DO THIS FIRST--YOU!

You know, and every physician knows, that when any sickness has passed, whether it be throat trouble, organic disturbances, contagious diseases, or even a severe cold, a relapse is feared, because sickness robs the system of Nature's resistance and leaves it subject to lingering germs.

Drugs never build up a worn-out body--only food can do that, and the first thing to take after any sickness is the concentrated, blood-making oil--food in Scott's Emulsion, which feeds the tissues, benefits the blood and strengthens both lungs and throat.

Physicians prescribe Scott's Emulsion after sickness. Nurses everywhere advocate it. Scott's is pure medicinal food, without alcohol or drugs.

Don't Merely "Stop" a Cough

Stop the Thing that Causes It and the Cough will Stop Itself

A cough is really one of our best friends. It warns us that there is inflammation or obstruction in a dangerous place. Therefore, when you get a bad cough don't proceed to dose yourself with a lot of drugs that merely "stop" the cough temporarily by deadening the throat nerves. Treat the cause—heat the inflamed membranes. Here is a home-made remedy that gets right at the cause and will make an obstinate cough vanish more quickly than you ever thought possible.

Put 2½ ounces of Pinex (50 cents worth) in a pint bottle and fill the bottle with plain granulated sugar syrup. This gives you a full pint of the most pleasant and effective cough remedy you ever used, at a cost of only 54 cents. No bother to prepare. Full directions with Pinex.

It heals the inflamed membranes so gently and promptly that you wonder how it does it. Also loosens a dry, hoarse or tight cough and stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough.

Pinex is a highly concentrated compound of Norway pine extract, rich in guaiacol, and is famous the world over for its healing effect on the membranes.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex," and don't accept anything else. A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

consist of not less than 1500 words on a military subject which he may select and submit to the inspector-instructor on or before the 31st of December, 1915.

These orders for the winter work were issued by the Commander in Chief, through Adjutant General Geo. A. White.

TO ORGANIZE FLORAL SOCIETY

The Salem Floral society will be organized tomorrow evening at 8 o'clock at the auditorium of the Commercial club. The organization of this society is creating considerable interest among the flower lovers in the city as there has been a movement in favor of such an association for several months.

J. W. Maruny, landscape gardener of the state hospital, has been instrumental in the calling of this meeting and will preside during the election of officers for the coming year.

Those who are present tomorrow evening will be considered charter members, and as Salem has so large a number interested in this subject, it is hoped that the first meeting will be well attended.

FAILS TO REVIVE AFTER OPERATION

John Payne, at O. S. T. S., Dies On Operating Table When Heart Stops

John Payne, a 16 year old boy at the Oregon State Training School, failed to recover from an anesthetic yesterday afternoon following an operation for the removal of adenoids and although the pulmotor was sent to the school all efforts to revive him were fruitless.

It is stated that the lad apparently was coming out from the influence of the ether in good shape when suddenly the heart action stopped and stimulant failed to revive him. The pulmotor was sent for at 4:05 p. m. and made the run to the school with all possible speed but no good was accomplished and it is thought that the boy died instantly from heart failure.

The operation was a minor one and it is not thought that the shock was sufficient to injure the lad who was in good health. Chloroform was tried at first but he did not take it readily and ether was then employed.

The boy was sent to the training school from Oregon City in June, 1914, and was apparently one of the strongest boys in the institution. His mother, Mrs. Ella Payne, who lives at Oregon City, had been informed that the operation would take place. She was notified last night of the boy's death. Superintendent Hale will take the body to Oregon City today.

Just before this operation Jack Chambers, another one of the boys at the school, was successfully operated upon for the removal of tonsils.
