-24

## NEARLY 3,000 ATTEND SALEM HIGH SCHOOL

Superintendent Elliott Predicts Total Will Soon Be At Least 3,700

The present enrollment of the Salem public schools is 2,928. Superintendent Elliott predicts that within a month or more, the total enrollment will have increased to 3,809. The highest number of pupils in the schools at one time last year was 3,500, and this increase of 200

will be due to a great extent to the new school laws, which permits the pupils of Marion county, as well as other counties to attend without expense to themselves. The new school law provides that pupils from any county in the state, not organized under the old county high school law, may attend any city high school, provided there is no high school in their district. In all such cases, the county pays the entire tuition. Polk county comes under the old law, and where there is no high school in the district, pupils from Polk county may attend a high school wherever they wish and the county will pay \$40 of the yearly tuition, and the pupil the remainder.

This new law will have the effect of bringing fully 200 non-resident pupils into the schools, all of course in the higher grades. At present, 91 pupils from Polk county are attending the senior high school, seven from Polk are in the Washington junior high, and 20 from outside Marion county districts are at the Grant junior high. Lincoln junior high has about 16 pupils from out the district.

Heretofore, the cost of the tuition has prevented many pupils outside the Salem school district from attending the Salem schools. But since the new law is in effect, it is a safe prophecy to say that hereafter over 200 non-resident pupils will have the advantage of the Salem schools at a cost to the counties of just the actual teaching expense a pupil, and not taking into consideration cost of equipment or money invested in buildings and grounds. At present Lane county is sending one pupil, Linn two, Yamhill two, Clackamas one, Tillamook one and Lincoln one.

## President Votes For Woman Suffrage

Princeton, N. J., Oct. 19.—President Wilson today cast his ballot for women suffrage, at the little fire house booth below the Princeton university campus. It was the first time in history that the chief executive of a world nation had taken a stand for a new and a broader sphere for women, yet the event passed almost unnoticed.

Only a knot of his friends, including women, were on hand to greet the one-time head of the university. After casting his ballot, the president strolled about the campus and then returned to his private car for the return trip to Washington.

## SAYS PORTO RICA IS MUCH TOO POPULOUS

Island Has Population of 1,200,000 or 350 To the Square Mile

Mohonk Lake, N. Y., Oct. 20.—The poverty, the sorrow, the misery that is Porto Rico's; and what America and Americans can do to save the little country from itself, were outlined by Gov. Arthur Yager at the thirty-third three-day Lake Mohonk conference which began this morning.

Representative citizens and officials of governments by hundreds are here to discuss Indian, Porto Rican, Philippine and other "dependent people's" affairs. Gov. Yager said in part: "There is much wretchedness and poverty among the masses of Porto Rico. Their dwellings are, made hovels, almost devoid of furniture and crowded beyond belief. Their food consists of rice, codfish and beans, supplemented by the native wild fruits. Their wages are barely sufficient to

## QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards' Olive Tablets, the substitute for calomel. Dr. Edwards, a practicing physician for 37 years, and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers. Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative. No gripping is the "horror" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action. If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—stomach headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime. Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. All druggists. The Olive Tablet Company, Columbus, O.

maintain their existence under these miserable conditions. These conditions have prevailed in Porto Rico for many years. While much has been done to improve the island since the American occupation, it has not been possible to make marked improvement. The fundamental cause is the enormous population, 1,200,000 people.

"The present population is about 350 to the square mile. There are only two or three small states that have more people per square mile: Massachusetts, Rhode Island and New Jersey.

"The area of the island is about four-fifths mountainous, much of it so steep that it can hardly be cultivated at all. Yet this population is so evenly distributed over its whole surface that the center of population is only about five miles distant in a straight line from the geographical center of the island.

"The population is steadily increasing.

"The production and export of coffee remains about the same as in Spanish times. The output of the sugar industry has been multiplied by six. The export of tobacco, cigars, etc., has been increased more than nine times. "The people of Porto Rico are a kindly, charitable, lovable people. The devotion of parents to their children, is equal to that shown among the people of any land. But owing to their inherited improvidence, their racial characteristics, and perhaps to the tropical climate, those checks upon population which in colder climates seem adequate to keep the increase of the people well within the limits of subsistence seem lacking among them.

"The only effective remedy is the transfer of large numbers of Porto Ricans to some other region.

"There is one country only hopefully open to a movement of Porto Ricans, and that is Santo Domingo. "I believe it to be the duty of the United States to make the arrangements necessary to make it possible that these two neighboring islands over which it has assumed a certain control should supplement each other's needs in respect to population."

## Has American Flag Painted On Her Sides

Seattle, Wash., Oct. 20.—When the American flag rigged ship Dirigo leaves for Swedish ports tomorrow with a cargo of barley, she will be the first of the North Pacific vessels to have a great American flag painted on both sides of the gray hull, as well as the wide, 15 foot long, 20 foot high and 10 foot wide, Captain W. M. Mallet took this action as a "safety first" course against German submarines.

## TAMPED WITH WITNESS

Tacoma, Wash., Oct. 20.—Accused by having tampered with states witnesses in a vice case, W. W. Wingard, private detective is awaiting sentence by Judge Ronald today, having been found guilty by the jury that tried him. The maximum sentence for the charge on which Wingard was tried is a year in jail or a fine of \$1,000, or both. This was Wingard's second trial, the first jury, three weeks ago, having disagreed.
